Method and Confessional Identity in the Era of the Reformation (1378-1615) Irena Backus, 2021-10-11 This volume deals with the basic problem of how theologians of all confessions handled ancient mainly Christian history in the Reformation era The author argues that far from being a mere tool of religious controversy history was used throughout the 16th century to express profound religious and theological convictions and that historians and theologians of different confessions sought to define their religious identity by recourse to a particular historical method By carefully comparing the types of historical documents produced by Calvinist Lutheran and Roman Catholic circles she throws a new light on patristic editions and manuals the Centuries of Magdeburg the Ecclesiastical Annals of Caesar Baronius and various collections of New Testament Apocrypha Much of this material is examined here for the first time The book substantially revises existing preconceptions about Reformation historiography and view of the past **Soul** Christian Kanzian, Muhammad

Legenhausen, 2013-05-02 The leading idea of the book is to focus on the common roots of Islamic and Western traditions and to increase awareness of the chances of systematic philosophical dispute with the aim to promote a substantial dialogue on an academic level Most of the collected papers in this edition are results of contributions to a workshop organized by the editors of the volume as an integrated part of a visit to the Imam Khomeini Education and Research Institute IKERI of Qom by a delegation of philosophers from the University of Innsbruck in May 2008 The organizational frame of the workshop and also of this edition is the partnership between the IKERI and the University of Innsbruck the first formal high level academic partnership between an Iranian Institution and a European University The contributions in this edition investigate the topic Soul in an interdisciplinary and comparative way Psychologists Philosophers and Theologians from both Islamic and Western traditions should be brought into dialogue with the focus on the general theme *Oneness, Essence, and Self-Identity*

Damien Janos, 2024-07-22 In how many ways can things be said to be one how is oneness itself to be defined and what is its relation to essence and existence This book engages with these core questions by examining the works of Avicenna d 1037 CE who is widely regarded as the most important philosopher of the Arabic tradition In this monograph the first that is exclusively devoted to Avicenna's henology and to Arabic henology in general the author analyzes the place and meaning of oneness in Avicenna's general metaphysics and theology and devotes particular attention to how this notion relates to

Avicenna's theory of quiddity He contextualizes Avicenna's doctrines in light of three major intellectual currents: ancient Greek philosophy, early Arabic philosophy, and Islamic theology or *kalām*, and also offers the first detailed analysis of oneness in the Bahshamite tradition. The book challenges the prevailing interpretation of Avicenna's henology and adduces new textual evidence to show that Avicenna developed an innovative theory of oneness that expresses the essential reality and self-identity of a thing. This foundational sense of oneness is applied to all the pure quiddities and in an eminent and prior way to God.

An Anthology of Jewish-Russian Literature: Two Centuries of Dual Identity in Prose and Poetry Maxim D. Shrayer, 2015-03-26 This definitive anthology gathers stories, essays, memoirs, excerpts from novels and poems by more than 130 Jewish writers of the past two centuries who worked in the Russian language. It features writers of the tsarist, Soviet, and post-Soviet periods, both in Russia and in the great emigrations, representing styles and artistic movements from Romantic to Postmodern. The authors include figures who are not widely known today as well as writers of world renown. Most of the works appear here for the first time in English or in new translations. The editor of the anthology, Maxim D. Shrayer of Boston College, is a leading authority on Jewish-Russian literature. The selections were chosen not simply on the basis of the author's background but because each work illuminates questions of Jewish history, status, and identity. Each author is profiled in an essay describing the personal, cultural, and historical circumstances in which the writer worked, and individual works or groups of works are headnoted to provide further context. The anthology not only showcases a wide selection of individual works but also offers an encyclopedic history of Jewish-Russian culture. This handsome two-volume set is organized chronologically. The first volume spans the nineteenth century and the first part of the twentieth century and includes the editor's extensive introduction to the Jewish-Russian literary canon. The second volume covers the period from the death of Stalin to the present, and each volume includes a corresponding survey of Jewish-Russian history by John D. Klier of University College London, as well as detailed bibliographies of historical and literary sources.

