## **Undoing The Demos:**

Undoing the Demos Wendy Brown, 2015-02-06 This is a book for the age of resistance for the occupiers of the squares for the generation of Occupy Wall Street The premier radical political philosopher of our time offers a devastating critique of the way neoliberalism has hollowed out democracy

**Undoing the Demos** Wendy Brown, 2015-03-20 Neoliberal rationality ubiquitous today in statecraft and the workplace in jurisprudence education and culture remakes everything and everyone in the image of homo oeconomicus What happens when this rationality transposes the constituent elements of democracy into an economic register In vivid detail Wendy Brown explains how democracy itself is imperiled The demos disintegrates into bits of human capital concerns with justice cede to the mandates of growth rates credit ratings and investment climates liberty submits to the imperative of human capital appreciation equality dissolves into market competition and popular sovereignty grows incoherent Liberal democratic practices may not survive these transformations Radical democratic dreams may not either In an original and compelling theoretical argument Brown explains how and why neoliberal reason undoes the political form and political imaginary it falsely promises to secure and reinvigorate Through meticulous analyses of neoliberalized law political practices governance and education she charts the new common sense Undoing the Demos makes clear that far from being the lodestar of the twenty first century a future for democracy depends upon it becoming an object of struggle and rethinking

**Against Empire** Matthew T. Eggemeier, 2020-09-09 Against Empire analyzes the relationship between Christian theology and radical democracy by exploring how black prophetic thought feminist theology Latin American liberation theology and peaceable theology offer plural forms of ekklesial resistance to empire the black church Cornel West the ekklesia of wo men Elisabeth Schussler Fiorenza the church of the poor Ignacio Ellacuria Jon Sobrino and the peaceable church Stanley Hauerwas These approaches to Christian political engagement differ in their specific focus but share common resistance to neoliberalism nationalism and militarism as networks of power that intersect with racism sexism and neo colonialism to form what they refer to as empire In diverse ways West Schussler Fiorenza Ellacuria and Sobrino and Hauerwas reimagine Christian witness as a form of radical democratic resistance to empire in the face of political formations that not only block the expansion of democracy neoliberal neoconservative hegemony but also attempt to retrench its achievements authoritarian populism

*Human Rights and the Care of the Self* Alexandre Lefebvre, 2018-04-19 When we think of human rights we assume that they are meant to protect people from serious social legal and political abuses and to advance global justice In *Human Rights and the Care of the Self* Alexandre Lefebvre turns this assumption on its head showing how the value of human rights also lies in enabling ethical practices of self transformation Drawing on Foucault's notion of care of the self Lefebvre turns to some of the most celebrated authors and activists in the history of human rights such as Mary Wollstonecraft Henri Bergson Eleanor Roosevelt and Charles Malik to discover a vision of human rights as a tool for individuals to work on improve and transform themselves for their own sake This new perspective allows us to

appreciate a crucial dimension of human rights one that can help us to care for ourselves in light of pressing social and psychological problems such as loneliness fear hatred patriarchy meaninglessness boredom and indignity     Stating the Family Julie Novkov,Carol Nackenoff,2020-05-07 Glance at a political party s platform catch a politician s speech sample the news and you will find the family not as a mere group of people living together in the private sphere but as a contentious entity at the center of political disputes and policy debates over everything from marriage equality and gender identity to immigration and welfare reform The key role of the family in politics and public policy so often relegated to the outer margins of political science and theory comes in for long overdue consideration in this volume Bringing together political scientists and legal scholars of wide ranging interests and perspectives *Stating the Family* explores the role of the family in American political development as a focus of political struggle a place where policy happens a means of distributing governmental goods and a way of relating individuals to the state and to each other in legal terms While the authors gathered here examine important policy questions that relate to the family including immigration welfare citizenship partisanship and ideology they pay particular attention to changes in family structures and responsibilities in light of the rise of neoliberalism Illustrated with case studies some contemporary some historical their essays provide individual takes on different links between family and politics creating a nuanced conversation on this complex topic The result is a multifaceted view of the family s place in the development of American political institutions and a unique understanding of the work that family does to structure politics and that politics does to structure families     *The Illegible Man* WillKanyusik,2025-01-07 How does the sudden onset of disability impact the sense of self in a person whose identity was at least in part predicated on the possession of what is culturally understood to be an able body How does this experience make visible the structures enabling society s shared notions of heteronormative masculinity In the United States the Second World War functioned as a key moment in the emergence of modern understandings of disability demonstrating that an increased concern with disability in the postwar period would ultimately lead to greater incoherence in the definitions and cultural meanings of disability in America *The Illegible Man* examines depictions of disability in American film and literature in twentieth century postwar contexts beginning with the first World War and continuing through America s war in Vietnam Will Kanyusik searches for the origin of discourse surrounding disability and masculinity after the Second World War examining both literature and film both fiction and documentary their depictions of disability and masculinity and how many of these texts were created by the relationship between the culture industry and the Office of War Information in the 1940s Supported by original archival research *The Illegible Man* presents a new understanding of disability masculinity and war in American culture     *Can Philosophy Love?* Cindy Zeiher,Todd McGowan,2017-12-20 How can we articulate a philosophy of love This volume stages encounters between contemporary understandings of love and philosophy It considers particular continental philosophers who think about love and its relation to desire and sexuality The essays in this collection contend with philosophy and psychoanalysis as lines of

