Anonymous Power Okechukwu Ibeanu, Israel 'Kelue Okoye, Ikenna Mike Alumona, Ernest Tooche Aniche, 2022-01-28 This book examines the structures and processes of political decision making and governance in Nigeria Since Nigeria returned to elected government in 1999 it has been observed that several factors account for the differences between the design of statutory structures and processes of political decision making and

how they operate in reality In other words there are wide gaps between statutes and practice of political decision making However the nexus between the two remains largely understudied by political scientists Instinctively political scientists assume that informal influences in political decision making are aberrations episodic or temporary This book is designed to interrogate the nexus between the formal and non formal dimensions of the dynamics of political decision making in Nigeria and also provide evidence about the actual functioning of governmental structures in Nigeria The thesis of the book is that the non formal dimension of political decision making as evidenced in rising ethno political patronages religious sentiments clientelism and factionalism are interacting with formal decision making structures in ways that largely undermine the latter and by extension the democratic system The book pursues this thesis by examining the roles of actors and institutions including electoral choices made by voters legislations which perhaps is the most fundamental form of political decision making policies made by the executive and administration as well as decision making within political parties since parties are sites for articulating and aggregating issues on which decisions are to be made **Essays moral and literary ... When Bad Policy Makes Good Politics Robert P. Saldin, 2017 Since the 1960s America's policymaking system has transitioned from one in which leaders like Lyndon Johnson could simply disparage the concept of budget projections to one in which policymakers consciously manipulate cost estimates Paradoxically the very safeguards put in place to thwart economically unsound legislation now cause chaos by incentivizing the development of flawed even blatantly unworkable policies As Robert Saldin shows in *When Bad Policy Makes Good Politics* the pathologies of the new system are illustrated by the Community Living Assistance Services and Supports Act and its role in aiding passage of President Obama's landmark health reform law CLASS was supposed to bring much needed relief of America's dysfunctional long term care system but critics argued that its flawed design rendered the program unviable However what appeared to be a naive proposal was actually a carefully framed policy designed to fit the rules of the game particularly the Congressional Budget Office's cost projection process Although CLASS was destined for a death spiral requiring massive government bailouts the CBO estimated it would save tens of billions of dollars These official savings made CLASS an appealing add on to the Affordable Care Act But when the Obama administration later announced that CLASS was impossible to implement America's long term care system was left in crisis This skillful examination of CLASS and the machinations of Congress provides insight into how the contemporary policymaking process really functions
