International Organizations under Pressure Klaus Dingwerth, Antonia Witt, Ina Lehmann, Ellen Reichel, Tobias Weise, 2019-03-21 International organizations like the United Nations the International Monetary Fund or the European Union are a defining feature of contemporary world politics In recent years many of them have also become heavily politicized In this book we examine how the norms and values that underpin the evaluations of international organizations have changed over the past 50 years Looking at five organizations in depth we observe two major trends Taken together both trends make the legitimization of international organizations more challenging today First people based legitimacy standards are on the rise international organizations are increasingly asked to demonstrate not only what they do for their member states but also for the people living in these states Second procedural legitimacy standards gain ground international organizations are increasingly evaluated not only based on what they accomplish but also based on how they arrive at decisions manage themselves or coordinate with other organizations in the field In sum the study thus documents how the list of expectations international organizations need to fulfil to count as legitimate has expanded over time The sources of this expansion are manifold Among others they include the politicization of expanded international authority and the rise of non state actors as new audiences from which international organizations seek legitimacy

The Anatomy of Inclusive Cities Hangwelani Hope Magidimisha-Chipungu, Lovemore Chipungu, 2023-04-27 Creating cities inclusive of immigrants in Southern Africa is both a balancing act and a protracted process that requires positive attitudes informed by accommodative institutional frameworks This book revolves around two key contemporary issues that cities around the globe are trying to achieve viz the need to build inclusive cities and the need to accommodate immigrants The search for building inclusive cities is an on going challenge which most cities are grappling with This challenge is complicated by the need to include immigrants who are always side lined by policies of host countries This book discusses the host immigrant interface by providing a detailed insight of anchors of inclusive cities and a holistic picture of who immigrants are These are then discussed contextually within the Southern African region where insight into selected cities is provided to some depth using empirical evidence The discussion on inclusive cities and immigrants is a universal narrative targeting practitioners and students in town and regional planning urban studies urban politics migration and

international relations The Southern African region once more provides an opportunity to further interrogate and understand the dynamics of immigration in selected cities This book will also be of interest to policy makers dealing with challenges of inclusivity in the light of immigrants *Continental Encampment* Are John Knudsen, Kjersti G. Berg, 2023-02-10 During the past decade Syria's displacement crisis has made the Middle East one of the world's foremost refugee hosting regions The measures to prevent refugees and migrants from leaving the region and returning those who do has made the region a zone of containment where millions remain displaced The volume explores responses to mass migration and traces the genealogy of humanitarian containment from the Ottoman Empire and the emergence of the first refugee camps to the present day displacement crises and the re bordering of Europe **Annual Review of United Nations Affairs 2008/2009** Joachim Müller, Karl P. Sauvant, 2010-04-15 Since the publication of its first edition in 1950 the Annual Review of United Nations Affairs has stood as the authoritative resource for scholars students and practitioners researching the latest developments of that august body From the insightful introduction prepared each year by a distinguished expert on UN affairs to the full text presentation of reports and resolutions and the helpful subject index ARUNA provides a practical tour of each year's UN actions and debates The expert selection of documents by Joachim Müller and Karl Sauvant and the topic based organization of those documents make any researcher's task much easier than the vast searching sorting and pruning required by the UN's website The series topic based organization of the materials and subject index lend invaluable guidance to all researchers ARUNA presents a comprehensive documentation of the work of the UN on an annual basis starting in September of each year with the beginning of the regular sessions of the General Assembly Coverage of the UN's key organs is provided including the General Assembly the Security Council the Economic and Social Council ECOSOC the International Court of Justice and the UN Secretariat In addition selected reports of intergovernmental bodies and expert groups are included Solely official UN documentation is used ARUNA occupies a special place in the publications on the work of the UN it allows readers to obtain an overview of the principal developments in its key organs This makes it an important reference source for policy makers and academic researchers The highlight of this year's edition is the introductory essay written by the highly esteemed Jose Antonio Ocampo who is Professor of Professional Practice in International and Public Affairs Director of the Program in Economic and Political Development at the School of International and Public Affairs and Fellow of the Committee on Global Thought Columbia University Professor Ocampo previously held the positions of Under Secretary General of the United Nations for Economic and Social Affairs Executive Secretary of the United Nations Economic Commission for Latin America and the Caribbean and Minister of Finance of Colombia In 2009 he was a member of the Commission of Experts of the President of the United Nations General Assembly on Reforms of the International Monetary and Financial System Professor Ocampo is also the author of numerous books and articles on macroeconomics policy and theory economic development international trade and economic history His recent publications include *Stability with Growth*

