practices for social workers activists community organizers counselors and other helping professionals Healing justice a term that has emerged in social movements in the last decade is taught as a practice of connecting to the whole self what many are conditioned to ignore the body mind heart spirit community and natural world Drawing from the East West modalities of mindfulness yoga and Ayurveda the author introduces six capabilities mindfulness and compassion critical thinking and curiosity and effort and equanimity which can guide practitioners on a transformative and empowering journey that can ultimately make them and their colleagues more effective in their work Using case studies critical analysis and skill sharing self care is presented as an act of resistance to disconnection marginalization and internalized oppression Healing justice is a trauma informed practice that empowers social practitioners to cultivate the conditions that might allow them to feel more connected to themselves their clients colleagues and communities The book also engages critically with self care practices including investigation into the science of mindfulness cultural appropriation and the commodification of self care The message is clear that mindfulness based practices are not a panacea for personal inter personal or political problems But they can put practitioners in a more authentic and powerful place to work from which is particularly important in a world where there is more connection to technology ideologies and people who share one s beliefs and less connection to the natural world people who are different and the parts of oneself that one tends to reject The book also offers suggestions for how to share self care practices with community members who have less access to wellness

Essential Interviewing Skills for the Helping Professions Nicole Nicotera, 2018-04-26 Essential Interviewing Skills for the Helping Professions reaches beyond most other essential skills for clinical interviewing books with its emphasis on social justice attention to the role of microaggressions in clinical practice and the utmost importance of practitioner wellness as integral to longevity in the helping professions Each chapter addresses interviewing skills that are foundational to the helping professions from mental health to physical health includes detailed exercises addresses social justice and discusses practitioner wellness opportunities Sometimes clients stories are fraught with trauma other times their stories are bound within generations of substance addiction or family violence while other clinical stories present personal and social obstacles that arise from years of oppression at the hands of prejudice and discrimination This book therefore goes beyond the basic ideas of choosing when to use an open question or to reflect emotions by covering how to integrate social justice and knowledge of power privilege and oppression into the interviewing arena Essential interviewing skills require the practitioner to not only purposefully listen to the client s story but also to be self aware and willing to acknowledge mistakes and learn from them The work of the clinical interviewer is a continuous challenge of balancing listening responding action and self awareness and this book is designed to help

Inventing Catholic Tradition Terrence W. Tilley, 2011-06-07 This creative argument that traditions are neither found nor made but are invented and reinvented in practice is carried out in dialogue with scholars such as Yves Congar and George Lindbeck Tilley examines the actual practices as the bearers of tradition and argues that vibrant and meaningful traditions must be reinvented or reconstructed in every generation He demonstrates how deliberately invented or imposed traditions are often resisted Tilley applies his analysis to the Catholic Intellectual Tradition and in the last chapter shows how truth revelation and authority can be accommodated by a constructivist practical theology of tradition
