Bejarano, 2013-08-15 During the past decade racial ethnic minority women have made significant strides in U S politics comprising large portions of their respective minority delegations both in Congress and in state legislatures This trend has been particularly evident in the growing political presence of Latinas yet

scholars have offered no clear explanations for this electoral phenomenon until now In *The Latina Advantage* Christina E Bejarano draws on national public opinion datasets and a close examination of state legislative candidates in Texas and California to demonstrate the new power of the political intersection between race and gender Underscoring the fact that racial ethnic minority women form a greater share of minority representatives than do white women among white elected officials Bejarano provides empirical evidence to substantiate previous theoretical predictions of the strategic advantage in the intersectionality of gender and ethnicity in Latinas Her evidence indicates that two factors provide the basis for the advantage increasingly qualified candidates and the softening of perceived racial threat leading minority female candidates to encounter fewer disadvantages than their male counterparts Overturning the findings of classic literature that reinforce stereotypes and describe minority female political candidates as being at a compounded electoral disadvantage Bejarano brings a crucial new perspective to dialogues about the rapidly shifting face of America s electorate

Sullivan, 2019-07-29 *Valuable Partnerships* Cooperation Innovation and the Future of Municipal Texas bridges rich scholarship and practical application to produce an important reference for local government scholars and practitioners alike

by covering the dynamic approaches altering how Texas municipalities operate Valuable Partnerships investigates the efficacy of the American fragmented municipal model comprised of 89 000 jurisdictions Critics consistently criticize this decentralized model while arguing for a regional structure yielding greater efficiencies and scalability that also solves the twin problems of equity and service delivery inequalities Conversely Valuable Partnerships presents evidence that Texas local governments leverage regional cooperation and innovation to achieve these results without the political and structural upheaval The author utilizes historic analysis benchmark results socioeconomic measures and budgetary data to demonstrate how Texas governments increase service performance and reduce the burden to taxpayers Such results support a counter thesis to the structural regionalism hypothesis by presenting findings that Texas local jurisdictions embracing regional cooperation and data analytics will experience the same benefits *Practicing Texas Politics, 12th Ed + 2004 Election Supplement* Brown,2005-01-01
