unbiased policing to all the country's people More than two decades since the initiation of the reforms it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity This book offers a unique perspective by providing in depth analyses of police integrity in South Africa It is a case study that systematically and empirically explores the contours of police integrity in a young democracy Using the organizational theory of police integrity the book analyzes the complex set of historical legal political social and economic circumstances shaping police integrity A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules their expectations of discipline within the SAPS and their willingness to report misconduct The book also examines the influence of the respondents race gender and supervisory status on police integrity Written in a clear and direct style this book will appeal to students and scholars of criminology policing sociology political science as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations

Hitmen for Hire Mark Shaw, 2017-07-10 *Hitmen for Hire* takes the reader on a journey like no other navigating a world of paid hitmen informers rogue policemen criminal taxi bosses gang leaders and crooked politicians and businessmen Criminologist Mark Shaw examines a society in which contract killings have become commonplace looking at who arranges hits where to find a hitman and even what it is like to operate as a hitman or woman Since 1994 South Africa has seen a worrying increase in the commercialisation of murder and has been rocked by several high profile contract killings Drawing on his research of over a thousand incidents of hired assassinations from 2000 to 2016 Shaw reveals how these murders are used to exert a mafia type control over the country's legal and illegal economic activity Contracted assassinations and the organised criminal activity behind them contain sinister linkages with the underworld most visibly in relation to disputes over tenders and access to government resources State security actors increasingly mediate relations between the under and upper worlds with serious implications for the long term success of the post apartheid democratic project

Why We Kill Karl Kemp, 2024-03-02 Why do so many South Africans prefer taking the law into their own hands to relying on the police Why are those who do so often cheered or sympathised with Of the unprecedented 27 000 recorded murders in South Africa in 2022 at least 1 894 or 7 per cent were attributed to mob justice and vigilantism more than double the number from five years before In the first nine months of 2023 a further 1 472 mob justice deaths had already been registered Mob justice is nothing new but in recent years it has taken on an undeniably desperate furious edge From the breathtakingly violent Zandspruit massacre in May 2021 to the killings during the July unrest two months later to the march of Operation Dudula across the nation in 2022 vigilantism and the condoning of it has never before captured the zeitgeist of South Africa so sharply What has changed in the past few years and what does it augur for the future Following three recent cases of mob justice from the hellish metropolitan townships of Gauteng to the far flung bushveld of northern Limpopo and drawing on extensive research and interviews *Why We Kill* explores the roots realities and consequences of South Africa's

current crisis of vigilantism

non equilibrium condensation in flue gas and migration trajectory - May 06 2022

web aug 1 2023 this chapter sets the flue gas with initial supercooling degree ranging from 32 18 k to 23 19 k and illustrates the effect of initial supercooling on separation efficiency and non equilibrium condensation

soot elimination and heat recovery of industrial flue gas by - Mar 16 2023

web feb 19 2020 principle of soot elimination by heterogeneous condensation when the flue gas temperature decreases rapidly an oversaturated vapor environment is formed

benchmarking and potential of heat pumps for flue gas condensation - Aug 09 2022

web 1 analyzes flue gas condensation in industrial applications heat pumps are mentioned as feasible but costly option for recovery of latent heat at higher return temperatures and investment decision of conventional condensing technology is said to be case dependent

emission reduction of condensable particulate matter in - Mar 04 2022

web oct 1 2021 flue gas temperature drop is key influence factor and optimum value is 4 6 c abstract with ultra low emissions being implemented in china the proportion of condensable particulate matter cpm increased gradually in total particulate matter tpm

flue gas condensation wikipedia - Aug 21 2023

web flue gas condensation is a process where flue gas is cooled below its water dew point and the heat released by the resulting condensation of water is recovered as low temperature heat cooling of the flue gas can be performed either directly with a heat exchanger or indirectly via a condensing scrubber

flue gas condensation for energy recovery babcock wilcox - Jul 20 2023

web by cooling the flue gas to below its dew point it is possible to recover large quantities of latent heat if the flue gas

temperature after the boiler is approximately 150°C it is possible by means of flue gas condensation to increase the energy efficiency by an additional 20

performances of gas water direct contact heat transfer springer - Feb 03 2022

web cooled below dew point and water vapor in the flue gas releases condensation heat which has achieved the purpose of recovering waste heat and condensed water direct contact heat exchangers are generally combined with absorption heat pumps

synergistic removal of particles so₂ and no₂ in desulfurized flue gas - Apr 05 2022

web jan 28 2021 the condensation of desulfurized flue gas using heat exchangers can not only recover condensed water and latent heat but also create supersaturated environment to promote the flue gas purification in this study an experimental system for desulfurized flue gas condensation is established

condensation heat transfer characteristics of flue gas moisture - Jun 19 2023

web aug 15 2023 the results show that capillary condensation is more pronounced in high temperature flue gas which improves heat transfer efficiency and results in a higher wall temperature rise at the flue gas outlet

wet stack analysis of condensation - Jan 14 2023

web condensation on the liner wall due to temperature and concentration gradients adiabatic condensation droplets which passed through the eliminator after fgd the condensation layer especially on the wall of the stack may be pulled back into the flue gas stream this corresponding author Ondrej Bartos fs cvut cz
