parameters of a music performance hall is difficult. The aim of such work is to create a digital acoustical derivation that is an accurate numerical representation of the complex analog characteristics of the hall. The present study describes the exponential sine sweep ESS measurement process in the derivation of an acoustical impulse response function AIRF of three music performance halls in Canada. It examines specific difficulties of the process such as preventing the external effects of the measurement transducers from corrupting the derivation and provides solutions such as the use of filtering techniques in order to remove such unwanted effects. In addition, the book presents a novel method of numerical verification through mean squared error MSE analysis in order to determine how accurately the derived AIRF represents the acoustical behavior of the actual hall.

Special Event Production Doug Matthews, 2008. Provides a grounding on the specifications and performance of lighting and audio systems, visual presentation technology, special effects and temporary outdoor venues. This book offers an overview of the decorative audio visual and special events options available to producers.

Understanding and Crafting the Mix William Moylan, 2014-10-17. Understanding and Crafting the Mix 3rd edition provides the framework to identify, evaluate and shape your recordings with clear and systematic methods. Featuring numerous exercises, this third edition allows you to develop critical listening and analytical skills to gain greater control over the quality of your recordings. Sample production sequences and descriptions of the recording engineer's role as composer, conductor and performer provide you with a clear view of the entire recording process. Dr William Moylan takes an inside look into a range of iconic popular music, thus offering insights into making meaningful sound judgments during recording. His unique focus on the aesthetic of recording and mixing will allow you to immediately and artfully apply his expertise while at the mixing desk. A companion website features recorded tracks to use in exercises, reference materials, additional examples of mixes and sound qualities and mixed tracks.
