Unctad 20world Investment Report:

World Investment Report ,2005 Towards a New Generation of Investment Policies United Nations Conference on Trade and Development,United Nations,2012 This annual report is widely regarded as the most authoritative source of data and analysis on the trends of foreign direct investment and developments in related national and international policy Every issue of the report comprises an analysis of the trends in foreign direct investment during the previous year with special emphasis on the development implications It also provides a ranking of the largest transnational corporations in the world in depth analysis of a specific topic related to foreign direct investment policy analysis and recommendations and a statistical annex with data on foreign direct investment flows and stocks for nearly 200 economies The 2012 edition presents a comprehensive investment policy framework for sustainable development covering both its national and international dimensions

Foreign Direct Investment Daniel Nicholls,2016-04-22 As the world continues to recover from one of the most dramatic financial crises in a generation expanding corporations are increasingly yet cautiously seeking out international investment opportunities At the heart of this fragile investment recovery lie trust and confidence With an unprecedented number of investment promotion agencies and economic development organisations now competing for the attention and business of a more cautious and discerning investor audience smart approaches to strategic differentiation communication engagement and investment services are becoming increasingly critical if these agencies and organisations are to succeed At the same time transparent and responsible approaches to investment coupled with effective compelling advocacy are increasingly important to the success of companies investment projects Daniel Nicholls Foreign Direct Investment offers an exploration of some of the key trends issues and practices that are shaping the global FDI landscape Along the way he provides insight into how economic developers and investors alike can make the most of their opportunities and mitigate reputational and communications challenges that can impede or hinder a successful investment By presenting perspectives and priorities from both sides Daniel Nicholls book bridges the investment gap by giving its readers an important insight into what matters to the other side This book represents a smart investment for anyone involved

International Investment Law and Competition Law Katia Fach Gómez,Anastasios Gourgourinis,Catharine Titi,2020-05-23 This EYIEL special issue examines the interaction between international investment law and competition law Although issues related to both international investment law and competition law arise regularly in international legal practice and are examined together scholarly analysis largely treats them as parallel universes As a result their actual and potential overlap has yet to be sufficiently explored In this light International Investment Law and Competition Law discusses a variety of topics at the intersection of investment and competition including the interaction between competition related provisions and investment protection standards in free trade agreements investors anti competitive behaviour and illegal investments state aid schemes and foreign investors legitimate expectations EU member States compliance with investment awards as illegal

state aid under EU law State owned enterprises and competitive neutrality and interactions between public procurement investment and competition law *The Political Economy of East Asia* Ming Wan, 2020-09-03 Offering a coherent overview of the historical and institutional context of enduring patterns in East Asian political economy this updated and expanded second edition textbook explores the dramatic regional and international transformations that this key region has faced since the 2008 financial crisis **World Investment Report 2023** United Nations Conference on Trade and Development (UNCTAD), 2023-07-05 The World Investment Report 2023 provides the latest trends and prospects for foreign direct investment It documents a challenging year for cross border investment flows looking at greenfield investment in industry project finance in infrastructure and international production activities of the largest multinationals Dedicated sections provide data on international investment in the SDGs and in sustainable energy The Report further reviews recent policy developments including trends in national investment policy measures and international investment agreements It presents an overview of investment policy measures aimed at supporting the energy transition The Report also documents sustainability trends in global capital markets including sustainability linked financial products sustainable stock exchanges institutional investor commitments and financial regulations all with a special focus on the mobilization of funds for the energy transition Finally the theme chapter of the Report discusses ways and means to increase international private sector investment in particular foreign direct investment and international project finance in the energy sector in developing countries taking into account both the energy transition imperative and SDG7 on affordable and reliable access to energy for all Resumen de editor **Global Project Finance, Human Rights and Sustainable Development** Sheldon Leader, David Ong, 2011-08-18 Many infrastructure projects around the world are funded through the project finance method which combines private financing with public sector backing from multilateral finance institutions such as the World Bank This examination of the theoretical and practical implications of such funding begins with a discussion of the relationship between the financial structuring of these projects and finance policy and legal disciplines especially in the form of investment law human rights and environmental law A number of case studies are then examined to provide practical insights into the application or otherwise of human rights and sustainable development objectives within such projects While these theoretical perspectives do not conclude that the project finance method detracts from the application or implementation of human rights and sustainable development objectives they do highlight the potential for the prioritisation of investment returns at the expense of human rights and environmental protection standards EIB Global Impact Report 2023/2024 European Investment Bank, 2024-07-01 Covering EIB Global s activities in 2023 this annual report shows how these activities are aligned with EU priorities and initiatives in different regions It details the results and impact achieved by EIB Global s activities and provides an update on how the Bank is improving its mode of delivery in order to enhance that impact It is divided into four main sections A tailored regional approach This section reports on the activities of EIB Global Beginning