The Routledge Handbook of Identity and the Environment in the Classical and Medieval Worlds Rebecca Futo Kennedy, Molly Jones-Lewis, 2016-01-08 The Routledge Handbook of Identity and the Environment in the Classical and Medieval Worlds explores how environment was thought to shape ethnicity and identity, discussing developments in early natural philosophy and historical ethnographies. Defining environment broadly to include not only physical but also cultural environments, natural and constructed, the volume considers the multifarious ways in which environment was understood to shape the culture and physical characteristics of peoples, as well as how the ancients manipulated their environments to achieve a desired identity. This diverse collection includes studies not only of the Greco-Roman world but also ancient China and the European Jewish and Arab inheritors and transmitters of classical thought. In recent years, work in this subject has been confined mostly to the discussion of texts that reflect an approach to the barbarian as other. The Routledge Handbook of Identity and the Environment in the Classical and Medieval Worlds takes the discussion of ethnicity on a fresh course.

contextualising the concept of the barbarian within rational discourses such as cartography medicine and mathematical sciences an approach that allows us to more clearly discern the varied and nuanced approaches to ethnic identity which abounded in antiquity The innovative and thought provoking material in this volume realises new directions in the study of identity in the Classical and Medieval worlds

Soul Psychology Joshua David Stone, Ph.D.,2010-11-24 The words of Sai Baba God equals man minus ego are echoed by Dr Joshua David Stone in his seminal work *Soul Psychology* A veteran transpersonal psychologist and family counselor Dr Stone teaches us how our entire understanding of ourselves and others is completely changed when we integrate our soul into the way we live our lives Based on eighteen years of Dr Stone's practice this book is not a psychological approach to spirituality It is rather a spiritual approach to the psychology of everyday living At the heart of *Soul Psychology* is emotional healing through the dismantling of the negative ego a psychological cancer that prevents us from acting in accordance with our soul's true nature and purpose This negative energy drives us to find our security outside of ourselves whereas the only true security is one that is grounded in having a right relationship with self and a right relationship with the Divine To guide us onto this path of spiritual ascension *Soul Psychology* offers a stimulating new viewpoint that expands the boundaries of traditional spiritual practice providing a wealth of accessible and powerful meditations and exercises including The six step process for healing and spiritualizing emotions The spiritual science of the seven rays and the twenty two chakras Methods for clearing negative psychic energies that inhibit soul growth The one hundred most common pitfalls and traps on the spiritual path

Oldhoff,2024-06-10 *Theology of the Soul* engages with a thoroughly theological and philosophical subject in fresh and profound ways the soul The author examines the possibility of a concept of the soul in modern Western theology In the second part of the 20th century speaking about the soul was strongly criticized in Theology and Philosophy Consequently many academic theologians consider the word soul problematic Remarkably the word soul is very much present in contemporary culture This book takes cultural notions of the soul as employed by for example Marilynne Robinson and Oprah Winfrey as a point of departure The author then investigates the functions of the soul in classical theologies and provides elucidating overviews of the ways in which the soul is discussed and problematized in contemporary Philosophy and Biblical Studies After introducing the apostle Paul as conversation partner she reconsiders various contemporary concepts from a Pauline perspective and offers a constructive systematic theological proposal to speak of the soul in today's modern theological and cultural contexts This interdisciplinary study integrates continental and analytic methods and discussions on the soul in Philosophy and Theology providing a very comprehensive study of the soul

The Life of the Soul Andrea Gondos,Leore Sachs-Shmueli,2024-12-01 *The Life of the Soul* surveys the wide ranging theories Jewish mystics have offered to the vexing question what precisely transpires after we die A common element in their theories is that human life is a part of a larger ecosystem of being which also includes plants animals and inanimate things like rocks They further maintained that the soul does not perish with the demise of the body but is rather renewed and recycled into new forms of embodied existence in the lower world Each essay highlights how reincarnation also known as metempsychosis or the transmigration of souls is not a marginalized concept but is instead central to understanding a variety of perplexing issues in Judaism including catastrophic events in Jewish history theodicy the

John Locke and Personal Identity K. Joanna S. Forstrom, 2010-03-31 One of the most influential debates in John Locke s work is the problem of personal identity over time This problem is that of how a person at one time is the same person later in time and so can be held responsible for past actions The time of most concern for Locke is that of the general resurrection promised in the New Testament Given the turbulence of the Reformation and the formation of new approaches to the Bible many philosophers and scientists paid careful attention to emerging orthodoxies or heterodoxies about death Here K Joanna S Forstrom examines the interrelated positions of Rene Descartes Thomas Hobbes Henry More and Robert Boyle in their individual contexts and in Locke s treatment of them She argues that in this way we can better understand Locke and his position on personal identity and immortality Once his unique take is understood and grounded in his own theological convictions or lack thereof we can better evaluate Locke and defend him against classic objections to his thought
