Unveiling Structures in Colson Whitehead's Fiction

Paula Martín-Salván, 2025-10-03 This book offers a comprehensive critical analysis of Colson Whitehead's fiction, positioning him as a key figure in both African American literature and the global turn to genre. It explores how Whitehead employs conventions from popular genres such as detective, zombie, and caper stories not merely for entertainment but as tools for ideological critique and narrative innovation. Central to the study is the concept of narratives of unveiling in which information is revealed retrospectively, disrupting linear storytelling and reshaping ethical perspectives. These structures allow Whitehead to expose the systemic roots of racism and ideological conflict embedded in American society. The book situates his work within broader debates about canon formation, Afropessimism, and postsoul aesthetics, and the politics of form. Through close readings of Whitehead's novels, it demonstrates how Whitehead challenges racial myths and signifies genre expectations, offering narratives that performatively enact cultural critique. *Rare Books Uncovered* Rebecca Rego Barry, 2018-02-27 Precious old books found in unlikely places from the family that avoided foreclosure through a book in their attic to a copy of the Nuremberg Chronicle in a local fundraiser.