Macroeconomics Liberalization and Development with Joseph E Stiglitz Shari Spiegel Ricardo Ffrench Davis and Deepak Nayyar New York Oxford University Press 2006 Professor Ocampo relying on his expertise as a policy economist and his own considerable experience working on economic issues at the United Nations has written an incisive introductory essay focusing on the United Nations and the global economic crisis Professor Ocampo s essay examines the history of the economic policy recommendations of UN institutions and concludes that they have often been more far sighted and accurate than those of the Bretton Woods Institutions including the World Bank and the International Monetary Fund He applies this analysis in particular to the recent global financial crisis and shows how the Monterrey Consensus of 2002 which once again made the UN a forum for global economic issues gave serious consideration to the concerns of developing countries and set many goals that might have helped to stave off the global financial crisis if they had been more actively pursued Professor Ocampo also examines the UN s role in the wake of the global financial meltdown particularly with regard to the Doha follow up Conference and the Commission of Experts on Reforms of the International Monetary and Financial System convened by the General Assembly and led by Joseph Stiglitz In spite of some resistance to these initiatives from the United States and other developed countries Professor Ocampo advocates in this essay for a more influential role for the UN s institutions in global financial reform especially in light of their superior track record in anticipating economic problems resulting from the inherent tendency of financial markets to experience boom bust cycles The 2008 2009 volumes of ARUNA therefore also devote considerable attention to the financial crisis as well as other international crises Among the documents in the 2008 2009 volumes are the complete General Assembly resolutions as well as the Report and Resolutions of the Security Council and the Economic and Social Council ECOSOC Annual Reports of note include reports of the United Nations Children s Fund UNICEF the UN Development Programme and UN Population Fund the UN High Commissioner for HumanRights the UN High Commissioner for Refugees the UN Relief and Works Agency for Palestine Refugee in the Near East and the World Food Programme Mr Muller and Dr Sauvant have also selected progress reports on key peacekeeping peace building and political missions including those for Afghanistan the Democratic Republic of the Congo Haiti Iraq Kosovo the Middle East Somalia Sudan and West Africa Each annual edition of ARUNA is introduced by a Guest Author a distinguished expert on UN affairs who highlights the outstanding themes of the year in review Together with an overview provided by the editors this introduction is intended to facilitate access to the material and above all to make it easier for users of ARUNA to see the forest for the trees As has been mentioned above ARUNA is fortunate this year to have Jose Antonio Ocampo as the author of its introduction but the roster of distinguished experts who have contributed this introduction in the past is also worthy of mention Jeffrey D Sachs ARUNA 2007 2008 edition Professor Jeffrey D Sachs is Director of the Earth Institute at Columbia University and Special Advisor to the Secretary General of the UN on the Millennium Development Goals Professor Sachs s introduction to ARUNA 2007 2008 was titled Towards a New Global Protocol on Climate Change in which he argued that

solving the climate change problem will demand four steps scientific consensus public awareness the development of alternative technologies and a global framework for action He dealt in particular with the science underpinning the negotiations for a new global protocol on climate change as a successor to the Kyoto Protocol Professor Sachs argued that climate change crises can only be solved through the goals leadership and treaty mechanisms of the UN Edward C Luck ARUNA 2006 2007 edition Professor Edward C Luck is UN Special Advisor on the Responsibility to Protect and Vice President and Director of Studies at the International Peace Academy From 1984 to 1994 he served as President and Chief Executive Officer of the UN Association of the USA UNA USA Professor Luck s introduction to ARUNA 2006 2007 covered The responsible sovereign and the responsibility to protect in which he addressed the scope and content of what was agreed at the 2005 World Summit the implications of the responsibility to protect RtoP for notions of state sovereignty and some of the conceptual architectural and policy challenges then facing UN Secretary General Ban Ki moon s commitment to operationalizing the responsibility to protect and translating it from words to deeds Louise Frechette ARUNA 2005 2006 edition Ms Louise Frechette is Distinguished Fellow at the Centre for International Governance Innovation Waterloo Ontario Until March 2006 she was the first Deputy Secretary General of the UN before that she was Permanent Representative of Canada to the UN Ms Frechette s introduction to ARUNA 2005 2006 covered United Nations reform an unfinished story As the first Deputy Secretary General of the UN Ms Frechette was uniquely positioned to undertake a personal assessment of what has changed and what has not changed in the past decade at the UN and why She examined if the UN is functioning better than it was 15 years ago why reform is so difficult to achieve and what the future holds for the institutions Rubens Ricupero ARUNA 2004 2005 edition Mr Rubens Ricupero is Dean of the Fundacno Armando Alvares Penteado FAAP Sao Paulo and was formerly Secretary General of UN Conference on Trade and Development UNCTAD and Minister of Finance of Brazil Mr Ricupero s introduction to ARUNA 2004 2005 covered The difficulty of building consensus in an age of extremes and examined the mysteries of the negotiating process leading to the outcome of the 2005 World Summit Rather than a Grand Bargain of a comprehensive UN reform in the areas of development security and human rights it is argued that the Summit ended more on a note of lamentation and regret over a missed opportunity Mr Ricupero concludes that contrary to the daring proclamation at the outset by the Secretary General the conditions indispensable to succeed were not in place Indeed it was hard to imagine that an ambitious and balanced reform package for the UN could have had any real chance of succeeding

The Ethics of State Responses to Refugees Bradley Hillier-Smith, 2024-08-05 This book appears at a time of intense debate on how states should respond to refugees some philosophers argue states are not necessarily obligated to admit a single refugee others argue states should continually admit refugees until the point of societal collapse Some politicians argue for increasing refugee resettlement others seek to prevent refugees from arriving at the border Some countries provide expansive welcome schemes and have taken in over a million refugees others have erected concrete walls and barbed wire fences *The Ethics of State Responses to Refugees* provides an account of what an ethical response would be by developing an understanding of the moral duties that states have towards refugees The first half of the book analyses state practices used in response to refugees to understand the negative duties of states not to harm or violate the rights of innocent refugees The second half analyses morally significant features of contemporary refugee displacement to understand the positive duties of states to alleviate the distinctive harms and injustices that refugees face The two halves together thereby outline the negative and positive duties of states towards refugees which together constitute the elements of an ethical response The book then demonstrates this ethical response is not only urgently required but is also within reach
