Operation Desert Storm was a limited effort by coalition forces to drive out those Iraqi troops who had seized Kuwait six months before. In contrast, the major combat phase of Operation Iraqi Freedom in 2003 was a more ambitious undertaking aimed at decisively ending Saddam Hussein's rule. After several days of intense air strikes against fixed enemy targets, allied air operations began concentrating on Iraqi ground troops. The intended effect was to destroy Iraqi resistance and allow coalition land forces to maneuver without pausing in response to enemy actions. Iraqi tank concentrations were struck with consistently lethal effect, paving the way for an allied entrance into Baghdad that was largely unopposed. Hussein's regime finally collapsed on April 9. Viewed in hindsight, it was the combination of allied air power as an indispensable enabler and the unexpected rapidity of the allied ground advance that allowed coalition forces to overrun Baghdad before Iraq could mount a coherent defense. In achieving this unprecedented level of performance, allied air power was indispensable in setting the conditions for the campaign's end. Freedom from attack and freedom to attack prevailed for allied ground forces. The intended effect of allied air operations was to facilitate the quickest capture of Baghdad without the occurrence of any major head-to-head battles on the ground. This impressive short-term achievement, however, was soon overshadowed by the ensuing insurgency that continued for four years thereafter in Iraq. The mounting costs of that turmoil tended for a time to render the campaign's initial successes all but forgotten. Only more recently did the war begin showing signs of reaching an agreeable end when the coalition's commander put into effect a new counterinsurgency strategy in 2007 aimed at providing genuine security for Iraqi citizens. The toppling of Hussein's regime ended the iron rule of an odious dictator who had brutalized his people for more than 30 years. Yet the inadequate resourcing with which that goal was pursued showed that any effective plan for a regime takedown must include due hedging against the campaign's likely aftermath, in addition to simply seeing to the needs of major combat. That said, despite the failure of the campaign's planners to underwrite the first need adequately, those who conducted the three-week offensive in pursuit of regime change performed all but flawlessly, thanks in considerable part to the mostly unobserved but crucial enabling contributions of allied air power.

The War Lawyers Craig Jones, 2020-11-26

Over the last 20 years, the world's most advanced militaries have invited a small number of military legal professionals into the heart of their targeting operations spaces, which had previously been exclusively for generals and commanders. These professionals, trained and hired to give legal advice on an array of military operations, have become known as war lawyers. The War Lawyers examines the laws of war as applied by military lawyers to aerial targeting operations carried out by the US military in Iraq and Afghanistan and the Israel military in Gaza. Drawing on interviews with military lawyers and others, this book explains why some lawyers became integrated in the chain of command, whereby military targets are identified and attacked, whether by manned aircraft, drones, and/or ground forces, and with what results. This book shows just how important law and military lawyers have become in the conduct of contemporary warfare and how it is understood. Jones argues that circulations of law and policy between the US and Israel have bolstered targeting practices.

considered legally questionable contending that the involvement of war lawyers in targeting operations enables legitimises and sometimes even extends military violence **Target Literacy** Roger Lane,2000 Target Literacy offers a structured programme of units designed to support and develop the skills of students who currently fail to rise above Level 3 at KS3 The key focus is on language skills particularly those highlighted in the recent National Literacy Strategy Objectives for KS3 Each unit is built around a core text drawn from a range of fiction and non fiction sources accompanying activities a encourage discussion on the text s content and themes b develop students understanding of the language features of the texts through plenty of accessible activities c allow students to practise what they have learned through extended writing activities supported by hints and tips and writing frames The accompanying teachers book offers photocopiable versions of the writing frames plus further reinforcement activities **Clinical Procedures in Primary Eye Care E-Book** David B.

Detention of Non-State Actors Engaged in Hostilities Gregory Rose, Bruce Oswald, 2016-08-01 Detention of Non State Actors engaged in Hostilities The Future Law explores legal dilemmas facing detention management during military missions overseas. Armed forces increasingly find themselves facing non international armed conflict with non state actors such as insurgents terrorists or other civilians whom they might be permitted to kill or capture in some circumstances. The book considers the legal powers of military forces to apprehend non State actors and to hold them in ongoing detention or to transfer them to judicial authorities for prosecution. It deals with both theoretical approaches and practical case studies concerning management and treatment of detainees. It concludes by synthesizing the options and delivering a detailed set of guidelines that are proposed as emerging norms for the detention of non state actors in an armed conflict

Political Rationale and International Consequences of the War in Libya Dag Henriksen, Ann Karin Larssen, 2016-04-14 Political Rationale and International Consequences of the War in Libya focuses on the international intervention in Libya in 2011 and tries to answer two broad questions: 1. What was the political rationale for the various actors to proceed as they did in the lead up and conduct of the military intervention in Libya? 2. What are the consequences of the UN authorized military intervention in Libya? R2P was the public raison d'être of the war and an important legitimizing factor of the intervention. Still the humanitarian situation was a necessary but not in and by itself an adequate precondition for intervention. A number of factors coalesced to enable the intervention. While the humanitarian situation triggered the intervention in reality a variety of national interests governed the approach by the various international actors and more often than not these motives were not rooted in the particular circumstances in Libya. The book offers a combination of unique perspectives. While the perspectives of the US, France and the UK on the Libyan Crisis War have been well documented the Arabic and Scandinavian political and military dynamics have been much less so. While the perspectives of NATO, the UN and R2P have been debated the view from the Arab League and African Union AU have been less in focus. The volume redresses that imbalance and offers the most broad ranging analysis yet of a key moment in recent international relations

Marketing for Growth The Economist, Iain Ellwood, 2014-01-28 The Economist Marketing for Growth is a guide to how marketing can and should become a business's most important driver of growth. Marketers play a crucial role in generating revenue and they can play an equally important role in how revenues translate into profit. They can help a company achieve growth by being smarter or more efficient than its competitors and do so in a sustainable way. Marketers have their ear to the ground and therefore are often the first to pick

up on changing customer needs and behavior and the forces at play in markets This informs the development and improvement of products processes and standard of service The book explores how to identify the most valuable customers the most effective ways to drive revenue growth and the best ways to improve profitability It combines insight and practical guidance and is supported by a wealth of hard data and anecdotal evidence from a wide range of business in Britain America Europe and Asia including Amazon China Mobile Dove Goldman Sachs Haier ING Direct Lenovo Mini Procter Gamble Red Bull Target Twitter Virgin and Zara *Runner's World* ,1999
