Educating Children with Autism National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Educational Interventions for Children with Autism, 2001-10-11 Autism is a word most of us are familiar with But do we really know what it means Children with autism are challenged by the most essential human behaviors They have difficulty interacting with other people often failing to see people as people rather than simply objects in their environment They cannot easily communicate ideas and feelings have great trouble imagining what others think or feel and in some cases spend their lives speechless They frequently find it hard to make friends or even bond with family members Their behavior can seem bizarre Education is the primary form of treatment for this mysterious condition This means that we place important responsibilities on schools teachers and children's parents as well as the other professionals who work with children with autism With the passage of the Individuals with Disabilities Education Act of 1975 we accepted responsibility for educating children who face special challenges like autism While we have since amassed a substantial body of research researchers have not adequately communicated with one another and their findings have not been integrated into a proven curriculum *Educating Children with Autism* outlines an interdisciplinary approach to education for children with autism The committee explores what makes education effective for the child with autism and identifies specific characteristics of programs that work Recommendations are offered for choosing educational content and strategies introducing interaction with other children and other key areas This book examines some fundamental issues including How children's specific diagnoses should affect educational assessment and planning How we can support the families of children with autism Features of effective instructional and comprehensive programs and strategies How we can better prepare teachers school staffs professionals and parents to educate children with autism What policies at the federal state and local levels will best ensure appropriate education examining strategies and resources needed to address the rights of children with autism to appropriate education Children with autism present educators with one of their most difficult challenges Through a comprehensive examination of the scientific knowledge underlying educational practices programs and strategies *Educating Children with Autism* presents valuable information for parents administrators advocates researchers and policy makers

Educating Students with Autism Spectrum Disorders Dianne Berkell Zager, Michael L. Wehmeyer, Richard L. Simpson, 2012 Similar to a handbook in its comprehensive description of the theory and research supporting current practices in the treatment of autism spectrum disorders this interdisciplinary text shows how the existing knowledge base can be used to explore promising new possibilities related to the field e t m s many unanswered questions Key features include the following Comprehensive e This is the first book to consider the history and current state of autism as a field in transition to cover its varied approaches and philosophies and to describe the

interventions used throughout the developmental cycle Cross Disciplinary e Serving students with autism necessitates communication and collaboration among professionals from several disciplines as well as family members The editors have therefore brought together divergent perspectives theories and philosophies in order to demonstrate that scientific evidence rather than educational orientation must determine which practices should be selected for use in particular situations Research Based e Whereas many existing texts advocate a particular type of treatment this one recognizes that interventions must be selected and evaluated based on the scientific evidence of their effectiveness Integrated Methodology eChapter authors consider findings from studies that employed single subject designs experimental large scale studies and qualitative methodology The inter relatedness of therapies and disciplines will be highlighted throughout Expertise e The volume editors are all highly visible researchers in autism and developmental disabilities Likewise each chapter is directed by a senior highly accomplished author who is nationally recognized for his her work in the topic being addressed This book is appropriate for practicing professionals in education and psychology and for speech language therapists and other clinicians It is also suitable as a graduate level text in these fields
