Hicks, Federico Pisanò, Joek Peuchen, 2018-06-13 Cone Penetration Testing 2018 contains the proceedings of the 4th International Symposium on Cone Penetration Testing CPT 18 Delft The Netherlands 21-22 June 2018 and presents the latest developments relating to the use of cone penetration testing in geotechnical engineering It focuses on the solution of geotechnical challenges using the cone penetration test CPT CPT add on measurements and companion in situ penetration tools such as full flow and free fall penetrometers with an emphasis on practical experience and application of research findings The peer reviewed papers have been authored by academics researchers and practitioners from many countries worldwide and cover numerous important aspects ranging from the development of innovative theoretical and numerical methods of interpretation to real field applications This is an Open Access ebook and can be found on www.taylorfrancis.com

Mastering Writing at Greater Depth Adam Bushnell, Angela Gill, David Waugh, Rob Smith, 2023-02-09 This book provides teachers with support guidance background theory examples and practical advice for the teaching of writing at greater depth

Applied Spatial Statistics and Econometrics Katarzyna Kopczewska, 2020-11-25 This textbook is a comprehensive introduction to applied spatial data analysis using R Each chapter walks the reader through a different method explaining how to interpret the results and what conclusions can be drawn The author team showcases key topics including unsupervised learning causal inference spatial weight matrices spatial econometrics heterogeneity and bootstrapping It is accompanied by a suite of data and R code on Github to help readers practise techniques via replication and exercises This text will be a valuable resource for advanced students of econometrics spatial planning and regional science It will also be suitable for researchers and data scientists working with spatial data

The Linguistic Challenge of the Transition to Secondary School Alice Deignan, Duygu Candarli, Florence Oxley, 2022-12-30 This book provides a unique analysis and description of the linguistic challenges faced by school students as they move from primary to secondary

school a major transition which some students struggle with emotionally and academically The study draws on a bespoke corpus of 2 5 million words of written materials and transcribed classroom recordings provided by the project s partner schools combines quantitative and qualitative approaches to the corpus data to explore linguistic variation across school levels registers and subjects describes the procedures of corpus compilation and analysis of written and spoken academic language showing how modern corpus tools can be applied to this far reaching social and educational issue uncovers differences and similarities between the academic language that school children are exposed to at primary and secondary school contrasting this against the backdrop of the non academic language that they encounter outside school This book is important reading for advanced students and researchers in corpus linguistics applied linguistics and teacher education It carries implications for policymakers and schools looking to support students at this critical point in their schooling The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Inspiring Writing in Primary Schools
Liz Chamberlain, 2018-12-03 The second edition of this popular book includes a new charting your progress feature for more focused coverage of assessment and more examples of writing for a digital audience This practical text provides trainee teachers exemplar lessons that encourage purposeful writing across the curriculum alongside a detailed exploration of what makes them good and the theory behind them It encourages trainees to consider the teaching of writing critically and to envisage how they can shape lessons for their own teaching In starting with teaching then exploring theory the text mirrors how many trainees will learn

Understanding Assessment David Lambert, David Lines, 2013-04-15 This is the first title in this new series which is aimed principally at secondary PGCE and BAEd students and school and HEI based tutors Each book provides a digest of the central issues around a particular topic or issues grounded in or supported by examples of good practice with suggestions for further reading study and investigation The books are not intended as how to books but rather as books which will help students and teachers to explore and understand critical theoretical issues in ways that are challenging that invite critical reappraisals of taken for granted practices and perceptions and that provide appropriate links between theory and practice Issues related to equal opportunities and special needs are included in each separate volume There are boxes of questions think abouts further reading and bulleted summary lists for the reader This book is written specifically for teachers in training which will clarify the big picture of monitoring and assessment and makes the crucial distinctions in this large and still taken for granted field The authors have written widely on assessment matters and have also worked in various capacities for the QCA and its former manifestations They are also engaged in initial teacher education and so know the level and market extremely well
