Understanding the Bible Stephen L. Harris, 1980 **Somewhere in the Bible** Harris F. Allen, 2011-04-27 For all who have found the Bible difficult to read and science hard to understand this author did too Wouldn't it be wonderful if someone would take the time to study things such as difficult verses Also would it be helpful if somebody wrote it in a book Have we really found real truth to Noah's flood Does anyone know the physics that could cause such a global occurrence Someone has now researched for most of a lifetime plus three extra years of intensive study The answers are not always easy the solutions not always simple Modern Science finds more evidence almost daily that there once was a flood of such proportions Author Harris F Allen has spent countless hours attempting to answer his own questions He has a few tools including much science and Bible in his college studies Always an active overachiever Allen has become deaf and partially disabled That left far more time and greater opportunity than he could ever imagine Having a history of regular church attendance from his early youth the author received a reasonable background but always had some unanswered questions So in pharmacy school in a Baptist college he excelled in New and Old Testament studies Chemistry and science of various sorts were the main topics of study and by adding Bible that is an ideal mix for this discussion Allen will present his findings from both a scientific view and a Biblical understanding He will explain what he found about difficult verses and some parts of the Bible that seem at times to be in conflict He will also discuss the physics biochemistry and other dynamics that could be involved in such a worldwide flood Regardless of science or Biblical belief the flood did occur at about the time the Bible said it did

Transforming

Graduate Biblical Education Elisabeth Schüssler Fiorenza, Kent Harold Richards, 2010 This unique collection of essays originating in seminars held at SBL's Annual and International Meetings explores the current ethos and discipline of graduate biblical education from different social locations and academic contexts. It includes international voices of well-established scholars who have urged change for some time alongside younger scholars with new perspectives. The individual contributions emerge from a variegated set of experiences in graduate biblical studies and a critical analysis of those experiences. The volume is divided into four areas of investigation. The first section discusses the ethos of biblical studies and social location and the second explores different cultural national formations of the discipline. The third section considers the experiences and visions of graduate biblical studies while the last section explores how to transform the discipline. All the contributions offer ways to transform graduate biblical education so that it becomes a socializing power that in turn can transform the present academic ethos of biblical studies. Back cover

The Bible as Political Artifact Susanne Sholz, 2017-10-15 Biblical studies and the teaching of biblical studies are clearly changing though it is less clear what the changes mean and how we should evaluate them. Susanne Scholz casts a feminist eye on the politics of pedagogy, higher education and wider society, decrypting important developments in the architecture of educational power. She also examines how the increasingly intercultural, interreligious and diasporic dynamics in society inform the hermeneutical and methodological possibilities for biblical exegesis. Taken as a whole, the fourteen chapters demonstrate that the foregrounding of gender placed into its intersectional contexts offers intriguing and valuable alternative ways of seeing the world and the Bible's place in it.

The Old Testament: An Introduction to the Hebrew Bible Stephen Harris, Stephen L. Harris, Robert Platzner, 2007-09-11 Designed for students undertaking their first systematic study of the Hebrew Bible, this text has two goals: to acquaint readers with the content and major themes of the biblical documents and to introduce them to issues in biblical scholarship. Pedagogically rich and reader friendly, this text was designed for conventional introductory courses using historical critical methodology and will also be useful in courses studying the Bible as literature or as a reference text in the study of ancient religion.

Discovering World Religions at 24 Frames Per Second Julien R. Fielding, 2008-09-26 Traditionally, university students have gained access to world religions by reading primary texts. *Discovering World Religions at 24 Frames Per Second* takes students beyond the written page, offering an exploration of the same religious traditions through the study of feature films. The many definitions of religion are examined along with its various components including doctrine, myth, ethics, ritual and symbol. Specific religious traditions including Hinduism, Sikhism, Zoroastrianism, Buddhism, Confucianism, Daoism, popular religion and Shinto are examined. Biographical sketches of directors whose films tend to focus on a particular religious tradition are also included, such as Zhang Yimou, Hayao Miyazaki, Deepa Mehta and Akira Kurosawa. *Discovering World Religions at 24 Frames Per Second* is unique in the area of religion and film studies in that it isn't just a collection of essays. Instead, it provides the introductory student with the necessary

background information on the various religions before looking at how their ideas can be understood not through texts but through the cinematic medium To keep the conversation fresh most of the films used in the book were made within the last decade Furthermore examples range from popular mainstream fare such as Star Wars and the Lord of the Rings trilogy to lesser known foreign films such as The Wooden Man s Bride and The Great Yokai War Several films with a cult like following are also discussed including Fight Club Princess Mononoke Spirited Away and Jacob s Ladder This book is also unique in that instead of drawing upon the Judeo Christian tradition it draws from Eastern traditions
