Doing Economics Marc F. Bellemare,2022-05-10 A guide for research economists how to write papers give talks navigate the peer review process advise students and more Newly minted research economists are equipped with a PhD s worth of technical and scientific expertise but often lack some of the practical tools necessary for doing economics With this book economics professor Marc Bellemare breaks down the components of doing research economics and examines each in turn communicating your research findings in a paper presenting your findings to other researchers by giving a talk submitting your paper to a peer reviewed journal funding your research program through grants necessary more often than not for all social scientists knowing what kind of professional service opportunities to pursue and advising PhD master s and undergraduate students With increasing data availability and decreasing computational costs economics has taken an empirical turn in recent decades Academic economics is no longer the domain only of the theoretical many young economists choose applied fields when the time comes to specialize Yet there is no manual for surviving and thriving as a professional research economist Doing Economics fills that gap offering an essential guide for research economists at any stage of their careers

Between the Ideal and the Real Akeel Abbas,2024-06-04 Between the Ideal and the Real describes why Iraq state building and democratic transformation failed by offering a very new and unusual perspective away from the usual blame assigned to the US that has become part of the conventional wisdom about Iraq and the Middle East Although the book acknowledges US failings in Iraq the main argument it presents is that the main causes of failure lie in a problematic alliance between Iraqi Shiite Islamist parties and the clerical establishment in Najaf led by Ayatollah Sistani To appreciate this new perspective the book takes you into the history of Iraqi Shiism both as a set of doctrinal and theological beliefs about the world and a lived experience by ordinary Iraqi Shias The book argues that this understanding hindered Shias from embracing many products of modernity such as nationalism individualism humanism and democratic rule by consolidating a primordial group identity that ties people to the past a particular kind of past based on doctrinal supremacy and historical victimhood Combined the two have the negative effect of depriving ordinary Iraqi Shias of a personal sense of agency and contributing to a general spirit skeptical of difference The book also documents people s push back against this restrictive approach to reality in a variety of contexts Based on extensive historical and doctrinal research into the distant past of Shiism the book links the past to the present by examining the unfortunate consequences that grow out of the insistence to allow pre modern values determine the modern experience of life
