Making Sense of Nature Noel Castree, 2013-08-15 We listen to a cacophony of voices instructing us how to think and feel about nature including our own bodies The news media wildlife documentaries science magazines and environmental NGOs are among those clamouring for our attention But are we empowered by all this knowledge or is our dependence on various communities allowing our thoughts sentiments and activities to be unduly governed by others Making Sense of Nature shows that what we call nature is made sense of for us in ways that make it central to social order social change and social dissent By utilising insights and extended examples from anthropology cultural studies human geography philosophy politics sociology science studies this interdisciplinary text asks whether we can better make sense of nature for ourselves and thus participate more meaningfully in momentous decisions about the future of life human and non human on the planet This book shows how nature can be made sense of without presuming its naturalness The challenge is not so much to rid ourselves of the idea of nature and its collateral concepts such as genes but instead we need to be more alert to how why and with what effects ideas about nature get fashioned and deployed in specific situations Among other things the book deals with science and scientists the mass media and journalists ecotourism literature and cinema environmentalists advertising and big business This innovative text contains numerous case studies and examples from daily life to put theory and subject matter into context as well as study tasks a glossary and suggested further reading The case studies cover a range of topics range from forestry in Canada and Guinea to bestiality in Washington State to how human genetics is reported in Western newspapers to participatory science experiments in the UK Making Sense of Nature will empower readers from a wide range of fields across the social sciences humanities and physical sciences

homme qui représente le monument juridique le plus important de l'époque moderne Karosserieentwicklung und -Leichtbau
 Xiangfan Fang, 2023-06-01 Das Buch behandelt alle wissenschaftlichen und technischen Aspekte der Karosserieentwicklung und des Karosserieleichtbaus. Es ist an Studierende der Fahrzeugtechnik und Ingenieure der Karosserieentwicklung in der Automobil und Zuliefererindustrie adressiert, die das Thema erlernen, vertiefen und in den F&E-Arbeiten einsetzen möchten. Hierzu soll ein umfassender und gleichzeitig tiefergehender Einblick in die Karosserieauslegung, Konstruktion, Berechnung und Fertigung sowie Leichtbau vermittelt werden. Dabei wird zunächst größter Wert darauf gelegt, die mechanischen Grundprinzipien der Struktur analytisch zu verstehen. Damit sollen Ingenieure in der Lage sein, die Karosseriestruktur auch zunächst ohne FEM konzeptionell auszulegen. Ein weiteres wichtiges Ziel ist die Wechselwirkungen zwischen den konstruktiven Konzepten für die Karosseriestruktur mit den aktuellen und zukünftigen Werkstoffen und den damit verbundenen Fertigungstechniken systematisch zu verknüpfen. Dabei werden analytische Methoden der Materialauswahl für den Leichtbau auf Grundlage der Mechanik erläutert. Darüber hinaus werden ausgehend von den theoretischen Grundlagen viele praktische Umsetzungsbeispiele mit unterschiedlichen Lösungsansätzen von verschiedenen OEMs aufgezeigt. Der Leser soll damit einen guten Überblick über die Karosserieentwicklung und den Leichtbau erhalten. Das Buch soll nicht nur den Stand der Technik wiedergeben, sondern auch den Leser zum Nachdenken zu eigenen Lösungen anregen. Es soll damit als ein nützliches Werkzeug für den Entwickler in der Automobil und Zuliefererindustrie dienen. *Germany, Inc.* Werner Meyer-Larsen, 2000 Ten strong egos, three different strategies and one major target: Enter Deutschland AG Volkswagen v Ford Bertelsmann v Time Warner Hoechst BASF and Bayer v DuPont Allianz v Metropolitan Life Lufthansa v American Airlines Airbus v Boeing The contest is thrilling, intoxicating even. The figures of Deutschland AG versus those of Corporate America: everything is so right it's really wrong when you come right down to it. As Japan's sun sinks slowly in the West, a formidable new competitor has risen to replace her as America's chief rival in the battle for global business leadership. Emboldened by reunification and its role as leader of the European Union, Germany is flexing its muscles. For the first time in history, a transatlantic global conglomerate is rapidly taking shape, its policies defined by a small band of German business elites. What are the economic, sociopolitical and cultural forces driving the new German expansionism? What is the strategy behind it and how threatening is it really? Who are the major players involved and what can we expect from them in the years ahead? How do Germany's plans fit with the ultimate unification of European economies under the euro? And perhaps most intriguing, to what extent has American post-cold war policy been deliberately skewed to encourage the hegemony of Germany Inc. and why? Written by Werner Meyer-Larsen, a journalist who has closely covered the transatlantic business beat for over a decade, this book provides answers to these and other questions of crucial importance to every businessperson. While the merger of Daimler-Benz and Chrysler in March 1999 is popularly held to have been the opening shot in a new war of global attrition, it was, as Meyer-Larsen explains, in reality a major turning point in a German offensive that has been quietly

gaining ground for some years Since the late 1980s a handful of Germany's most powerful industrial concerns has been steadily chipping away at America's lead in a range of sectors including publishing air travel steel insurance and cars Leading the attack is a new generation of ambitious young executives unencumbered by the political restrictions or sins of their predecessors and bolstered by a virtual banking cartel controlled by Deutsche Bank Compelled as much by their anxiety over the post cold war power vacuum as a desire to strut their stuff on a global scale their battle cry is Go West Think big Meyer Larsen traces the growth of these companies and the evolution of Germany Inc He takes us inside Daimler Lufthansa VW Bertelsmann Hoechst Siemens Allianz and the other top players to reveal their strategies And he provides vivid portraits of the men who control their reins including Ferdinand the Shark Piech of VW Bertelsmann's Thomas Middelhoff aka Mr Spock Mr Stockmarket Rolf E Breuer of Deutsche Bank and Gerhard Crommer of Krupp the Spider in the Web of Steel explaining in each case the likely impact of each leader's style on the future of his industry A penetrating fact filled exploration of a development of paramount commercial geopolitical and cultural importance Germany Inc is must reading for businesspeople policymakers and students of current affairs everywhere Standard & Poor's Creditweek ,2008