thought that expose love's role in all knowledge Drawing on the work of key thinkers such as i ek Badiou Lacan Hegel Vattimo Caygill Levinas Menshikov and Marx this book puts love to work as a way of understanding the subject of desire as a figure of knowledge shaped by the event of love Neoliberalism and Women in India U. Kalpagam,2019-07-01 In this study U Kalpagam examines the construction of the neoliberal subjectivities of entrepreneur consumer and citizen among women and girls in different contexts of their lives such as employment and livelihood urbanization and migration health and well being consumerism and ageing in India Drawing from Michel Foucault's idea of neoliberal governmentality it acknowledges that neoliberal articulations are entangled in a host of other factors processes and institutions that being governed by different logics and rationality may act as countervailing forces to it such that the outcomes of governing conduct may differ from what governmentality had as its objective or had expected Neoliberal governmentality is also changing the landscapes of women's activism such that women as individual and collective subjects of resistance are being refashioned through modes of activism that reveal new forms and themes within women's movement activism in India today

**How Does a Society Change?** Ingerid S. Straume,2023-05-08 One of the most challenging questions of today concerns how human activities threaten the conditions for our very own existence With one crisis leading into the next the need for socio political change is necessary and desirable yet so hard to imagine in practice At the heart of the matter is a deeper crisis of the socio political imagination To understand how a society produces and changes itself Ingerid S Straume points to historical and contemporary institutions and the imaginaries they embody and argues that the key to social creativity is found in the reflexive potential of institutions especially politics and education Neoliberal rationality on its part has become dominant in many parts of the world precisely by occulting the socio political capacity for self reflection This occultation takes place in academic theories policy reforms technologies and in individuals self understanding In response to the planetary eco crises and the weakening of democratic ideals a new approach is needed where collectives not individuals in isolation become the mode for living well within existing natural limits Inspired by important political thinkers such as Cornelius Castoriadis and Hannah Arendt *How Does a Society Change* develops a theoretical framework to elucidate how politics and education are two interrelated domains wherein a society may openly reflect upon itself In short a society that recognizes its capacity to change itself also recognizes the transformative instituting potential of politics and education

**Student Political Action in New Zealand** Sylvia Nissen,2019-09-19 It was not long ago that students were dismissed as apathetic Yet today a new generation of young political actors is making waves in New Zealand and around the world What explains this apparent shift and what is driving these new forms of youth ful political engagement and expression Exploring the terrain between activism and apathy Sylvia Nissen considers what it means to be a political actor from the perspective of students today Drawing on in depth interviews with New Zealand tertiary students she traces their desires for different types of politics the demands they experience at university and the doubts that underscore their political engagement *Dirty Knowledge* Julia Schleck,2022

