Great Source Write Source Texas, 2010-03-29 Resources in Education, 2001-04 **Resources in Education**, 1992 **Perspectives on Rescuing Urban Literacy Education** Robert B. Cooter, 2003-12-08 Perspectives on Rescuing Urban Literacy Education Spies Saboteurs and Saints is an exploration of the variables that contribute to the improvement of literacy instruction in large urban school districts The book grows out of a five year initiative known as The Dallas Reading Plan a 50 million collaborative effort between area business and corporate interests philanthropy and the Dallas Independent School District Audiences include university professors and graduate students in reading literacy education educational leadership special education urban studies and change management theory school board members business and community leaders classroom teachers parents and those concerned with the status of literacy education in urban settings *Kill the Messenger* Richard Phelps, 2017-09-04 In response to public demand federal legislation now requires testing of most students in the United States in reading and mathematics in grades three through eight Many educators parents and policymakers who have paid little attention to testing policy issues in the past need to have better information on the topic than has generally been available *Kill the Messenger* now in paperback fills this gap This is perhaps the most thorough and authoritative work in defense of educational testing ever written Phelps points out that much research conducted by education insiders on the topic is based on ideological preference or profound self interest It is not surprising that they arrive at emphatically anti testing conclusions Much if not most of this hostile research is passed on to the public by journalists as if it were neutral objective and independent *Kill the Messenger* explains and refutes many of the common criticisms of testing describes testing opponents strategies through case studies of Texas and the SAT illustrates the profound media bias against testing acknowledges testing s limitations and suggests how it can be improved and finally outlines the consequences of losing the war on standardized testing **Early Colleges as a Model for Schooling** Julie A. Edmunds, Fatih Unlu, Elizabeth J. Glennie, Nina Arshavsky, 2022-08-16 *Early Colleges as a Model for Schooling* advocates for early college high schools as an effective means of reducing academic cultural and financial obstacles to postsecondary education This perceptive work evaluates both quantitatively and qualitatively the impacts of early colleges hybrids that blend elements of secondary and postsecondary education It examines the strengths and challenges of early college models of different designs and explores their place in the greater education system Julie A Edmunds Fatih Unlu Elizabeth J Glennie and Nina Arshavsky craft their narrative around the findings of one of the most ambitious studies to date on early college high schools a fifteen year longitudinal study involving more than four thousand students across nineteen secondary schools that have adopted the model They offer insight into the student experience within early college high schools and beyond The authors demonstrate how the well structured and supportive educational environment of early college not only prepares students academically for college level coursework but also helps students navigate logistical challenges in applying for colleges and universities They

show how the positive outcomes of the early college experience can help tip the balance toward successful postsecondary educational experiences especially for historically underserved students such as low income students minority students and first generation college students As the authors point out a shift in the way the transition between secondary and postsecondary education is implemented provides an achievable approach to improving college readiness and lowering educational barriers They argue persuasively that wider adoption of this educational model in high schools has great potential to improve overall access to higher education **The Attainment Agenda** Laura W. Perna, Joni E.

Finney, 2014-05-01 How state leadership determines effective higher education attainment Although the federal government invests substantial resources into student financial aid states have the primary responsibility for policies that raise overall higher educational attainment and improve equity across groups The importance of understanding how states may accomplish these goals has never been greater as educational attainment is increasingly required for economic and social well being of individuals and society Drawing on data collected from case studies of the relationship between public policy and higher education performance in five states Georgia Illinois Maryland Texas and Washington The Attainment Agenda offers a framework for understanding how state public policy can effectively promote educational attainment Laura W Perna and Joni E Finney argue that there is no silver bullet to improve higher education attainment Instead achieving the required levels of attainment demands a comprehensive approach State leaders must consider how performance in one area such as degree completion is connected to performance in other areas such as preparation or affordability how particular policies interact to produce expected and unexpected outcomes and how policy approaches must be adapted to reflect their particular context The authors call for greater attention to the state role in providing policy leadership to advance a cohesive public agenda for higher education and adopting public policies that not only increase the demand for and supply of higher education but also level the playing field for higher educational opportunity The insights offered in The Attainment Agenda have important implications for public policymakers college and university leaders and educational researchers interested in ensuring sustained higher education attainment **Subject Guide to Books in Print** ,2001 **Texas State Documents**
