Medieval Mercenaries William Urban,2015-11-30 The Middle Ages were a turbulent and violent time when the fate of nations was most often decided on the battlefield and strength of arms was key to acquiring and maintaining power Feudal oaths and local militias were more often than not incapable of providing the skilled and disciplined warriors necessary to keep the enemy at bay It was the mercenary who stepped in to fill the ranks A mercenary was a professional soldier who took employment with no concern for the morals or cause of the paymaster But within these confines we discover a surprising array of men from the lowest born foot soldier to the wealthiest aristocrat the occasional clergyman even What united them all was a willingness and often the desire to fight for their supper In this benchmark work William Urban explores the vital importance of the mercenary to the medieval power broker from the Byzantine Varangian Guard to fifteenth century soldiers of fortune in the Baltic Through contemporary chronicles and the most up to date scholarship he presents an in depth portrait of the mercenary across the Middle Ages