Dirty Knowledge explains how traditional conceptions of academic freedom still reflective of the capitalist era in which they were conceived fail to protect unrestricted inquiry in an academy radically altered by neoliberal economics Broken Solidarities Felix Anderl, 2024-01-16 Felix Anderl's book is a stimulating analysis of the decline of social movements against the World Bank and the rise of a new form of transnational rule Reflecting on the transnational mobilizations of the 1990s the book examines activists' struggles to sustain their momentum It shows how the opening up of world economic institutions contributed to complex rule in global governance creating access for some while weakening their critique and fragmenting the overall movement The book bridges international relations and social movement studies to observe international organizations and social movements in their interaction demonstrating how social movements are divided and ruled in the absence of a ruler *Civil Obedience* Michael Lazzara, 2018-05-15 Boldly breaks new ground in studies of Latin American postdictatorial memories by tackling a taboo topic civilian complicity with the Pinochet regime that Chilean society has strategically avoided **No Last Place to Rest** Dineo Skosana, 2025-02 No Last Place to Rest Coal Mining and Dispossession in South Africa is an exploration of the ongoing struggles faced by families whose lives have been upended by the relentless expansion of coal mining operations in the Mpumalanga and KwaZulu Natal provinces These regions burdened with the task of fulfilling the nation's energy needs and boosting the country's economy witness daily the harsh realities of land dispossession that extend far beyond the mere loss of property Dineo Skosana presents a compelling argument that dispossession remains a present day reality and crisis contradicting the notion that it is merely a relic of the past in the post apartheid landscape She challenges the narrow perspective that measures land loss in material and economic terms only By considering the impact of grave relocations a common occurrence in these mining dominated locales she demonstrates the profound spiritual anguish and dehumanisation communities endure as their lands are excavated and families lose their sacred connections with their ancestors Skosana argues that the act of dispossession of both the living and the dead from their land wounds the collective soul of a people eroding their cultural heritage collective identity and sense of belonging This book offers a rich ethnographic account of the experiences struggles and resistance of the affected communities as well as a critical analysis of the legal and policy frameworks that enable their exploitation In relation to the land question in South Africa No Last Place to Rest presents deep insights for communities activists and government sectors acting in support of social justice and redress **Vulture Capitalism** Grace Blakeley, 2025-01-14 This timely manifesto from an acclaimed journalist illustrates how corporate and political elites have used planned capitalism to advance their own interests at the expense of the rest of us and how we can take back our economy for all It's easy to look at the state of the world around us and feel hopeless We live in an era marked by war climate crisis political polarization and acute inequality and yet many of us feel powerless to do anything about these profound issues Tracing over a century of neoliberal planning and backdoor bailouts Blakeley takes us on a deeply reported tour of the corporate crimes political manoeuvring and economic

manipulation that elites have used to enshrine a global system of vulture capitalism planned capitalist economies that benefit corporations and the uber wealthy at the expense of the rest of us at every level from states to empires Blakeley exposes the cracks already emerging within capitalism lighting a path forward for how we can democratize our economy not just our politics to ensure true freedom for all Nationalism, Terrorism, Patriotism Yamuna Sangarasivam,2022-01-01 This book examines the intersecting forces of nationalism terrorism and patriotism that normalize an acceptance of the global war on terror as essential to maintaining freedom and democracy as defined by white nation states Readers are introduced to speculative ethnography an experimental methodology that bends time and space through the practice of avant garde poetics This study conceptualizes terrorism as a place of colonial encounters between soldiers insurgents civilians and leaders of nation states The tactics of suicide bombings employed by the Tamil nationalist movement the Liberation Tigers of Tamil Eelam are juxtaposed with drone strikes in asymmetric warfare where violence becomes a means of dialogue Each chapter weaves seemingly disparate narratives from multiple experiences and sites of war inviting readers to witness the condition of getting lost in that willful attachment to killing and being killed in service of patriotic pride and national belonging

**Politics with Machiavelli** Ronald J. Schmidt, Jr, 2018-06-01 Political theorist Wendy Brown has argued recently that contemporary neoliberalism with its relentless obsession on the economy has all but undone the tenets of democracy The focus on maximizing credit scores and capital has over time promoted a politics that operates beyond and below the institutional and electoral world eroding not just the desire for democratic action but even our ability to imagine it In light of recent politics it seems we may have reached the apotheosis of this depressing vision This book is meant to suggest one way of thinking past and out of the current moment and it does so by looking to a perhaps unlikely figure Niccolo Machiavelli The book presents Machiavelli as an anachronistic thinker a thinker who deprived of his political community and public identity during his exile from Florence originated a new approach to democratic theory and practice In particular he immersed himself in the writings of ancient thinkers and looked to them as models for understanding contemporary problems of corruption conspiracy and torture This book s main contribution is a methodological one it argues that the power in Machiavelli s work derived from this sort of anachronistic reading which went against the grain of Renaissance thought In turn it shows that if we imitate Machiavelli s interpretive method in reading The Prince and Discourses of Livy we can find in them solutions to the neoliberal problems Brown warns about *The Body Productive* Steffan Blayney, Joey

Hornsby, Savannah Whaley, 2022-12-29 The Body Productive represents a new and radical approach to the relationships between capitalism work and the body Self evident natural biological this is how we think of the body on an everyday basis However this supposedly most direct aspect of our being may in fact be a primary site of socio economic mediation and ideological reproduction How are bodies produced under capitalism How in turn does capitalism make bodies productive How is the body and knowledge of the body shaped by demands of production consumption and exchange and how can these logics be resisted challenged and overcome These are the questions at the heart of The Body Productive a collection of original radical new approaches to the relationships between capitalism work and the body from an international group of scholars and activists Taking inspiration from the neglected theoretical work of Francois Guerry and Didier Deleule and bridging Marxist and Foucauldian traditions this book rethinks the relationships between the biological and the social the
