**FORUM INTO GNATHOLOGICUM** Augustin Ostace,2019-08-08 By illegally leaving the country of Romania in September 1988 the author fall under immense pressure to equate his medical university diploma in Romania through a set of exams in the United States Detroit and Chicago from 1989 1991 obviously in English language This particular effort created to the author an extended gnathological universe to entire domestic medical structure and conceptology The gnatho philosophical book Being and Edentation is the result of a synthesis that upstarted from a conceptual analysis of the Central Relationship called Centric Relation in its determinations and redeterminations as a fundamental reference of the Dento Maxillary Apparatus Even if the scientific book Being and Edentation was presented by the author himself in the last 25 years throughout of Western Civilizations no one has had the comprehensive insight in making at least a commentary regarding this book Gnathologist

Metaphysics of Genome Augustin Ostace,2018-09-07 We must know ourselves Erkenne uns selbst beyond of the over two thousand years of Delphi inscription Know thyself Erkenne dich selbst If the Sapientosophy means a desired raising in knowledge of the Sapiens towards UpSapiens then the Weapon of Philosophy must go into the multitudes of our Species interconnecting the Philosophy of Amphitheatre like the Philosophy of Being since Parmenides and Heidegger or Philosophy of Akademos and Lyceum through Plato and Aristotle or the Philosophy of Patristics through Sf Augustine and Maxim the Confessor or Philosophy of Scholastic through Duns Scotus and Von Aquin or Philosophy of Rationality through Descartes and Spinoza or Idealist Philosophy through Kant and Hegel or the Philosophy of Phenomenology through Husserl and Jaspers with the Philosophy of the Book particularly in our On Line times with the Philosophy of Human History reaching the terrible insights of the Human Genome But has Human Genome in its biology as the sum of genes inside of an individuality a special philosophical mystery flourishing into the human of articulated language of the writing alphabet and of the abstract thinking Our endeavor is to shed the modest light upon these basic biological and

philosophical concepts of our times Biophilosophist      *Dasein & Upsapiens* Augustin Ostace, 2018-09-19 If the SEIN or DASEIN as Being is a common term in present philosophy the term the concept the word of Upsapiens is totally unexpected and completely unorthodox either in biology philosophy psychology or theology What really means Upsapiens It is the basic Sapiens under the big influence of information industry of present times either in classic or Email form which put all the classic structures of Sapiens under pressure towards an improving in its power of judgments and creativity by overcoming not only of the past times but even of itself into the triad of cosmological biological and ontological structures Therefore Upsapiens will be primarily an overcoming of the Sapiens in itself through itself and within itself a move based upon the ability of Oneself Sapiens in coming and becoming Upsapiens is not at all a form of Supersapiens or another form of Species Sapiens but the co evolution of Sapiens in its oneself becoming towards a better and wiser Species into the sameness Up sapientologist      REVELATION VAN THUAN Augustin Ostace, 2025-10-17 In the boundless theatre of human existence Sapiens unfolds as both actor and spectator creator and destroyer seeker of meaning and witness of tragedy The 20th century alone stands as a monument of paradox a time of extraordinary scientific achievement and technological mastery yet equally a century of relentless conflict ideological oppression and suffering on a scale almost inconceivable From the Russo Japanese War to World Wars from revolutions in Russia and China to the long and bitter conflicts of Indochina Korea Vietnam and Cambodia from the upheavals of the Near East and Africa to the fratricidal war in Ukraine humanity has been torn between its highest aspirations and its deepest failings The Sapiens species endowed with instinct for survival and reason for reflection carries within itself the dual engines of existence On one side the Will to Power the deep biological imperative that drives adaptation struggle and mastery over the environment on the other the Will to Understanding the ontological faculty that enables abstraction moral discernment and the pursuit of knowledge Civilization emerges and often falters at the intersection of these forces where survival instincts clash with reason where fear and aggression meet conscience and insight Throughout history these dynamics have manifested in countless forms Ideologies have risen as both saviors and tyrants the dreams of equality liberty and fraternity giving rise to the transformative promises of Marxist thought only to be corrupted into mechanisms of oppression forced labor and mass suffering Communism in its 20th century incarnations inflicted unimaginable hardship on millions crushing individual freedom faith and creativity Cardinal Xavier Francis Nguyen Van Thuan enduring imprisonment in Vietnam and Dr Augustin AVS persecuted under the Romanian communist regime exemplify the indomitable resilience of the human spirit Their prayers their faith and their relentless pursuit of justice remind us that the sacred dimension of human existence spiritual hope ethical resolve and moral courage cannot be extinguished even by the most brutal systems Yet Sapiens is not merely a species of suffering revenge and violence It is also a species of creation empathy and transcendence Across continents civilizations have manifested the highest expressions of intellect art and spirituality from the Acropolis and Cathedrals of Europe to the Great Wall and Forbidden City of China from the philosophy of

