Talon Predator Manual:

Predation ID Manual Kurt Alt, Matthew Eckert, 2017-10-17 Part of the challenges and rewards of being a field biologist is being able to recreate a predation event. But that experience is often difficult and frustrating as time, weather, and other factors can make clues sparse. Even the most careful of investigators can spend hours of time second-guessing themselves while exhausting every possibility from inconclusive evidence. The Predation ID Manual is designed to help assuage some of those difficulties by providing the reader with practical expert advice including a step-by-step approach for gathering evidence, suggestions of what to focus on at a carcass site, a template of terminology to use when classifying a predation, a guide for investigating and determining signs of hemorrhage, signs of kill and kill sites by species including deer, elk, and lynx, and dozens more tips. With a waterproof cover and sturdy pages, the SCIF's Predation ID Manual is a must-have for every serious hunter and field biologist.

What's Killing My Chickens? Gail Damerow, 2019-12-10 For backyard chicken keepers and large-scale farmers alike, the single greatest challenge is protecting poultry from predators. *What's Killing My Chickens* is the essential guide to identifying the culprit and ensuring safety for the flock. Often by the time an attack is discovered, the predator has already left the scene. Best-selling author and chicken expert Gail Damerow uses the style of a detective manual to teach readers how to follow clues such as tracks, trails, scat, and other signs to identify the attacker. Predator profiles describe key habits of each one and best techniques for blocking their access to the coop and yard, including removing attractants, using poultry guardians, and lighting, and installing the most effective type of fencing. This empowering book offers essential knowledge and peace of mind for every chicken keeper. This publication conforms to the EPUB Accessibility specification at WCAG 2.0 Level AA.
