Mathematical Psychology in Progress Edward E. Roskam, 2012-12-06 This volume is the third volume of papers originating from the European Mathematical Psychology Group Earlier volumes were E Degreef J van Buggenhaut Eds Trends In Mathematical Psychology Amsterdam North Holland Publ Cy 1984 and E E Roskam R Suck Eds Progress in Mathematical Psychology Amsterdam Elsevier Science Publ As the title indicates this volume presents work in progress which was reported in one of the recent annual meetings of the European Mathematical Psychology Group The Group finds it worthwhile to disseminate this work using a review process which is somewhat less strict and a publication lag which is shorter than would be the case for standard international journals The editor is happy that the meetings of the European Mathematical Psychology Group are regularly attended by colleagues from overseas Their contributions also appear in this volume as was the case in earlier volumes Despite apparent heterogeneity the reader will observe that European mathematical psychologists have a keen interest in basic issues of mathematical modeling and measurement theory and that also substantive topics such as decision making perception and performance are studied in the context of formal modeling Also and perhaps of more than casual importance for future developments is the fact that theory experiment and data analysis go closely together It should therefore not surprise that psychometric topics and topics in scaling are represented in this volume alongside with topics of a more purely mathematical nature

Ideas and Mechanism Margaret Dauber Wilson, 2014-07-14 For more than three decades Margaret Wilson's essays on early modern philosophy have influenced scholarly debate Many are considered classics in the field and remain as important today as they were when they were first published Until now however they have never been available in book form and some have been particularly difficult to find This collection not only provides access to nearly all of Wilson's most significant work but also demonstrates the continuity of her thought over time These essays show that Wilson possesses a keen intelligence coupled with a fearlessness in tackling the work of early modern philosophers as well as the writing of modern commentators Many of the pieces collected here respond to philosophical issues of continuing importance The thirty one essays gathered here deal with some of the best known early philosophers including Descartes Leibniz Locke Spinoza and Berkeley As this collection shows Wilson is a demanding critic She repeatedly asks whether the philosophers' arguments were adequate to the problems they were trying to solve and whether these arguments remain compelling today She is not afraid to engage in complex argument but at the same time her own writing remains clear and fresh Ideas and Mechanism is an essential collection of

work by one of the leading scholars of our era Originally published in 1999 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Historical Research, Creative Writing, and the Past Kevin A. Morrison, Pälvi Rantala, 2023-07-12 Although historical research undertaken in different disciplines often requires speculation and imagination it remains relatively rare for scholars to foreground these processes explicitly as a knowing method Historical Research Creative Writing and the Past brings together researchers in a wide array of disciplines including literary studies and history ethnography design film and sound studies who employ imagination creativity or fiction in their own historical scholarship or who analyze the use of imagination creativity or fiction to make historical claims by others This volume is organized into four topical sections related to representations of the past textual and conceptual approaches material and emotional approaches speculative and experiential approaches and embodied methodologies and covers a variety of temporal periods and geographical contexts Reflecting on the methodological theoretical and ethical underpinnings of writing history creatively or speculatively the essays situate themselves within current debates over epistemology and interdisciplinarity They yield new insights into historical research methods including archival investigations and source criticisms while offering readers tangible examples of how to do history differently **Political cartoons and the Israeli-Palestinian conflict** Ilan Danjoux, 2018-07-30 Do political cartoon predict violence To answer this question Ilan Danjoux examined over 1200 Israeli and Palestinian editorial cartoons to explore whether changes in their content anticipated the outbreak of the Al Aqsa Intifada in October of 2000 Despite stark differences in political economic and social pressures a notable shift in focus style and tone accompanied the violence With numerous illustrations and detailed methodology Political Cartoons and the Israeli Palestinian Conflict provides readers an engaging introduction to cartoon analysis and a novel insight into the Israeli Palestinian conflict In a region fraught with contested realities the cartoon's ability to capture the latent fears and unspoken beliefs of these antagonists offers a refreshing perspective on how both Israelis and Palestinians perceived each other and their chances for peace on the eve of the Second Intifada **Narration as Argument** Paula Olmos, 2017-05-09 This book presents reflections on the relationship between narratives and argumentative discourse It focuses on their functional and structural similarities or dissimilarities and offers diverse perspectives and conceptual tools for analyzing the narratives potential power for justification explanation and persuasion Divided into two sections the first Part under the title Narratives as Sources of Knowledge and Argument includes five chapters addressing rather general theoretical and characteristically philosophical issues related to the argumentative analysis and understanding of narratives We may perceive here how scholars in

Argumentation Theory have recently approached certain topics that have a close connection with mainstream discussions in epistemology and the cognitive sciences about the justificatory potential of narratives The second Part entitled Argumentative Narratives in Context brings us six more chapters that concentrate on either particular functions played by argumentatively oriented narratives or particular practices that may benefit from the use of special kinds of narratives Here the focus is either on the detailed analysis of contextualized examples of narratives with argumentative qualities or on the careful understanding of the particular demands of certain well defined situated activities as diverse as scientific theorizing or war policing that may be satisfied by certain uses of narrative discourse **Practical Argument** Laurie G. Mercy and British Culture, 1760-1960 James Gregory, 2021-11-04 Spanning over 2 centuries James Gregory's *Mercy and British Culture 1760-1960* provides a wide reaching yet detailed overview of the concept of mercy in British cultural history While there are many histories of justice and punishment mercy has been a neglected element despite recognition as an important feature of the 18th century criminal code *Mercy and British Culture 1760-1960* looks first at mercy's religious and philosophical aspects its cultural representations and its embodiment It then looks at large scale mobilisation of mercy discourses in Ireland during the French Revolution in the British empire and in warfare from the American war of independence to the First World War This study concludes by examining mercy's place in a twentieth century shaped by total war atomic bomb and decolonisation

The Philosophy of Wilhelm Schapp Daniele De Santis, Daniele Nuccilli, 2025-02-20 Despite studying with Heinrich Rickert in Freiburg Wilhelm Dilthey in Berlin and Edmund Husserl in Göttingen Wilhelm Schapp 1884-1965 has until now been largely neglected in phenomenological scholarship As the first English language volume dedicated to Schapp's thought this book seeks to correct this by investigating Schapp's

pioneering philosophy his relationship to his contemporaries and what we can learn from his work today In three parts leading international scholars introduce the key themes of Schapp s philosophy from his early writings to his mature reflections The first part explores his phenomenology of perception and the bodily dimension of our existence in the world Focus then moves to Schapp s philosophy of law and his ideas on the problem of value based experience followed lastly by his hermeneutics of stories and the narrative essence of human beings The volume closes with an autobiographical piece by Schapp himself Translated here in English for the first time Schapp retrospectively outlines his position in relation to Husserl and the phenomenological school more broadly Crossing the divide between continental and analytic philosophy The Philosophy of Wilhelm Schapp not only provides a fresh insight into the early development of the phenomenological tradition but also demonstrates the relevance of Schapp s thought to recent debates in areas from the philosophy of mind to the theory of contracts
