Sri Varadarajaswami Temple, Kanchi: A Study of Its History, Art and Architecture K.V. Raman, 2003-06 Kanchi the ancient capital city of the South teems with historic temples of great beauty and grandeur The magnificent temple of Lord Varadaraja situated in Vishnu Kanchi has played a remarkable part in fostering the growth of Sri Vaishnavism and has justly been ranked with the famous temples of Srirangam and Tirupati as the holiest of the holies This is the first comprehensive and illustrated treatise on this hoary temple focusing attention of the various aspects like the origin and the growth of the temple critical review of the temple traditions the role of the temple in the growth of Sri Vaishnavism the association of the acharyas like Ramanuja with the temple besides the pivotal role the temple has played in the social and cultural life of the

community The vast literature that has grown round the temple and the five hundred and odd inscriptions that crowd the wall spaces of the shrines provide a sumptuous source material for this study One of the largest temple complexes of South India the temple presents interesting variety of architectural and sculptural styles of different schools The temple is particularly rich in Vaishnava iconography The book provides a detailed study and interpretation of these features with the help of hitherto unpublished photographs and drawings The book also brings to light the presence of fine paintings of the Vijayanagar times that are found in the dark cloister around the sanctum The book is a distinct contribution to the field of historical and architectural studies of ancient Indian temples Building a Nation Yogesh Atal,1981 Articles and seminar papers by an Indian sociologist **Business World** ,2006-05 *Entrepreneurial Growth and Development Programmes in Northern India* Krishan Lal Sharma,Harnek Singh,1980 *Studies In Family Planning: India* ,2003-06 As a programme of directed social and behavioural change Family Planning has made considerable progress in India An impressive library of family planning research has also been created in the process There is however a disturbing communication gap between the research and the policy maker planner administrator Research findings do not get canalized into action programmes These two remain discrete activities with very little of interface between them One of the reasons for this is lack of systematization of research findings A stage has been reached when the stock taking of the existing body of research has become necessary to provide a sort of system or order to the widely scattered data and findings and to identify research gaps This double exercise will render current research utilizable and will stimulate further research This is what Professor Kamala Gopal Rao does in this book A distinguished researcher in the field of family planning Dr Rao has attempted to summarize and present in common format over 500 studies conducted in India between 1950 1973 on different aspects of family planning The main findings of the studies are critically reviewed for their relevance to the ongoing family planning programme She has also reviewed the methodologies employed in family planning research She suggests strategies to promote utilization of research The book fulfils the much felt need for a ready reference for researchers and a guide to administrators policy makers and programme planners concerned with family planning The Status of Women Asok Mitra,Lalit P. Pathak,Shekhar Mukherji,1980 India Monograph analysing the labour force participation rates of woman workers as recorded in the censuses of 1961 and 1971 focusing mainly on non agricultural occupations reports on trends in rural areas urban areas variations employment opportunities and occupational status compares working conditions and participation by sex in traditional modern and mixed types of occupations etc and includes details of the statistical analysis performed Bibliography pp 201 to 203 graphs maps and statistical tables **Directions** ,1979
