Unethical Entangled Embrace:

Unethical Jennifer Blackwood, 2014-10-20 Two years ago the medical world was shaken by scandal and Payton Daniels's family was at the center of it. The second she graduated Payton left everything behind her high school sweetheart her family and the controversy surrounding her mother's death and hid within the anonymity of college. But Payton's ex Blake Hiller hasn't forgiven her for leaving and when he enrolls in the same medical ethics class she panics. She can't run the risk of him telling everyone who she really is. As if being at the same university isn't enough both Blake and Payton land the same internship. Forced together their passion for each other reignites but when Payton is asked to testify in her father's high profile trial she must choose between risking her acceptance into medical school to help her father and losing every connection to her past including the only guy she's ever loved. Ethical Materialities in Art and Moving Images Silke Panse, 2024-12-26 Starting from the premise that after modernism and postmodernism in the Anthropocene an artwork cannot rest upon its separation from the planet this volume develops new ethical practice and thought with respect to art philosophy and moving images. Practitioners and theorists examine how the relations between the ethical and the material figure in a context in which a dearth of ethical practice and thought has caused the materialities of the Anthropocene and the climate catastrophe. Ethics are generally regarded as constituted through immaterial relations guided by moral imperatives. By contrast this volume argues that the singular ethicalities that are manifested in a work cannot be captured by abstract ethics. The explorations of the ethical here are not prescriptive but creative. Through artistic and philosophical thought and practice the contributions move beyond the division between an active practice of ethics and a contemplative theory of aesthetics. They ask what ethicalities and materialities are at play in the relations between the artist the art their worlds and the planet after new materialism and posthumanism. Rather than transcending the ethical through the material or the material through the ethical the contributions articulate the singular relations between them and consider the inter and intra active ethical and

material relations of art and images in biodiverse environments They suggest that to bring out the ethical dimensions of the material and the material dimension of the ethical without identifying one with the other is a responsibility of art and images

Handbook of the Medical Sciences Embracing the Entire Range of Scientific and Practical Medicine and Allied Science ,1902 **Changing Teacher Professionalism** Sharon Gewirtz,Pat Mahony,Ian Hextall,Alan Cribb,2009-01-08

Significant changes in the policy and social context of teaching over the last 30 years have had substantial implications for teacher professionalism As the influence of central regulation and marketisation has increased so the scope for professional influence on policy and practice has in many cases diminished Instead teachers have had to respond to a range of other demands stemming from broader social changes including greater public scepticism towards professional authority combined with demands for public services that are more responsive to diverse cultural and social identities This collection of work by leading international scholars in the field makes a unique contribution to understanding both how these changes are impacting on teaching and how teachers might change their practice for the better The central premise of the book is that if research is going to be helpful in improving professional learning and the quality of teachers practice the full potential of three broad approaches to research on teacher professionalism needs to be brought to bear on these issues research on the

changing political and social context of professional work and practice research on the working lives and lived experiences of teachers and research on how teachers professional practices might be enhanced In bringing together and drawing out the complementarities of these three approaches this book represents a ground breaking collection of work **Multi-Religious Perspectives on a Global Ethic** Myriam Renaud, William Schweiker, 2020-11-29 Ratified by the Parliament of the World's Religions in 1993 and expanded in 2018 Towards a Global Ethic An Initial Declaration or the Global Ethic expresses the minimal set of principles shared by people religious or not Though it is a secular document the Global Ethic emerged after months of collaborative interreligious dialogue dedicated to identifying a common ethical framework This volume tests and contests the claim that the Global Ethic's ethical directives can be found in the world's religious spiritual and cultural traditions The book features essays by scholars of religion who grapple with the practical implications of the Global Ethic's directives when applied to issues like women's rights displaced peoples income and wealth inequality India's caste system and more The scholars explore their respective religious traditions ethical response to one or more of these issues and compares them to the ethical response elaborated by the Global Ethic The traditions included are Hinduism Engaged Buddhism Shi'i Islam Sunni Islam Confucianism Protestantism Catholicism Judaism Indigenous African Religions and Human Rights To highlight the complexities within traditions most essays are followed by a brief response by an expert in the same tradition Multi-Religious Perspectives on a Global Ethic is of special interest to advanced students and scholars whose work focuses on the religious traditions listed above on comparative religion religious ethics comparative ethics and common morality **A Reference Handbook of the Medical Sciences Embracing the Entire Range of Scientific and Allied Sciences** Albert Henry Buck, 1902 Peculiar Faith Jay Emerson Johnson, 2014-03-10 Residing at the intersection of constructive theology and critical social theory this book provides a resource for both students and clergy to reinterpret Christian theology and re-imagine Christian faith in the twenty first century The author seeks to encourage and equip Christian faith communities to move beyond the decades long stalemate over human sexuality and gender identity because Queer gifts emerge in Christian communities when lesbian gay bisexual and transgender LGBT people no longer feel compelled to justify their presence in those communities Useful in both seminary classrooms and in congregational settings the book is a contribution to the still emerging field of queer theology translating the rigors of scholarly research into transforming proposals for faith communities Entangled in Terror Anna Geifman, 2000 In the winter of 1909 a political bombshell exploded in tsarist Russia Scandal swept not only the empire but the entire world with the exposure of the secret life of one man Newspaper headlines introduced him as a twentieth century Judas and since his initiation to the most notorious villains club his name Evno Filipovich Azef has remained in the Russian tradition as a synonym for scandalous duplicity unscrupulous perfidy and criminal provocation His story is inseparable from the history of the Russian Socialist Revolutionary party PSR and the terrorism that plagued the tsarist regime in the first decade of the twentieth century More

