Start here to master the concepts, technology and procedures of critical care nursing
Introduction to Critical Care Nursing 8th Edition prepares you to provide safe, effective, patient-centered care in a variety of high-acuity, progressive and critical care settings
Evidence-based coverage includes realistic case studies and incorporates the latest advances in critical care
Disorders are conveniently organized by body system or special situation and nursing management chapters include quick reference nursing care plans
This clear, concise textbook will help you develop the knowledge and clinical reasoning skills needed for success in today's highly complex critical care environments
Critical Reasoning Activities are included throughout the text, promoting development of clinical nursing judgment to help you prepare for the Next Generation NCLEX RN Exam
Emphasis on QSEN competencies enables you to gain the knowledge, skills and attitudes needed to provide safe, high-quality health care in a variety of high-acuity, progressive and critical care settings
Evidence-Based Practice boxes illustrate how research evidence is used to address problems in patient care and includes nursing implications plus AACN's new system for Levels of Evidence A, B, C, D, E and M
Universal Collaborative Plan of Care for the Critically Ill Patient addresses key aspects of collaborative, interprofessional care that apply to virtually all critically ill patients
Individual Plans of Care prepare you for clinical practice by describing patient problems, patient outcomes and nursing assessments and interventions with rationales
Case studies challenge you to apply concepts to the real world, testing your clinical nursing judgment by asking questions about patient-specific cases with lab results
Clinical Alerts highlight potential problems and concerns to improve patient safety and clinical care
Laboratory Alerts emphasize the importance of laboratory test results to critical care nursing
Medication tables show the actions, usages, indications, dosages, routes, side effects and nursing implications of medications commonly used in critical care settings
Coverage of cardiac assistive devices includes the ECMO device for extracorporeal life support as well as other small, portable bedside cardiac assistive devices
Hemodynamic monitoring content now emphasizes the noninvasive methods of hemodynamic monitoring that are becoming more prominent
Coverage of infection control addresses the QSEN safety
