Annual Report for Fiscal Year ... Commodity Credit Corporation, 1999 **Targeted** Kelly Gates, 2025-08-19 How video transformed policing and security. Video cameras are everywhere attached to buildings, drones, and dashboards embedded in smartphones, laptops, and doorbells worn on police uniforms and sunglasses. In *Targeted*, Kelly Gates argues that the resulting avalanche of video has transformed the landscape of policing and security in the twenty-first century. Video production, analysis, and archival management are now central to the ways police power is exercised, criminal law enforced, and spaces of human habitation securitized. Gates examines the primacy of video in four key areas of policing and security: the field of digital multimedia forensics, private video surveillance infrastructure development, police body-worn camera systems, and video analytics for automated surveillance. Video AI Case studies of two companies illustrate the role of corporations in these far-reaching media technological changes. Target Corporation has integrated its retail security operations with law enforcement, expanding its surveillance beyond its stores and parking lots and into the criminal legal system. Axon Enterprise is leveraging the growing volume of police body cam video to build a large-scale proprietary platform for policing. *Targeted* reveals the role of video infrastructure development in the increasingly entangled relationship between the modern police and the modern corporation in the long wake and ruins of neoliberalism. **Financial Disclosure**

Draft International Development (Official Development Assistance Target) Bill Great Britain: Parliament: House of Commons: International Development Committee, 2010-03-23 In 1970 the UN General Assembly called on the economically advanced countries to provide 0.7% of their income as Official Development Assistance ODA by the middle of the decade In 2004 the UK committed to meet the target by 2013 The Government proposes to enshrine in law its commitment to meet the target in 2010 and each subsequent year Whilst the legislation is widely welcomed the Committee remains uncertain that it will have the wider impact claimed The accountability measures contained in the draft Bill weaken the commitment and provide the Government with an easy excuse for not meeting the target The 2002 International Development Act stipulates that DFID's expenditure on ODA should have poverty reduction as its primary objective With increasing pressure to find additional finance for responding to climate change or to new types of security threats there is a danger that increased amounts of UK ODA will be used for purposes only marginally related to poverty reduction The Government must take

appropriate steps to guard against this whether or not the Bill becomes law Ultimately the Committee supports the 0.7% goal and feels the UK should maintain and build on its reputation as a donor
