Existentialism today refers to faddism decadentism morbidity the philosophy of the graveyard to words like fear dread  
anxiety anguish suffering aloneness death to novelists such as Jean Paul Sartre Dostoievski Camus Kafka to philosophers like  
Kierkegaard Heidegger Marcel Jaspers and Sartre and because it refers to and is concerned with all of these ideas and  
persons existentialism has lost any clearer meaning it may have originally possessed Because it has so many definitions it can  
no longer be defined As Sartre writes Most people who use the word existentialism would be em barrased if they had to  
explain it since now that the word is all the rage even the work of a musician or painter is being called existentialist A gossip  
columnist signs himself The Exis tentialist so that by this time the word has been so stretched and has taken on so broad a  
meaning that it no longer means anything at all 2 This state of definitional confusion is not an accidental or negligible matter  
An attempt will be made in this introduction to account for the confusion and to show why any definition of existentialism in  
volves us in a tangle First however it is necessary to state in a tenta tive and very general manner what points of view are  
here intended when reference is made to existentialism      *Are the Lips a Grave?* Lynne Huffer,2013-10-08 Lynne Huffer s
