Juniors can now begin the Common App at any time prior to the start of their senior year, and the information will roll over when the new Common App is released (typically in August). The only pieces that won't roll over are college specific questions, questions that have been changed or removed, or recommender information.

5. Discuss an accomplishment, event, or realization that sparked a period of personal growth and a new understanding of yourself or others.
6. Describe a topic, idea, or concept you find so engaging that it makes you lose all track of time. Why does it captivate you? What or who do you turn to when you want to learn more?

Marriage Markets June Carbone, Naomi Cahn, 2014 There was a time when the phrase American family conjured up a single specific image a breadwinner dad a homemaker mom and their 2 5 kids living comfortable lives in a middle class suburb Today that image has been shattered due in part to skyrocketing divorce rates single parenthood and increased out of wedlock births But whether it is conservatives bemoaning the wages of moral decline and women's liberation or progressives celebrating the result of women's greater freedom and changing sexual mores most Americans fail to identify the root factor driving the changes economic inequality that is remaking the American family along class lines In *Marriage Markets* June Carbone and Naomi Cahn examine how macroeconomic forces are transforming our most intimate and important spheres and how working class and lower income families have paid the highest price Just like health education and seemingly every other advantage in life a stable two parent home has become a luxury that only the well off can afford The best educated and most prosperous have the most stable families while working class families have seen the greatest increase in relationship instability Why is this so The book provides the answer greater economic inequality has profoundly changed marriage markets the way men and women match up when they search for a life partner It has produced a larger group of high income men than women written off the men at the bottom because of chronic unemployment incarceration and substance abuse and left a larger group of women with a smaller group of comparable men in the middle The failure to see marriage as a market affected by supply and demand has obscured any meaningful analysis of the way that societal changes influence culture Only policies that redress the balance between men and women through greater access to education stable employment and opportunities for social mobility can produce a culture that encourages
