punishments and or reprisals and rape have occurred The final topic in this volume is about the theft or destruction of the property of the enemy in terms of either pillage or the intentional devastation of the cultural property of the opposition As a work of reference this set of three books is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself **Bulletin of the University of Texas** ,1912 **Petroleum Age** ,1919 **Plastic Surgery E-Book** Geoffrey C Gurtner,Peter C.
