Virgin Media Programme Guide:

The Marketer's Handbook Laurie Young, 2011-04-22 This book written by a senior marketer with over thirty years experience of using marketing techniques and concepts sets out to describe contextualize and rate them Its prime emphasis is on understanding their status so that they can be used to direct the use of shareholder funds effectively Its conclusion is that seasoned professionals must use their judgement about when and how to use them but they also need to understand them in depth if they are going to make well rounded effective investment decisions Above all it asks how useful and relevant is this concept Will it improve decision making Does the damn thing have any credibility and does it work This book combines a rigorous review of a wide range of marketing concepts with many practical examples and case studies It can be read or dipped into both by seasoned professionals and by those just embarking on their marketing career Sir Paul Judge President Chartered Institute of Marketing Laurie Young casts an experienced and skeptical eye on many cherished marketing concepts and techniques He provides an antidote to the tendency to adopt them without understanding their limitations and possibilities Professor George Day The Wharton School Chairman of the American Marketing Association Laurie Young has produced nothing less than the A Z of marketing He has journeyed far and wide mapping out hundreds of business marketing and communications models to produce an extremely useful industry atlas Certainly it will find a well thumbed home on my bookshelf Hamish Pringle Director General Institute of Practitioners in Advertising This book is much needed by marketing Its value is in challenging concepts some of which have been the accepted norm for a long time But as this book shows some of these may no longer be relevant and appropriate for marketers in today s consumer environment Mike Johnston CEO Dairy Council of Northern Ireland and former Chairman of the Chartered Institute of Marketing Senior marketers like those who make up the membership of the Marketing Society hone the methods and techniques they favour as their career develops Laurie Young clearly did that and an experienced voice shines through this critique It is heartening to find that so many concepts have a long history of producing real value for businesses but alarming to find so many of the theorists favourites to be so groundless Hugh Burkitt CEO The Marketing Society

Smith-Rowsey, 2016-08-11 Netflix is the definitive media company of the 21st century It was among the first to parlay new Internet technologies into a successful business model and in the process it changed how consumers access film and television It is now one of the leading providers of digitally delivered media content and is continually expanding access across a host of platforms and mobile devices Despite its transformative role however Netflix has drawn very little critical attention far less than competitors such as YouTube Apple Amazon Comcast and HBO This collection addresses this gap as the essays are designed to critically explore the breadth and diversity of Netflix's effect from a variety of different scholarly perspectives a necessary approach considering the hybrid nature of Netflix its inextricable links to new models of media production distribution viewer engagement and consumer behavior its relationship to existing media conglomerates and consumer electronics its capabilities as a web based service provider and data network and its reliance on a broader technological infrastructure *Marketing Technology as a Service* Laurie Young, Bev Burgess, 2010-05-24 Despite the fact that vast engineering networks are the foundations of modern society the services that technology companies provide over them have been a relatively neglected area of study As a result marketing in some technology businesses has been depressingly tactical and inconsistent Marketers with little experience and even less professional training run around presenting PowerPoint decks to each other chasing after the latest fad and throwing erratic changing activities at the market each quarter Many work on the unchallenged assumption that markets are fast changing and that customers only want the lowest prices Yet this industry has liberated human imagination in the internet and convinced the world that they must have a PC and a mobile phone Now as a result of profound relentless global forces some of the leading firms and greatest minds in it are at last turning their attention to service With the advent of cloud computing and radical changes in the engineering of some utilities the marketing of services that are based on a technical infrastructure is about to become as important and sophisticated as in say consumer products This book explores their story and experience I really enjoyed the book From Products to Services by Mr Laurie Young Encouraged by it Haier accelerated its changeover from a traditional product driven to a more customer centric company This new book Marketing Technology as a Service is another major contribution

to technology companies for the cultivation of service needs worldwide Mr Zhang Ruimin CEO and Chairman Haier Group Beijing Young and Burgess describe a shift in mindset and pragmatic techniques that are quite doable Rae Sedel MD Global Technology Practice Russell Reynolds Associates This book provides practical and insightful advice on how to use services to turn technology into value add solutions for real people Rudy Provoost CEO Philips Lighting Business leaders in India have been remarkably successful at offering technology based services like outsourcing across the world Currently worth 60 billion they intend to reach 300 billion by 2020 To succeed the Indian business community must offer new value propositions and adapt to emerging trends like cloud computing Burgess and Young have put together the first comprehensive and practical guide for business leaders to meet their challenges of exponential growth Dr Mukesh Aghi Chairman and CEO Steria India

