The Role of Leadership Educators Kathy L. Guthrie, Daniel M. Jenkins, 2018-02-01. Leadership as a discipline, leadership education as a field, and leadership education as a profession are still in their infancy and rapidly evolving. As professionals in higher education, we are constantly asked to provide opportunities for students to learn leadership, whether that is inside or outside of the classroom. However, very little if any professional development occurs in how to create such learning opportunities. This book provides resources for leadership educators in three sections. The first section sets the stage for leadership education and the professional work of leadership educators, culminating with a variety of professional development resources for leadership educators. The second section introduces a leadership learning framework, provides characteristics and examples of strong leadership programs, and assessment practices, and describes the transformative practice of leadership education. The third and final section offers specific instructional and assessment strategies, ranging from discussion, case study, and reflection to team-based and service learning, to self-assessments, role-play, simulation, and games to fulfill learning outcomes. **The Student Leadership Challenge** James M. Kouzes, Barry Z. Posner, Beth High, Gary M. Morgan, 2014-02-27. The Student Leadership Challenge Activities Book includes more than 50 activities that give educators a bridge between teaching The Five Practices of Exemplary Leadership model and helping students learn to apply the practices to their lives. The activities map to each of The Five Practices and are designed to be flexible, appropriate for high school and college students, and greatly improve students' understanding of The Five Practices model through action. The activities include facilitator tips for use in a variety of settings and with various age groups. **Recreation Program**
