Psychology represents the contributions of over thirty police psychologists all experts in their field on the core subject
matters of police psychology Police psychology is broadly defined as the application of psychological principles and methods
to law enforcement This growing area includes topics such as screening and hiring of police officers conducting screening for
special squads e g SWAT fitness for duty evaluations investigations hostage negotiations training and consultation and stress
counseling among others The book examines the beginnings of police psychology and early influences on the profession such
as experimental investigations of psychological testing on police attitude and performance Influential figures in the field of
police psychology are discussed including the nation s first full time police psychologist who served on the Los Angeles Police
Department and the first full time police officer to earn a doctorate in psychology while still in uniform with the New York

List Annual, 2000 For Security Personnel, DEFENCE and INTERVENTION, Theory and Practice, 2020 (Officer Survival
Skills, Use of Force, Soft Empty Hand Control, Hard Empty Hand Control, Weapon Retention and Disarming, Handcuffing,
Conducting Suspect Searches, Defensive Baton) Mürsel Sevindik, 2020-04-29 This book covers Officer Survival Skills Use of
Force Soft Empty Hand Control Hard Empty Hand Control Weapon Retention and Gun Disarming Handcuffing Conducting
Suspect Searches and Defensive Baton issues for law enforcement officer The most important priority of the officer is able to
survive in dangerous situations These techniques provide officers self confidence which is needed to win Law enforcement
officers are authorized to use a range of force options to preserve the peace prevent crimes maintain order and apprehend

suspects Soft empty hand techniques are the first option of physical response used to restrain a person who is resisting Hard Empty Hand Control techniques are defined as striking techniques In some close encounters a suspect may try to grab the officer's sidearm Officers must develop a defensive awareness that their weapon can be snatched Handcuffs are temporary restraining devices designed to control the movements of a subject Body searching is a careful systematic examination of the suspect at the scene of a crime or immediately after apprehension A trained officer who is proficient in the use of the baton is better able to protect himself and is less likely to resort to the use of his firearm Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement For Security Personnel, HARD EMPTY HAND CONTROL, 2020 Mürsel Sevindik, 2020-04-14 This book covers Hard Empty Hand Control issues for law enforcement officer The goal is to provide police officers with an understanding of the principles of Hard Empty Hand Control techniques Hard Empty Hand Control techniques are defined as striking techniques These techniques are used to control active aggression with empty hands and feet when the intermediate use of weapons is justified but are not tactically available The term hard is descriptive of the nature of the technique Hard empty hand strikes are always defensive not offensive These techniques are taught to protect lives from immediate danger All hard empty hand control techniques are basic in nature however they address non lethal use of force situations and are generally reliable and effective when properly utilized Police officers should learn and demonstrate knowledge of the striking areas as well as methods of striking When these techniques become necessary loud clear repetitive verbal commands are an important aspect of the control process The subject needs to know what the officer desires him/her to do In addition verbal and physical de-escalation is always preferred and should be attempted if applicable In training safety is paramount Perfect practice makes perfect Proper technique is more important than the speed of technique application Proficiency will increase the speed proportionally Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement For Security Personnel, CONDUCTING SUSPECT SEARCHES, 2020 Mürsel Sevindik, 2020-04-16 This book covers Suspect Searching issues for law enforcement officer The goal for officers is to understand and be able to perform proper techniques of searching a subject and escorting him to a designated area A search is a careful systematic examination of the suspect's person at the scene of a crime or immediately after apprehension Body searching is a vague subject It is very difficult to perform in a proper and effective way In body searching there is close contact between the officer and suspect Being in such close contact sometimes creates a critical situation Everyone placed under arrest must be searched There should be no exceptions to this rule Failure to conduct a proper search could cost an officer's or civilian's life Generally there is no legal distinction between searching and handcuffing a man or a woman Gender should not be an inhibiting factor in the application of proper techniques However these techniques should be tempered with the individual officer's good judgment Police officers should not confuse the object of the search with the application of the search technique A cooperative suspect

should not lull the police officer into a false sense of security The suspect s attitude is no guarantee that they will not attempt to escape when such an opportunity presents itself Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement DEFENCE and INTERVENTION -2- (Weapon Retention and Disarming, Handcuffing, Conducting Suspect Searches, Defensive Baton) Mürsel Sevindik,2020-04-25 This book covers Weapon Retention and Gun Disarming Handcuffing Conducting Suspect Searches and Defensive Baton subjects for law enforcement officer In some close encounters a suspect may try to grab the officer s sidearm Loss of the officer s gun could mean the loss of his her life The officer or civilians may be killed or injured by offenders who take and use an officer s firearm Officers must develop a defensive awareness that their weapon can be snatched Handcuffs are temporary restraining devices designed to control the movements of a subject However they do not entirely immobilize a suspect Its proper use and application is crucial for the safety of the officer subject and public Body searching is a vague topic It is a careful systematic examination of the suspect at the scene of a crime or immediately after apprehension Failure to conduct a proper search could cost an officer s or civilians life Modern law enforcement tool baton has been developed to increase officers ability to protect themselves particularly in those cases not justifying the use of deadly force A trained officer who is proficient in the use of the baton is better able to protect himself and is less likely to resort to the use of his firearm Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement
