Infantry ,2007 Natural Killer T-cells Nathan V. Fournier,2008 Natural killer T NKT cells are a heterogeneous group of T cells that share properties of both T cells and natural killer NK cells Many of these cells recognize the non polymorphic CD1d molecule an antigen presenting molecule that binds self and foreign lipids and glycolipids Upon activation NK T cells are able to produce large quantities of interferon gamma IL 4 and granulocyte macrophage colony stimulating factor as well as multiple other cytokines and chemokines such as IL 2 and TNF alpha NKT cells seem to be essential for several aspects of immunity because their dysfunction or deficiency has been shown to lead to the development of autoimmune diseases such as diabetes or atherosclerosis and cancers NKT cells have recently been implicated in the disease progression of human asthma The clinical potential of NKT cells lies in the rapid release of cytokines such as IL 2 IFN gamma TNF alpha and IL 4 that promote or suppress different immune responses

Cultural Politics of Targeted Killing Kyle Grayson,2016-07-15 The deployment of remotely piloted air platforms RPAs or drones has become a defining feature of contemporary counter insurgency operations Scholarly analysis and public debate has primarily focused on two issues the legality of targeted killing and whether the practice is effective at disrupting insurgency networks and the intensive media and activist scrutiny of the policy processes through which targeted killing decisions have been made While contributing to these ongoing discussions this book aims to determine how targeted killing has become possible in contemporary counter insurgency operations undertaken by liberal regimes Each chapter is oriented around a problematisation that has shaped the cultural politics of the targeted killing assemblage Grayson argues that in order to understand how specific forms of violence become prevalent it is important to determine how problematisations that enable them are shaped by a politico cultural system in which culture operates in conjunction with technological economic governmental and geostrategic elements The book also demonstrates that the actors involved what they may be attempting to achieve through the deployment of this form of violence how they attempt to achieve it and where they attempt to achieve it are also shaped by culture The book demonstrates how the current social relations prevalent in liberal societies contain the potential for targeted killing as a normal rather than extraordinary practice It will be of great use for academic specialists