The Myths of Technology Judith Burnett, Peter Senker, Kathy Walker, 2009 This book questions whether technologies are the rational tangible scientific forward thinking neutral objects they are so often perceived to be exploring instead how powerful mythic ideas about technologies drive our social understanding and our expectations of them Against a rising tide of information we encounter significant technological scientific and medical advances which promise to create an educated humane and equal world This book explores that promise deconstructing technologies to conclude that though they do afford us significant and empowering advances they remain largely cloaked in mystery and often promise more than they can deliver Contributors from diverse intellectual backgrounds and political and epistemological stances spanning sociology and psychosocial investigations innovation studies and scientists combine philosophical inquiry and empirical case studies to create a book which is at once provocative innovative and exciting in the challenges it poses

Television Versus the Internet Barrie Gunter, 2010-09-01 This book will explore the questions raised by the technological developments that have encouraged the multiplication of TV channels TV is moving through a period of rapid change Governments around the world are switching from analogue to digital forms of transmission to further expand the amount of content that TV signals can carry At the same time competition for eyeballs has also grown from outside that traditional marketplace with the emergence of the Internet The roll out of broadband and increased bandwidth has had the greatest impact on television because online technology can readily convey the same content All these changes have created a great deal more competition for viewers within the traditional TV marketplace The Internet has proven to be especially popular with young people who have adopted its applications to a far greater extent than their elders though even the latter have now begun to take up online activities in significant numbers Are these audiences the same Do people make a choice between these two media or do they use them both at different times and for different reasons Can television utilise the Internet in profitable ways to enhance its market position Will television have to evolve from its current state to provide the kinds of content reception services to which people have become accustomed in the online world If it does need to change to survive will this nevertheless mean a radical new configuration of content and the disappearance of channels with fixed pre determined programme schedules Examines

the implications of new interactive communications technologies for the way people will use television in the future Presents an analysis of changing styles of television viewing and changing orientations towards television Examines the growing importance of the broadband internet as a source of information and entertainment **Content Delivery Networks** Dom Robinson, 2017-07-17 The definitive guide to developing robust content delivery networks This book examines the real world engineering challenges of developing robust content delivery networks CDNs and provides the tools required to overcome those challenges and to ensure high quality content delivery that fully satisfies operators and consumers commercial objectives It is informed by the author's two decades of experience building and delivering large mission critical live video webcasts and radio streaming online and over private IP networks Following an overview of the field the book cuts to the chase with in depth discussions laced with good natured humor of a wide range of design considerations for different network topologies It begins with a description of the author's own requirement filtration processes From there it moves on to initial sketches through considerations of stakeholder roles and responsibilities to the complex challenges of managing change in established teams Agile versus waterfall considerations within large blue chip companies security commercial models and value chain alignment are explored in detail Featured throughout the book are numerous what if scenarios that help provide a clear picture of the wide spectrum of practical contexts for which readers may be tasked with building and implementing a CDN In addition the book Discusses delivery of live catch up scheduled on demand TVOD and SVOD Offers insights into the decisions that can be made when architecting a content distribution system over IP based networks Covers CDN topologies including Edge Caching Streaming Splitting Pure Play Operator Satellite and Hybrid Examines computer hosting and orchestration for dedicated appliances and virtualization Includes real world cases covering everything from IETF regulatory considerations and policy formation to coding hardware vendors and network operators Considers the future of CDN technologies and the market forces driving its evolution Written by a back room engineer for back room engineers Content Delivery Networks gets readers up to speed on the real world challenges they can face as well as tried and true strategies for addressing those challenges in order to ensure the delivery of the high quality content delivery networks that clients demand and users expect **Valuation Handbook - U.S. Guide to Cost of Capital** Roger J.
