Teaching in Tension Frances Vavrus,Lesley Bartlett,2013-06-13 In recent years international efforts to improve educational quality in sub Saharan Africa have focused on promoting learner centered pedagogy However it has not flourished for cultural economic and political reasons that often go unrecognized by development organizations and policymakers This edited volume draws on a long term collaboration between African and American educational researchers in addressing critical questions regarding how teachers in one African country Tanzania conceptualize learner centered pedagogy and struggle to implement it under challenging material conditions One chapter considers how international support for learner centered pedagogy has influenced national policies Subsequent chapters utilize qualitative data from classroom observations interviews and focus group discussions across six Tanzanian secondary schools to examine how such policies shape local practices of professional development inclusion gender and classroom discourse In addition the volume presents an analysis of the benefits and challenges of international research between Tanzanian and U S scholars

illuminating the complexity of collaboration as it simultaneously presents the outcome of joint research on teachers beliefs and practices The chapters conclude with questions for discussion that can be used in courses on international development social policy and teacher education This volume written by a multi national team of scholar practitioners makes an important contribution to our understanding of learner centered teaching and collaborative educational research Based on an intensive investigation in Tanzania of a professional development program and teachers efforts to conceptualize and implement a globally promoted pedagogical approach the authors illustrate and critically analyze how these practices are enabled and constrained by cultural lenses power relations and material conditions Importantly they also examine reflexively how cultural power and resource issues shaped their struggle to engage in a collective praxis of qualitative inquiry The tensions referenced in the title sparked valuable insights which will be useful to educators researchers and policy makers Mark Ginsburg FHI 360 and Teachers College Columbia University