than 17 000 people were killed or wounded throughout the empire between 1905 and 1910 as a result of political assassination attempts alone The use of undercover police spies to infiltrate oppositionist groups was a primary means of combatting terrorist activity Enter Evno Azef a man who before being reviled by Socialist Revolutionary party leaders as a traitorous double agent would spend fifteen years inside the PSR the largest terrorist organization in Russia A man who would rise to a position of prominence in the party s Central Committee and become one of the most trusted leaders of its famous terrorist arm the SR Combat Organization Evno Azef Russian master spy A thorough investigation based on all available documentary resources available for the first time due to the Soviet government s demise Entangled in Terror The Azef Affair and the Russian Revolution sorts out the facts of the case from rumors and legends Entangled in Terror explores the background and history of the radical SR party and its Combat Organization the course of Azef s career his role within the party and the extent and frequency of his contacts with the secret police The book evaluates the consequences of the Azef affair for the party for the Russian revolutionary movement and for terrorism in Russia Finally Entangled in Terror examines Azef s personal motivations was he seduced by money or did he seek adventure and the thrill of a double life A gripping expose on high stakes political intrigue Entangled in Terror tells a powerful true to life tale of power money deception and deadly consequences

Making Wise Decisions In A Smart World: Responsible Leadership In An Era Of Artificial Intelligence (Student Edition) Peter Verhezen,2023-03-07 Good and smart decisions should be distinguished from wise decision making especially in the age of artificial intelligence AI where algorithms are increasingly used to automate business processes or to augment the accuracy and speed of decisions This book argues why specific forms of intelligence as well as consciousness and enhanced conscience are crucial to make wise decisions with consciousness to be clearly distinguished from intelligence It also addresses why machine learning and smart computers AI are plausibly able to make smart and thus to a certain extent intelligent decisions but definitely unable to help us to become wiser In essence optimizing a desired output in a business context will require a balanced approach with cognitive awareness and ethical reflection synthesizing intuitive and algorithmic thinking encompassing short term profit and longer term envisioning and aiming to optimize created and captured value for shareholders while taking the concerns of those who have a real stake in the organization seriously If business is about creating and sharing value in a future that is both digital and relational then innovative technologies like AI will play an increasingly important role Consequently mindful executives and their responsible boards therefore need to acknowledge the limitations of AI in business especially when the uncertain future is estimated to be rather volatile or ambiguous than stable

Special Sexual Operations.Accounting for Resistance to the Colonial “Gift” of Homosexuality in Twenty-First Century Africa

Artwell Nhemachena,Munyaradzi Mawere,2024-03-01 Even as African states are currently legislating against homosexuality in order to protect their societies there are some emergent Eurocentric discourses seeking to legalize bestiality involving sex between humans and nonhuman animals Indeed binaries between humans and nonhumans are being challenged and speciesism is being deconstructed to pave the way for interspecies sex Critically interrogating these dissident and subversive sexualities in novel ways this book also deals with emergent humanoid sex robots which are challenging human marriages and families by replacing human spouses The book is relevant to anthropologists sociologists lawyers legislators politicians theologians historians philosophers and educators Huge commendations are due for the gargantuan work done on this book which speaks to the past present and future of African sexualities These are revolutionary thoughts that change the traditional Western scholarship landscape in the field of sexualities The book inculcates and imparts African people centred strategic architectural futuristic flavor for building Africa s competitive positioning in the discourses on sexualities for the centuries ahead Indeed it is commendable and deserves an award for revitalizing Africanity and Africanism renaissance I am sure this book is going to stimulate broad discussions from Africa and the rest of the world which have sadly been fed with Eurocentric single stories on African sexualities Professor Eginald P Mihanjo Saint Augustine University of Tanzania This is a must read book It grapples with the important question Why the West would want to decolonize only by returning homosexuality to Africans and not by returning African land artefacts skulls and skeletons The book challenges the systemic humanophobic mission orchestrated by neo capitalists in the Euro American world and their allies in Africa Until we hold together the ethical and ontological boundaries of marriage as a divine cultural mandate secured in its sociogenic logicity all the debates about decolonization will not save us from the ultimate crime of promoting ontological disorderliness Charles Prempeh PhD Cantab Research Fellow Centre for Cultural and African Studies Kumasi Ghana and author of Gender Sexuality and Decolonisation in Postcolonial Ghana A Socio Philosophical Engagement *Critical Ethnography and Education* Katie Fitzpatrick,Stephen May,2022-04-28 In this book Fitzpatrick and May make the case for a reimagined approach to critical ethnography in education Working with an expansive understanding of critical they argue that many researchers already do

the kind of critical ethnography suggested in this book whether they call their studies critical or not Drawing on a wide range of educational studies the authors demonstrate that a methodology that is lived embodied and personal and fundamentally connected to notions of power is essential to exploring and understanding the many social and political issues facing education today By grounding studies in work that reimagines troubles and questions notions of power injustice inequity and marginalization such studies engage with the tenets of critical ethnography Offering a wide ranging and insightful commentary on the influences of critical ethnography over time Fitzpatrick and May interrogate the ongoing theoretical developments including poststructuralism postcolonialism and posthumanism With extensive examples excerpts and personal discussions the book thus repositions critical ethnography as an expansive eclectic and inclusive methodology that has a great deal to offer educational inquiries Overviewing theoretical and methodological arguments the book provides insight into issues of ethics and positionality as well as an in depth focus on how ethnographic research illuminates such topics as racism language gender and sexuality in educational settings It is essential reading for students scholars and researchers in qualitative inquiry ethnography educational anthropology educational research methods sociology of education and philosophy of education
