Bilingual Competence and Bilingual Proficiency in Child Development Norbert Francis,2011-11-18 A study of first and second language development in an indigenous community with implications for broader linguistic and cognitive issues When two or more languages are part of a child s world we are presented with a rich opportunity to learn something about language in general and about how the mind works In this book Norbert Francis examines the development of bilingual proficiency and the different kinds of competence that come together in making up its component parts In particular he explores problems of language ability when children use two languages for tasks related to schooling especially in learning how to read and write He considers both broader research issues and findings from an ongoing investigation of child bilingualism in an indigenous language speaking community in Mexico This special sociolinguistic context allows for a unique perspective on some of the central themes of bilingualism research today including the distinction between competence and proficiency modularity and the Poverty of Stimulus problem Francis proposes that competence knowledge should be considered as an integral

component of proficiency ability rather than something separate and apart arguing that this approach allows for a more inclusive assessment of research findings from diverse fields of study The bilingual indigenous language project illustrates how the concepts of modularity and the competence proficiency distinction in particular might be applied to problems of language learning and literacy Few investigations of indigenous language and culture approach bilingual research problems from a cognitive science perspective By suggesting connections to broader cognitive and linguistic issues Francis points the way to further research along these lines **Modules** McDougal Littell Incorporated,2005 *Modern Language Forum* ,1924 **Story of the World Tests Volume Three Early Modern Times** Susan Wise Bauer,Elizabeth Rountree,2007-08-28 Assess older students and keep a record of work with the Test Book and Answer Key There are 42 tests one for each chapter of The Story of the World Vol 3 Text perfect for evaluating comprehension and retention **Validation in Language Assessment** Antony John Kunnan,2013-04-03 Validation in Language Assessment contributes to the variety of validation approaches and analytical and interpretive techniques only recently adopted by language assessment researchers Featuring selected papers from the 17th Language Testing Research Colloquium the volume presents diverse approaches with an international perspective on validation in language assessment [Catalog of Copyright Entries.