with a special focus on Ukraine it then covers Enlargement countries the Neighbourhood regions sub Saharan Africa and finally Asia and Latin America including Central Asia the Pacific and the Caribbean It examines the challenges in each region and how EIB Global is working with partners to address them in line with EU enlargement regional and development policy Delivering on EU priorities This section describes how EIB Global is investing in social and economic infrastructure under the Global Gateway Initiative helping partner countries step up climate action through both mitigation and acceleration and expanding access to finance for entrepreneurs and small businesses to unlock job creation and growth Two further parts focus on promoting gender equality through EIB Global operations and how we work in fragile and conflict affected states Enhancing impact This section examines the progress that EIB Global is making in achieving an improved mode of delivery under its Strategic Roadmap in order to enhance and increase the impact it delivers It covers key deliverables such as increasing local presence the roll out of advisory services and new products and initiatives and how the Bank is learning from evaluations Tracking results Maximising EU impact is the ultimate goal of EIB Global This section therefore describes how the Bank is managing for results and reports on project results in detail including results expected at appraisal and those achieved at project completion It also reports on the Bank s additionality carbon footprint and modelled impact on jobs

UNCTAD Training Manual on Statistics for FDI and the Operations of TNCs United Nations Conference on Trade and Development, 2009 Many developing countries including the least developed countries have attracted only small amounts of foreign direct investment FDI despite their efforts at economic liberalisation in an increasingly globalising world UNCTAD has prepared this three volume manual with the aim of helping developing countries to enhance the capacity of their government agencies to compile analyse and disseminate data on FDI and the operations of transnational corporations TNCs based on internationally recommended standards The volumes are FDI Flow and Stock Data Statistics on the Operations of Transnational Corporations and Collecting and Reporting FDI TNC Statistics Institutional Issues This Volume I stresses the importance of collecting data on FDI flows and stocks in line with international definitions and standards It provides definitions and an overview of the existing standards set or used by international organisations and national compilers and discusses and evaluates different approaches to compiling FDI flow and stock data identifies data complexities and problems and presents solutions to each of them

The Rise Of The New Economic Powers And The Changing Global Landscape Haico Ebbers, 2022-12-19 This book explores the catching up process of a group of large emerging markets the New Economic Powers This process is extremely robust and should be considered as the defining trend of our age resulting in a pivotal change in world economics and politics The outcome is that the West cannot dominate the world as it did in the previous 200 years Today s world is pluralistic and the larger emerging markets are becoming increasingly influential That is the new reality which at times caused and will cause further discomfort and uncertainty in the West In the eight chapters the viewpoints on globalization of nine New Economic Powers are discussed Each chapter is an essential element in

understanding the process of globalization and the role the New Economic Powers play in it Essentially their views are guided by a fundamental different look about the role of the market and the government in society compared to what we see in the West The New Economic Powers understand the power of the market to create prosperity but at the same time emphasize the need for government interference This delicate balance is particularly visible with respect to their international trade and investment policies which bring them in conflict with Western countries and multilateral institutions such as the WTO and the IMF The book helps the reader to understand the fundamental choices made by policymakers in the New Economic Powers

International Corporate Governance Thomas Clarke, 2017-05-03 This new edition of Thomas Clarke's popular International Corporate Governance offers a comprehensive guide to understanding corporate governance as a discipline while incorporating new case studies and material that takes account of the implications of the global financial crisis and the continuing sustainability crisis

Economic Growth in the European Union Christos Nikas, 2020-08-29

This book studies the economic recovery of individual European Union member states more than ten years after the beginning of the global economic crisis In light of austerity policies and conservative government investments in many EU countries it explores how higher growth rates can be achieved by stimulating firms and economic sectors with a high accelerator potential The contributing authors analyze the effects of EU policies on small and medium sized enterprises SMEs while also studying EU policies with the potential to foster investments and economic growth Furthermore the book assesses the EU policy on foreign direct investment FDI in the member states in comparison with similar policies in Russia and the US The authors demonstrate that FDI besides providing financial resources can facilitate modernization especially in the high technology sectors Finally the book provides a sector analysis and policy recommendations on tourism and immigration as well as economic protectionism since tourism has proved to be the most dynamic sector especially in the European South while immigration is one of the most serious issues the EU is currently facing This book will appeal to scholars in economics and related fields as well as decision makers and professionals at governmental institutions looking for policy measures and tools to stimulate economic growth

