Golden Fields Hayden R. Smith, 2019-10-31 The basis for this book began twenty years ago when I enrolled in the College of Charleston s summer archaeological field school After spending the first half of the semester honing our technique by digging five foot by five foot units identifying soil stratigraphy and collecting artifacts at the Charleston Museum s Stono Plantation the archaeologists reoriented us students to a new site For the remainder of the field school we investigated Willtown Bluff on the Edisto River an early eighteenth century township surrounded by plantations My interest in inland rice cultivation grew from our work at the James Stobo site a 1710 plantation located on the edge of the Willtown township and one mile from the tidal river For three archaeological seasons between 1997 and 1999 I participated in excavations of the Stobo Plantation house foundation located on a hardwood knoll surrounded by a sea of low lying Cypress wetlands During this time I had a unique opportunity to walk off the dry terra firma and explore miles of inland rice embankments sprawling to the east and to the south of the house site Major embankments traverse the wetlands on a magnetic north south and east west axis intersected by smaller check banks and drainage canals as far as the eye can see under the dense cypress and hardwood canopy Southern Birds Bill Thompson, 2013-09-15 From the editor of the nation s premier birding magazine a no nonsense no fluff quick guide to the birds you see every day Of all the classic American pastimes perhaps none is as widely accessible as watching birds Our unusually vast diverse environmental landscape supports fascinating species and variations exclusive to each region of the country While birders often spend their efforts in search of the rarest creatures some of the most beautiful and intriguing birds are the ones that frequent our backyards or nearby daily For that reason where other larger volumes focus on bird types that the casual observer is never likely to encounter Southern Birds concisely celebrates those species living under our very noses Written by Bill Thompson III the editor and co publisher of Bird Watcher s Digest this portable 5x8 book contains the same variety of entertaining and informative entries that make Bird Watcher s Digest the nation s most popular birding magazine You ll find profiles of the 55 most common birds in the South complete with large color photos gender specific physical descriptions nesting and feeding information bird call particulars and interesting stories about each species Thompson also introduces the reader to the basics of bird watching essential gear bird friendly food and plantings housing tips and observational techniques This guide covers North and South Carolina Georgia
