Rethinking Humanitarian Intervention in the 21st Century Aiden Warren, 2017-06-02 Since the

end of the Cold War humanitarian interventions have continued to evolve and respond to a wide range of political crises. These insightful essays focus on the challenges associated with interventions when facing conflict and human rights violations, unmitigated systematic violence, state rebuilding, human mobility and dislocation. Each chapter is linked to the rest through three defining themes that permeate the book: the evolution of humanitarian interventions in a global era, the limits of sovereignty and the ethics of interventions, and the politics of post-intervention rebuilding and humanitarian engagement. The authors incorporate a variety of case studies including Kosovo, Timor-Leste, Syria, Libya, and Iraq, and examine the complexity of interventions across their different dimensions, including relevant doctrines such as R2P, Use of Force, and Human Security.

Researching the Military Helena Carreiras, Celso Castro, Sabina Frederic, 2016-03-02. *Researching the Military* focuses on the experiences of researchers who study the military around the world. It explores the historical, social, institutional, and personal factors that frame research and scrutinize the way knowledge in this area impacts society and policy. More than merely analyzing research experiences, yet necessarily including them, it is also about the experiences of researchers, their position with regard to the object of their studies, the institutional context where they work, and the way their research impacts the academic and policy-making fields in the respective countries. The common theme to the various chapters is reflexivity, a conscious effort at addressing the conditions of research and the position of the researcher and the research participants in that interface. By collecting diverse experiences of researchers from across the world, this volume aims to enhance reflexivity in the field of military studies and to encourage the exchange of knowledge between the academic field and the military arena. This book will be of much interest to students of military studies, research methods, sociology, social anthropology, and security studies in general.

Transnational Histories of Southern Africa's Liberation Movements Jocelyn Alexander, JoAnn McGregor, Blessing-Miles Tendi, 2020-05-21. *Transnational Histories of Southern Africa's Liberation Movements* offers new perspectives on southern Africa's wars of national liberation, drawing on extensive oral, historical, and archival research. Assuming neither the primacy of nationalist loyalties as they exist today nor any single path to liberation, the book unpicks any notion of a straightforward imposition of Cold War ideologies or strategic interests on liberation wars. This approach adds new dimensions to the rich literatures on the Global Cold War and on solidarity movements. The contributors trace the ways that ideas and practices were made, adopted, and circulated through time and space through a focus on African soldiers, politicians, and diplomats. The book also asks what motivated the men and women who crossed borders to join liberation movements, how Cold War influences were acted upon, interpreted, and used, and why certain moments, venues, and relations took on exaggerated importance. The connections among liberation movements, between them and their hosts, and across an extraordinarily diverse set of external actors, reveal surprising exchanges and lasting legacies that have too often been obscured by the assertion of monolithic national histories. Tracing an extraordinarily diverse set of interactions and exchanges, *Transnational Histories of Southern Africa's Liberation Movements* will be of great interest to

scholars of Southern Africa Transnational History the Cold War and African Politics The chapters were originally published as a special issue of the Journal of Southern African Studies **Special Operations Success** James D. Kiras, 2024-10-24

State Behavior and the International Criminal Court Franziska Boehme, 2022-06-09 This book analyzes patterns and causes of state cooperation with the International Criminal Court The work focuses on several African cases including those against leading state officials to dive into current debates about compliance with international law and resistance to international courts The book which draws on interview data collected in The Hague Kenya and South Africa reveals the diversity of state behaviors ranging from full compliance and diplomatic support to partial compliance to resistance and exit This redirects the widespread narrative about African resistance against the ICC to include evidence of continued Court support It is argued that the degree of cooperation the Court receives is affected by a government's perceived costs and benefits of executing an ICC request a cooperation request is considered high cost or low cost depending on the suspect's position the type of action requested and the government's domestic and regional policy objectives In response the Court has been careful not to alienate states further thus highlighting that the Court is both above and below the state having the power to charge individuals including state officials but relying on governments sometimes those from which suspects come to take action on behalf of the Court against the same suspects The book will be of interest to academics researchers and policymakers working in the areas of international law human rights international criminal justice and international relations

Botha, Smuts and the Great War Antonio Garcia, Ian van der Waag, 2023-10-30 In *Botha Smuts and the Great War 1914-1918* authors Antonio Garcia and Ian Van Der Waag conducted painstaking research in South Africa and the United Kingdom to produce this first of a kind volume on the wartime roles of South African prime minister General Louis Botha and his deputy General Jan Smuts These very different men appealed to different audiences Botha's nuance and emotional intelligence complemented Smuts's intellectualism Thrown into a world conflagration in August 1914 and facing internal rebellion and the threat posed by German troops on the borders they led South Africa's Union Defence Force Both Botha and Smuts commanded in the field Steadily the South African army they commanded benefiting from wartime training sometimes

in the field gained resilience experience and battle hardiness adapting to the conditions of the campaigns and the demands of the tasks South Africa's campaigns were complex and divergent starting with the invasion of neighbouring German South West Africa to neutralise enemy radio stations and so aid the security of the South Atlantic Suddenly suspended following the outbreak of the Afrikaner Rebellion the campaign recommenced in January 1915 Following its conclusion an infantry brigade raised for Western Front service was diverted to Egypt before facing near annihilation at Delville Wood Simultaneously a large South African force fighting alongside British African and Indian forces overcame German resistance in East Africa whilst a brigade of field artillery and later the Cape Corps served in Egypt and Palestine Moreover approximately 6 500 South Africans served in the British Army Royal Flying Corps Royal Air Force and in the Royal Navy Although lionised during the war by a British public hungry for heroes there is a different side to Botha and Smuts Shunned by Afrikaner nationalists at the time they have remained divisive figures Responsible for the enactment of the Land Act of 1913 which shaped South Africa's socio economic and political landscape Botha's statues in Cape Town Durban and Pretoria were vandalised on a number of occasions between 2015 and 2022 and there were recent calls for Smuts's statues to be removed Behind Botha's charming attractive façade and Smuts's stoic machine were two very human imperfect and quite probably inconsiderate men Together they provide a wonderful lens through which to examine the potent forces of the early twentieth century world and the country they hoped to forge Myopic compatriots had constrained their plans but it was the outbreak of war in 1914 that offered the most significant opportunities and brought the most adverse challenges They fought insurmountable odds and achieved great victories at home and abroad but also made startling errors and ultimately in classical fashion risked being crushed by the weight of the world they tried to create
