Drawing the Past, Volume 1 Dorian L. Alexander,Michael Goodrum,Philip Smith,2022-01-04 Contributions by Lawrence Abrams Dorian L Alexander Max Bledstein Peter Cullen Bryan Stephen Connor Matthew J Costello Martin Flanagan Michael Fuchs Michael Goodrum Bridget Keown Kaleb Knoblach Christina M Knopf Martin Lund Jordan Newton Stefan Rabitsch Maryanne Rhett and Philip Smith History has always been a matter of arranging evidence into a narrative but the public debate over the meanings we attach to a given history can seem particularly acute in our current age Like all artistic mediums comics possess the power to mold history into shapes that serve its prospective audience and creator both It

makes sense then that history no stranger to the creation of hagiographies particularly in the service of nationalism and other political ideologies is so easily summoned to the panelled page Comics like statues museums and other vehicles for historical narrative make both monsters and heroes of men while fueling combative beliefs in personal versions of United States history Drawing the Past Volume 1 Comics and the Historical Imagination in the United States the first book in a two volume series provides a map of current approaches to comics and their engagement with historical representation The first section of the book on history and form explores the existence shape and influence of comics as a medium The second section concerns the question of trauma understood both as individual traumas that can shape the relationship between the narrator and object and historical traumas that invite a reassessment of existing social economic and cultural assumptions The final section on mythic histories delves into ways in which comics add to the mythology of the US Together both volumes bring together a range of different approaches to diverse material and feature remarkable scholars from all over the world

Discerning the Subject Paul Smith,1988 Control of the Imaginary Luiz Costa Lima,1988

Control of the Imaginary was first published in 1989 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions

In Control of the Imaginary Luiz Costa Lima explains how the distinction between truth and fiction emerged at the beginning of modern times and why upon its emergence fiction fell under suspicion

Costa Lima not only describes the continuous relationship between Western notions of reason and subjectivity over a broad time frame the Renaissance to the first decade of the twentieth century but he uses this occasion to reexamine the literary traditions of France Italy Spain Portugal England and Germany

The book reconstructs the dominant frames in the European tradition between the Middle Ages and the nineteenth century from the perspective of a Latin American who sees the culture of his native Brazil haunted by unresolved questions from the Northern Hemisphere

Costa Lima manages to synthesize positions from philosophy anthropology sociology psychology linguistics and history without separating the theoretical discussion from his historical reconstructions

The first chapter situates the problem and grounds the emergent distinction between truth and fiction in a very close analysis of one of the first European historians Fernao Lopes who sets the tone for the condemnation of fiction in the name of the truth of history and the potential for individual interpretation

Costa Lima pursues these notions through the aesthetic debates of the seventeenth and eighteenth centuries to the writings of the French historian Michelet

He also devotes an illuminating chapter to the invention of the strictures imposed on fiction

The World of Colonial America Ignacio Gallup-Diaz,2017-04-28

The World of Colonial America An Atlantic Handbook offers a comprehensive and in depth survey of cutting edge research into the communities cultures and colonies that comprised colonial America with a focus on the processes through which communities were created destroyed and recreated that were at the heart of the Atlantic experience

With contributions written by leading scholars from a variety of viewpoints the book explores key topics such as The Spanish French and Dutch Atlantic empires The role of the indigenous people as imperial allies trade partners and opponents of expansion Puritanism Protestantism Catholicism and the role of religion in colonization The importance of slavery in the development of the colonial economies The evolution of core areas and their relationship to frontier zones The emergence of the English imperial state as a hegemonic world power after 1688 Regional developments in colonial North America

Bringing together leading scholars in the field to explain the latest research on Colonial America and its place in the Atlantic World this is an important reference for all advanced students researchers and professionals working in the field of early American history or the age of empires

Many people have experienced such unusual phenomena as dreams that later seem to correspond with unforeseeable events

thinking of a long lost friend just before he or she unexpectedly calls or the ability to feel the presence of deceased loved ones What many do not realize is that these types of experiences have been researched for more than a century by eminent scientists including Nobel laureates Most of these researchers have concluded that some of these phenomena do occur although we are far from explaining them to everyone s satisfaction This book is the first in almost 40 years to provide a comprehensive scientific overview of research in the field of parapsychology explaining what we know and don t know about so called psi phenomena such as telepathy precognition or psychokinesis Contributors evaluate the evidence for these phenomena accounting for factors such as selective memory wish fulfillment and incorrect methods or analyses in some cases offering psychological physical and biological theories Instructors considering this book for use in a course may request an examination copy here [The Bookseller](#) ,1912 Official organ of the book trade of the United Kingdom

Joseph Smith and the Origins of The Book of Mormon, 2d ed. David Persuitte,2010-07-27 Just as a growing interest in millennialism at the turn of this century has rejuvenated religious debate and questions concerning the fate of the world so did Mormonism develop from millennial enthusiasm early in the nineteenth century Joseph Smith the founder of Mormonism and a provocative even controversial figure in history declared that he had been given the authority to restore the true church in the latter days The primary source of Smith s latter day revelation is The Book of Mormon and to fully understand his role as the founder of the Mormon faith one must also understand The Book of Mormon and how it came to be Unfortunately the literature about Joseph Smith and The Book of Mormon is permeated with contradiction and controversy In the first edition of this impressive work David Persuitte provided a significant amount of revealing biographical information about Smith that resolved many of the controversies concerning his character He also presented an extensive comparative analysis positing that the probable conceptual source for The Book of Mormon was a book entitled View of the Hebrews or the Tribes of Israel in America which was written by an early New England minister named Ethan Smith Now in an expanded and revised second edition incorporating many new findings relating to the origin of The Book of Mormon Mr Persuitte s book continues to shed much new light on the path Joseph Smith took toward founding the Church of Jesus Christ of Latter day Saints **Children's Books in Print** R R Bowker Publishing,Bowker,1999-12 [Bookseller and the Stationery Trades' Journal](#) ,1891
