

Mummy, can you feel me,
I'm wriggling for you.
I can hear you say you love me,
Mum, I love you too.

Very soon you'll meet me,
And kiss my little face.
And I will feel your warm skin,
And admire you for your grace.

Mummy, are you ready,
My life is just about to start.
I will hold your little finger,
But you will hold my heart.

wage penalties associated with new motherhood or a woman's career being derailed on the mommy track. But we know much less about how low wage employed mothers and fathers manage the demands of full time work and new parenthood despite the fact that this group makes up the largest portion of working parents in the country. In *Work Matters*, Maureen Perry Jenkins examines the workplaces of low income workers as a critical but often overlooked social setting that shapes family life and child development. Building on years of research and over 1,500 interviews with new mothers, fathers and their children from the first year of parenthood through six years postpartum, Perry Jenkins examines how work conditions help or hinder new parents' abilities to engage as partners and parents and the consequences for children. She argues that parents' job conditions, workplace policies, hours and schedules, experiences of autonomy and job pressure, and workplace social supports directly affect the healthy development of infants and children. She uncovers the job conditions that diminish new parents' ability to care for their infants and highlights the conditions of low wage work that enhance parenting and child outcomes. In the final chapter of the book, she offers recommendations for parents, employers and policy makers that benefit all, especially the children.

Modernism in Practice Leith Morton, 2004-02-28 Postwar modernist verse has been rarely discussed in English language works on Japanese literature despite the fact that it has been the dominant mode of poetic expression in Japan since World War II. Now readers of modern Japanese poetry in translation have gained an impressive intellectual and linguistic companion in their enjoyment of modern Japanese verse. *Modernism in Practice* combines close readings of individual Japanese postwar poets and poetry with historical and critical analysis. Five of the seven chapters concentrate on the life and work of such outstanding poets as Soha Sakon, Ishigaki Rin, Ito Hiromi, Asabuki Ryoji and Tanikawa Shuntaro. Several of these writers have only come into prominence in recent decades so this work also serves to acquaint readers with contemporary Japanese verse. A significant dimension of this volume is the detailed and extensive treatment afforded two important areas of postwar Japanese verse: the poetry of women and of Okinawa. *Modernism in Practice* is noteworthy not only as an introduction to postwar Japanese poets and their times but also for the numerous poems that appear in translation throughout the volume, many for the first time in book form.
