Analytical Modeling of Heterogeneous Cellular Networks Sayande Mukherjee, 2014-01-23 This self contained introduction shows how stochastic geometry techniques can be used for studying the behaviour of heterogeneous cellular networks (HCNs). The unified treatment of analytic results and approaches collected for the first time in a single volume includes the mathematical tools and techniques used to derive them. A single canonical problem formulation encompassing the analytic derivation of Signal to Interference plus Noise Ratio (SINR) distribution in the most widely used deployment scenarios is presented together with applications to systems based on the 3GPP LTE standard and with implications of these analyses on the design of HCNs. An outline of the different releases of the LTE standard and the features relevant to HCNs is also provided. A valuable reference for industry practitioners looking to improve the speed and efficiency of their network design and optimization workflow and for graduate students and researchers seeking tractable analytical results for performance metrics in wireless HCNs.

Writing Queer Women of Color Monalesia Earle, 2019-08-16 Queer women of color have historically been underrepresented or excluded completely in fiction and comics. When present they are depicted as less than the white Eurocentric norm. Drawing on semiotics, queer theory and gender studies, this book addresses the imbalanced representation of queer women of color in graphic narratives and fiction and explores ways of rewriting queer women of color back into the frame. The author interrogates what it means to be Other and how Othering can be more creatively resisted.

Qualitative Methodology Jane Mills, Melanie Birks, 2014-01-20 Fresh, insightful and clear, this exciting textbook provides an engaging introduction to the application of qualitative methodology in the real world. Expert researchers then trace the history and philosophical underpinnings of different methodologies, explore the specific demands

each places upon the researcher and robustly set out relevant issues surrounding quality and rigor. Featured methodologies include action research, discourse analysis, ethnography, grounded theory, case studies, and narrative inquiry. This practical book provides a helpful guide to the research process; it introduces the relevant methods of generating, collecting, and analysing data for each discrete methodology and then looks at best practice for presenting findings. This enables new researchers to compare qualitative methods and to confidently select the approach most appropriate for their own research projects. Key features include: Summary table for each chapter allowing quick checks to test knowledge; Window into sections; real world examples showing each methodology in action; Student activities; Learning objectives; Full glossary; Annotated suggestions for further reading; Links to downloadable SAGE articles; Links to relevant websites and organizations. This is an invaluable resource for students and researchers across the social sciences and a must-have guide for those embarking on a research project.

Race Alan H. Goodman, Yolanda T. Moses, Joseph L. Jones, 2019-12-06. The second edition of the bestselling title on modern notions of race providing timely examination of perspectives on race, racism, and human biological variation. In this fully updated second edition of this popular text on the study of race, Alan Goodman, Yolanda Moses, and Joseph Jones take a timely look at modern ideas surrounding race, racism, and human diversity and consider the ways that ideas about race have changed over time. New material in the second edition covers recent history and emerging topics in the study of race. The second edition has also been updated to account for advancements in the study of human genetic variation which provide further evidence that race is an entirely social phenomenon. *RACE* compels readers to carefully consider their own ideas about race and the role that race plays in the world around them. Examines the ways perceptions of race influence laws, customs, and social institutions in the US and around the world. Explores the impact of race and racism on health, wealth, education, and other domains of life. Includes guest essays by noted scholars, a complete bibliography, and a full glossary. Stands as an ideal text for courses on race, racism, and cultural and economic divides. Combines insights and examples from science, history, and personal narrative. Includes engaging photos, illustrations, timelines, and diagrams to illustrate important concepts.
