Shared Understanding Matrix When to Use References and Resources Index **Teach, Breathe, Learn** Meena Srinivasan, 2014-08-10 In *Teach Breathe Learn* Meena Srinivasan highlights how mindfulness can be an effective tool in the classroom. What makes this book truly unique is her perspective as a classroom teacher wrestling daily with the conditions about which she writes. *Teach Breathe Learn* provides accessible practical application of mindfulness to overcome challenges faced during the school day. Testimonials from students and colleagues are woven throughout the book. *Teach Breathe Learn* is designed for educators at all levels, parents interested in sharing mindfulness with their children, and anyone curious about how to cultivate their own mindfulness practice and eventually teach mindfulness to others. Part 1 helps teachers develop compassion and shift from reacting to responding to demands. Part 2 offers techniques for cultivating loving kindness, gratitude, and seeing students, colleagues, and parents as oneself. The last section of the book introduces a curriculum teachers can use to incorporate mindfulness into their classroom, replete with lesson plans, handouts, and homework assignments.

Theological Education in a New Key Richard L. Hester, 2025-07-31 This book begins with the story of Huckleberry Finn trying to decide whether he should turn in his friend Jim, the runaway slave. He believes that if he doesn't obey the god of slavery and turn Jim in, he will go to hell. It's a crisis that reveals the power of the culture of slavery on the inner textbook of this White boy. Huck's dilemma points to the many ways this White professor explores his teaching career and his efforts to liberate theological education from the transmission of information banking education to opening the inner textbooks of students and their teachers. Richard Hester uses the metaphor of inner textbook to describe what we carry within ourselves that tells us who we are, what we seek, where we're vulnerable, and what we value. He contends that effective theological education opens these inner textbooks to be read along with the prescribed texts for the course. Hester gives attention to his own inner textbook, the Whiteness of it, and what he's learning about the Black experience. *Theological Education in a New Key* aims to help students and their teachers open their inner textbooks to the story of God's dream of belonging and diversity.

Popularizing Science in the Digital Era Sichen Xia, 2023-06-23 This book offers a comprehensive overview of TED talks as a digital multimodal video genre, exploring the ways in which myriad rhetorical, structural, digital, and multimodal resources are used to communicate scientific knowledge to lay audiences. Drawing on insights from genre analysis, the systemic functional approach to multimodal discourse analysis, and the social semiotic approach to multimodality, the volume examines the communicative contexts in which TED talks are constructed, their rhetorical structure, the deployment of multimodal tools, and diachronic developments. The book reflects on the ways in which TED talks are uniquely positioned to offer new insights into how experts disseminate scientific knowledge for non-specialist audiences constructed as they are within a community defined by a fluidity and diversity of audiences and speakers.