Cross-Border Investing Julia Djarova, 2007-05-08 Cross Border Investing The Case of Central and Eastern Europe offers a view that reflects two main hypotheses You cannot understand foreign direct investment FDI trends and developments unless you understand the company's motives to invest You cannot understand a company's cross border investment decision making unless you understand what the investment area offers This is the reason why this text builds up a relationship between the world of companies decision makers and that of the policy makers in the public sector It does so by linking the business processes to the factors that together constitute the location profile of a country or a region Based on more than 15 years of practical experience as well as research in the field of FDI Dr Julia Djarova offers a Cross Border Investment Model to describe the logic behind the decision making process

concerning foreign investments made by companies The model is illustrated by a number of case studies of multinationals

Polycentric World Order in the Making Andrey Baykov, Tatiana Shakleina, 2023-03-02 The world order is evolving toward polycentricity producing its winners and losers and driving up the global and regional demand for governance security justice and ethics The book offers a perspective of key Russian experts in international affairs on these transformations On the global level it touches upon the issues of global governance state transformation phenomenology of globalization international security and international political economy On the regional level it deals with issues of economic integration energy security cyber security nuclear proliferation viewed from a perspective of Pacific Asia East Asia Latin America Middle East Post Soviet Area *Multinationals and Corporate Social Responsibility* Jennifer A. Zerk, 2006-11-09 The corporate social responsibility CSR movement has been described as one of the most important social movements of our time This book looks at what the CSR movement means for multinationals for states and for international law International law is often criticized for being too state centred and ill equipped to deal with the challenges of globalization However drawing from many and varied examples of state NGO and corporate practice this 2006 book argues that while international law has its limitations it presents more opportunities for the CSR regulation of multinationals than many people assume The main obstacles to better regulation are therefore not legal but political **Deciphering Economics** David E. O'Connor, 2014-05-12 This compact yet comprehensive guide provides a wealth of information that is timely easy to understand and relevant to the academic and civic lives of students teachers researchers and the general public Economics surround us impacting the decisions people make as consumers producers workers savers investors taxpayers and voters This guide offers a thorough and understandable overview of basic economic concepts and principles providing building blocks for understanding the systems of economics in today's complex world It then explores contemporary economics related topics issues and challenges that exist within local communities the U S economy and the global economy Using language that is clear precise and accessible to high school and community college students as well as to general readers the book covers microeconomic topics macroeconomic topics and international economics It connects theory and practice as it examines how economic decisions are made and looks at the roles of the private and public sectors in achieving growth stability and employment In addition the author explores overarching trends in the global economy and the prospects for economic development in emerging nations and offers specific ways to locate other quality print and online resources on economics **Globalization and Change** Berch Berberoglu, 2005-01-01 Globalization and Change The Transformation of Global Capitalism explores the capitalist implications of globalization from a critical and historical perspective By looking at the contradictions inherent in globalization this book provides a thorough understanding of the labor issues behind and fight against the capitalist global economy **Reinvigorating Trade and Inclusive Growth** International Monetary Fund, 2018-09-30 Trade integration can play a much larger role in boosting shared prosperity The current focus on trade

tensions threatens to obscure the great untapped benefits possible from further trade reform. The opportunities provided by information technology and other fundamental changes in the global economy are yet to be reflected in modern areas of trade policy such as services and electronic commerce. Greater openness in these areas would promote competition, lift productivity and raise living standards. In many other areas such as the rural economy, smaller enterprises and women's economic empowerment, trade-related reforms are important, particularly to foster more inclusive growth. Harnessing flexible approaches to WTO negotiations may be the key to reinvigorating global trade reform. Despite the benefits at stake and with important exceptions such as the WTO Trade Facilitation Agreement, trade reform has lagged since the early 2000s. For much of this period, governments focused their efforts in the WTO on a single negotiating approach. Now, as groups of WTO members pursue joint initiatives in several areas, attention is turning to how other negotiating approaches, including some used effectively in the past, can be leveraged so that trade once again plays its full role in driving increased global economic prosperity. Building greater, more durable openness, this paper's focus should be part of a broader effort to strengthen and reinvest in the global trading system. The system of global trade rules that has nurtured unprecedented economic growth across multiple generations faces tensions. Though only recently brought to the fore, those tensions are rooted in issues that have been left unresolved for too long. Governments need to promptly address outstanding questions involving, for example, the WTO dispute system and the reach of subsidy disciplines. Cooperative action to secure greater openness, an imperative in its own right, could also help to resolve these.

New Challenges in Sustainable Development for Russia and the World
Alexander S. Bulatov, Natalia A. Piskulova, 2018-07-27

This volume offers profound analyses of the main theoretical and practical aspects of the concept of sustainable development, namely: current environmental problems; the building of green economies; climate policies; specifics of international cooperation in the sphere of sustainable development; specific features of business and government involvement in implementing sustainable development; the role of civil society; its social and gender aspects; and specific characteristics of national models of sustainable development. The focus on the international aspects of the implementation of sustainable development ideas makes the insights offered here fresh and unique. This book will be useful for academics, managers, students and teaching staff of higher education institutions.