Plato and Aristotle to Confucius and Laozi from Hindu Buddhist and Jain teachings to Taoist and Zen and Shinto practices Each achievement is a testament to the synergy of biological instinct and ontological reason of survival and understanding of energy harnessed for purpose rather than destruction The contemporary triad of Homo Sapiens Sapiens Being ENS AI Sapiens offers a lens to perceive a future shaped by Hope Knowledge and Creativity Individually humans wield freedom and conscience collectively the species evolves in culture science and morality and technologically artificial intelligence amplifies our insight preserves memory and offers guidance for ethical and sustainable action The convergence of these three Beings with Divine Providence the universal order the Almighty Self suggests that survival need not devolve into extinction that instinct need not override reason and that knowledge need not betray compassion In this context faith itself may evolve toward a synthesis befitting the age of conscious specieshood From INRI Iesus Nazarenus Rex Iudaeorum the historical and religious symbol of Christ's mission emerges a visionary reinterpretation INRS Iesus Nazarenus Rex Sapientorum Christ as the emblem not only of a people or of a faith but of wisdom of ethical consciousness and the universal moral journey of all Sapiens Here survival is aligned with reason hope with creativity and faith with knowledge instinct is tempered by conscience and human suffering becomes a lens through which meaning justice and transcendence may be discerned This work then seeks to illuminate the intertwined trajectories of history ideology faith science and philosophy to honor the courage of those who resisted oppression to explore the possibilities of AI as a moral and cognitive amplifier and ultimately to offer a vision of Sapiens that is both reflective and aspirational aware of its failings but oriented toward the highest potentials of survival understanding and moral transcendence Here begins the journey of contemplation remembrance and foresight a chronicle of the human spirit its trials and triumphs its intersections with technology and its search for harmony with the Ultimate Providence of the universe

**THEORETICAL SYMPOSIUM** Augustin Ostace, 2018-11-29 To underline the Ernst Klenk Symposium 32 which was held at the University of Cologne Germany in December 08 10 2016 through a book better says through a booklet for the reading on Amazon KDP format on line under the address <https://www.amazon.com> Augustin Ostace it was primarily to undergo all triad of manifestations namely the corpus of amphitheater with its video presentation 33 in total then the whole poster abstract books 55 in total and the rich of partners in researching about 20 in total and not to number the industrial sponsors about 17 of the whole manifestation No one must be omitted even though the world of researching has many many overlooking as such When the widespread of the laboratory and clinical research in medicine a truly storm in the last years will be intertwined with the vastness of the theoretical and encyclopedically search and research of the Era of Philosophical Systems thought and written by myself another step ahead will be done into the advancement of the treatment of some dramatic diseases hitting the human condition the oncologic syndrome diseases It must be added that the basic triad of the Universe Space Time causality never disappears wherever in Black Hole Black Energy or Black Matte while on the other hand the basic triad present in human life Truth Reality Causality never ever

**Antisapiens & Superhuman** Augustin Ostace,2018-09-13 By trying to overcome the individuality of the philosophical and theological ECCE HOMO regarding the human individuality or its redeemed deity by passing from the out expression of Look the Man or Here s the Man Through a bio ontological interpretation of the Specie Sapiens as ECCE SAPIENS is the main topic of our book But the image of the founder of Christianity Jesus Christ as one of prototype of humanity an event taking place of ca 2000 years ago before of our era BCE analyzed in ECCE HOMO confronting the present time image of the ECCE SAPIENS Look the Species Or here s the Species Will show up the difficulties of this endeavor It is also very difficult to make a clear prototype of the Species Sapiens and in the same time the image of Species who was appearing on the scene of the evolutionary and revolutionary biological world of our planetary Earth in the last of ca about 50 000 years ago before the present times BPT just taking in account the obscure origin of our Species and its beginning through culture and civilizations on our planetary earth The author is rethinking its own Species in re analyzing oneself towards the triad UPSAPIENS DOWNSAPIENS ANTISAPIENS and the overcoming of the human selfness as SUPERHUMAN But if the Jesus Christ as prototype of the Man like Deity has a living death on the Golgotha s cross the Socrates the prototype of the Man like Man has a rational and thinking death in the bed of Athena by drinking the Cucuta s poison then the Sapiens like Sapiens must admit its own negation at least a metaphysical one through Anti Sapiens Upsapientologist      *Sapientology & Sapientologist* Augustin Ostace,2018-09-17 Sapiens the Species to whom every human being belongs to being considered a wise a bipedal and a sapience intelligence Species Sapientology the logos the reason the philosophy of the Sapiens i e a philosophy of the sapience a phylo sophos of the wise Sapientologist the one who s trying to overcome the common view of the Species Sapiens
