the simple question is:
Why are we still here anyway?*

Visions For Black Men:

Visions for Black Men Na'im Akbar, 1993 Visions for Black Men Naim Akbar, 1991-08-01 NEW VISIONS FOR BLACK MEN. NA'IM. AKBAR, 2016 *Cross-cultural Visions in African American Modernism* Yoshinobu Hakutani, 2006
Yoshinobu Hakutani traces the development of African American modernism which initially gathered momentum with Richard Wright's literary manifesto *Blueprint for Negro Writing* in 1937. Hakutani dissects and discusses the cross-cultural influences on the then burgeoning discipline in three stages: American dialogues, European and African cultural visions, and Asian and African American cross-cultural visions. In writing *Black Boy*, the centerpiece of the Chicago Renaissance, Wright was inspired by Theodore Dreiser. Because the European and African cultural visions that Wright, Ralph Ellison, Alice Walker, and Toni Morrison acquired were buttressed by the universal humanism that is common to all cultures, this ideology is shown to transcend the problems of society. Fascinated by Eastern thought and art, Wright, Walker, Sonia Sanchez, and James Emanuel wrote highly accomplished poetry and prose. Like Ezra Pound, Wright was drawn to classic haiku, as reflected in the 4,000 haiku he wrote at the end of his life. As W.B. Yeats's symbolism was influenced by his cross-cultural visions of Noh theatre and Irish folklore, so is James Emanuel's jazz haiku energized by his cross-cultural rhythms of Japanese poetry and African American music. The book demonstrates some of the most visible cultural exchanges in modern and postmodern African American literature. Such a study can be extended to other contemporary African American writers whose works also thrive on their cross-cultural visions, such as Amiri Baraka, Ishmael Reed, Charles Johnson, and haiku poet Lenard Moore.

Men Educators of Color in U.S. Public Schools and Abroad Ashley N. Woodson, Travis J. Bristol, 2023-12-11. This book reflects the diversity and possibility of critical research in education with an emphasis on the examination of the intersections of social identities for men teachers of color and the relationship between social identity and struggles for political and professional agency. The authors address race and race inequality in education and provide a strong theoretical foundation for filling the empirical gap on men teachers of color by engaging in questions such as: How do critical considerations of the intersection of race, gender, and profession inform the future of teacher education? What does it mean to be men or of color in the context of the teaching profession in the U.S. and abroad? What are the aims of ethnoracial diversity in the field of education? The research included in this edited volume explores topics including but not limited to men teachers of color and their perceived pathways to the profession, their perceptions of and partnerships with colleagues of other genders, their sexual and gendered identities and performances, and how they embrace, reject, or negotiate the expectations of performing as a role model in classrooms. Moreover, the chapters provide explicit implications for teachers, teacher educators, university and PK-12 administrators, education activists, and/or education policymakers. In sum, this volume charts a new landscape in education research for all men teachers of color. The chapters in this book were originally published as a special issue of the journal *Race, Ethnicity and Education*. **The Media War on Black Male Youth in Urban Education** Darius

American Visions Edward L. Ayers, 2023-10-24 An inspiring book *American Visions* beautifully shows how remarkably resilient dreams of a better republic remained even in the darkest of times. Christoph Irmscher, Wall Street Journal A revealing history of the formative period when voices of dissent and innovation defied power and created visions of America still resonant today. With so many of our histories falling into either critique or blatant celebration, here is a welcome departure: a book that offers hope as well as honesty about the American past. The early decades of the nineteenth century saw the expansion of slavery, Native dispossession and wars with Canada and Mexico. Mass immigration and powerful religious movements sent tremors through American society. But even as the powerful defended the status quo, others defied it: voices from the margins moved the center, eccentric visions altered the accepted wisdom, and acts of empathy questioned self-interest. Edward L. Ayers's rich history examines the visions that moved Frederick Douglass, Margaret Fuller, the Native American activist William Apess, and others to challenge entrenched practices and beliefs. So Lydia Maria Child condemned the racism of her fellow northerners at great personal cost. Melville and Thoreau, Joseph Smith and Samuel Morse all charted new paths for America in the realms of art, nature, belief, and technology. It was Henry David Thoreau, who speaking of John Brown, challenged a hostile crowd: Is it not possible that an individual may be right and a government wrong? Through decades of award-winning scholarship on the Civil War, Edward L. Ayers has himself ventured beyond the interpretative status quo to recover the range of possibilities embedded in the past as it was lived. Here he turns that distinctive historical sensibility to a period when bold visionaries and critics built vigorous traditions of dissent and innovation into the foundation of the nation. Those traditions remain alive for us today.

American Masculinities: A Historical Encyclopedia Bret Carroll, 2003-10-14 This is a highly recommended purchase for undergraduate, medium-sized, and large public libraries wishing to provide a substantial introduction to the field of men's studies. Reference User Services Quarterly. Pleasing layout and good cross-references make Carroll's compendium a welcome addition to collections serving readers of all ages. Highly recommended CHOICE. An excellent index, well-chosen photographs and illustrations, and an extensive bibliography add further value. *American Masculinities* is well worth what would otherwise be too hefty a price for many libraries because no other encyclopedia comes close to covering this growing field so well. American Reference Books Annual. *American Masculinities* A

Historical Encyclopedia is a first of its kind reference detailing developments in the growing field of men's studies. This up to date analytical review serves as a marker of how the field has evolved over the last decade especially since the 1993 publication of Anthony Rotundo's *American Manhood*. This seminal book opened new vistas for exploration and research into American History, society and culture. Weaving the fabric of American history, *American Masculinities* illustrates how American political leaders have often used the rhetoric of manliness to underscore the presumed moral righteousness and ostensibly protective purposes of their policies. Seeing U.S. history in terms of gender archetypes, readers will gain a richer and deeper understanding of America's democratic political system, domestic and foreign policies, and capitalist economic system as well as the private sphere of the home and domestic life. The contributors to *American Masculinities* share the assumption that men's lives have been grounded fundamentally in gender, that is, in their awareness of themselves as males. Their approach goes beyond scholarship which traditionally looks at men and women in terms of what they do and how they have influenced a given field or era. Rather, this important work delves into the psychological core of manhood which is shaped not only by biology but also by history, society and culture. Encapsulating the current state of scholarly interpretation within the field of Men's Studies, *American Masculinities: A Historical Encyclopedia* is designed to help students and scholars advance their studies, develop new questions for research, and stimulate new ways of exploring the history of American life.

[A Gift Grows in the Ghetto](#) Jay-Paul Michael Hinds, 2022-10-25. In his classic essay *Of Our Spiritual Strivings*, W. E. B. Du Bois asks how does it feel to be a problem? This question has become a means of diagnosing the lived experience of Black men, particularly in America's most neglected and feared environment, the ghetto. What is often overlooked, however, is the vital role that spirituality has in remedying the problem. *A Gift Grows in the Ghetto* examines how not being in relationship with one's gift can lead to feelings of despair, entrapment, and abandonment, all of which contribute to Black men feeling as though they are nothing more than a problem. By utilizing the biblical story of Ishmael's miraculous survival, growth, and giftedness in the wilderness, the book encourages Black men to embrace a life of faith that is dependent on the God who always sees, nurtures, and is in relationship with us and our gifts in the wilderness and the ghetto. **US**
