Office Urology James C. Ulchaker, 2000-09-22 Although urology is a surgical specialty it has become apparent that changes in health care delivery and financing have led to an increasing volume of care being provided by urologists in their offices A major part of the revenue of a urology practice depends on office production and efficient management To have a successful practice the productive committed urologist must have a thorough understanding of the procedures and problems that need to be dealt with in the office Moreover the urologist must play an active role in the administration and business aspects of running the office Surprisingly very little has been written about the office practice of urology *Office Urology The Clinician s Guide* presents a fresh practical and concise text book covering the vital issues that the urologist must face on a daily basis in the office The initial chapters of the textbook cover the critical aspects of managing the urologic office such as principles of management marketing the practice proper billing and coding advanced information systems and important legal issues The book is not intended to review in detail the academic aspects of the various pathologies pertaining to urology which have been well covered in several other textbooks Instead the clinical chapters deal with practical issues such as selecting appropriate treatment and counseling patients on the optimal therapy for the problems that the urologist frequently manages The individual authors have demonstrated expertise in their fields **The Practitioner's Manual** Charles Warrenne Allen, 1902 **Adult-Gerontology Practice Guidelines, Second Edition** Jill C.
