An index to familiar quotations selected principally from British authors, with parallel passages from various writers, by J.C. Grocott John Cooper Grocott,1863 **An Index to Familiar Quotations Selected Principally from British Authors, with Parallel Passages from Various Writers Ancient and Modern** J. C. Grocott,1863 Asian English Myles Chilton,Steve Clark,Yukari Yoshihara,2022-01-24 Contesting the idea that the study of Anglophone literature and literary studies is simply a foreign import in Asia this collection addresses the genealogies of textual critique and institutionalized forms of teaching of English language and literature in Asia through the 19th and 20th centuries along with an examination of how its present options and possible future directions relate to these historical contexts It argues that the establishment of Anglophone literature in Asia did not simply happen there were extra literary and academic forces at work inserting and domesticating in Asian universities both the English language and Anglo American literature and their attendant cultural and political values Offering new perspectives for ongoing conversations surrounding the globalization of Anglophone literature in literary and cultural studies the book also considers the practicalities of teaching both the language and its canon of classic texts and that the historical formation and shape of English studies in Asia offers lessons that relate not only to the discipline but also may be applied to the humanities as a whole **The English Catalogue of Books Published from January, 1835, to January, 1863** ,1864 **Littell's Living Age** ,1919 **The Living Age** ,1919

The Right to Education in India Florian Matthey-Prakash, 2019-08-22 What does it mean for education to be a fundamental right and how may children benefit from it Surprisingly even when the right to education was added to the Indian Constitution as Article 21A this question barely received any attention The book identifies justiciability or more broadly enforceability as the most important feature of Article 21A meaning that children and their parents must be provided with means to effectively claim their right from the State otherwise it would remain a right only on paper The book highlights how lack of access to the Indian judiciary means

that the constitutional promise of justiciability remains unfulfilled It deals with the possible alternative means the State may provide for the poor to claim the benefits under Article 21A and identifies the grievance redress mechanism created by the Right of Children to Free and Compulsory Education Act 2009 as a potential system of enforcement Even though this system is found to be deficient the book concludes with an optimistic outlook hoping that rights advocates may in the future focus on improving such mechanisms for legal empowerment

The English Republic... William James Linton,1854 *The British Pulpit: a Selection of Original Sermons, Delivered by Some of the Most Talented Evangelical Divines of Various Denominations* ,1835 **This Is a Classic** Regina

Galasso,2023-01-26 This Is a Classic illuminates the overlooked networks that contribute to the making of literary classics through the voices of multiple translators without whom writers would have a difficult time reaching a global audience It presents the work of some of today s most accomplished literary translators who translate classics into English or who work closely with translation in the US context and magnifies translators knowledge skills creativity and relationships with the literary texts they translate the authors whose works they translate and the translations they make The volume presents translators expertise and insight on how classics get defined according to language pairs and contexts It advocates for careful attention to the role of translation and translators in reading choices and practices especially regarding literary classics

A Brief History of the Caribbean D. H. Figueredo, Frank Argote-Freyre,2008 A Brief History of the Caribbean is an overview of the historical events that have taken place and shaped the islands of the Caribbean Sea **The English republic, ed. by W.J. Linton** William James Linton,1854 Shakespeare's Patterns of Self-knowledge Rolf Soellner,1972

The Renaissance evinced a strong interest in self knowledge and the theme is a persistent one in the moral and dramatic literature of the age The ancients slogan nosce teipsum became a universal watchword of men schooled in the paramount importance of coming to know themselves Shakespeare s abiding interest in the concept of self knowledge shows itself in the dramatic patterns of his plays in images ideas themes and character portrayals The recurrence of such motifs as the search

for the self and the dangers and rewards of finding oneself as well as the prominence of such ideal or nearly ideal characters as Henry V Duke Vincentio and Prospero testify to the powerful influence humanistic notions of self knowledge exerted on Shakespeare as a writer and thinker But his was a changing and developing art in a restless and dynamic age Professor Soellner suggests that as much as Shakespeare's artistic development which also affects his patterns of self knowledge is part of his natural growth into a mature and incomparable dramatist it is yet analogous to the stylistic and philosophic changes that led from the Renaissance through Mannerism toward the Baroque Mr Soellner examines twelve plays in which self knowledge as the Renaissance understood it figures prominently Mindful that concepts of self knowledge are not independent of cultural contexts and that the definitions in the moral literature of the time were notoriously imprecise and unscientific he recognizes that the meaning of the term in Shakespeare's time must be acquired as Shakespeare acquired it that is contextually Mr Soellner distinguishes three points in Shakespeare's evolution an early stage that culminates in the later histories and the romantic comedies in which the dramatist reflected sometimes almost schematically the humanistic patterns of his time a middle or interim phase that begins with Julius Caesar and includes both Hamlet and the problem comedies and in which Shakespeare experiences certain hesitations and entertains some doubts about the patterns accepted uncritically earlier and the final period of the great tragedies and tragicomic romances in which a growing awareness of the unpredictability of human nature leads to a dynamic synthesis in which what is the quintessence of humanism is fused with a full realization of the weakness of codification and a profound sympathy for the human condition In the last of his great plays the tempests Mr Soellner finds Shakespeare composed a brilliant finale in which are worked many of the patterns that he used in his earlier work The dream of The Tempest that man can control himself limit his power and even resign it voluntarily is totally humanistic and may be utopia But it is one of the happiest expectations of man and represents an irresistible affirmation of his potential greatness Rolf Soellner
