services that technology companies provide over them have been a relatively neglected area of study. As a result, marketing in some technology businesses has been depressingly tactical and inconsistent. Marketers with little experience and even less professional training run around presenting PowerPoint decks to each other chasing after the latest fad and throwing erratic changing activities at the market each quarter. Many work on the unchallenged assumption that markets are fast changing and that customers only want the lowest prices. Yet this industry has liberated human imagination in the internet and convinced the world that they must have a PC and a mobile phone. Now as a result of profound relentless global forces, some of the leading firms and greatest minds in it are at last turning their attention to service. With the advent of cloud computing and radical changes in the engineering of some utilities, the marketing of services that are based on a technical infrastructure is about to become as important and sophisticated as in say consumer products. This book explores their story and experience. I really enjoyed the book *From Products to Services* by Mr Laurie Young. Encouraged by it, Haier accelerated its changeover from a traditional product driven to a more customer centric company. This new book *Marketing Technology as a Service* is another major contribution to technology companies for the cultivation of service needs worldwide. Mr Zhang Ruimin, CEO and Chairman Haier Group Beijing, Young and Burgess describe a shift in mindset and pragmatic techniques that are quite doable. Rae Sedel, MD Global Technology Practice, Russell Reynolds Associates. This book provides practical and insightful advice on how to use services to turn technology into value add solutions for real people. Rudy Provoost, CEO Philips Lighting. Business leaders in India have been remarkably successful at offering technology based services like outsourcing across the world. Currently worth 60 billion, they intend to reach 300 billion by 2020. To succeed, the Indian business community must offer new value propositions and adapt to emerging trends like cloud computing. Burgess and Young have put together the first comprehensive and practical guide for business leaders to meet their challenges of exponential growth. Samsung Rising Geoffrey Cain, 2020-03-17. An explosive expose of Samsung that reads like a dynastic thriller, rolling through three generations of family intrigue, embezzlement, bribery, corruption, prostitution, and other bad behavior. *The Wall Street Journal* LONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD. Based on years of reporting on Samsung for *The Economist*, *The Wall Street Journal*, and *Time* from his base in South Korea and his countless sources inside and outside the company, Geoffrey Cain offers a penetrating look behind the curtains of the biggest

company nobody in America knows Seen for decades in tech circles as a fast follower rather than an innovation leader Samsung today has grown to become a market leader in the United States and around the globe They have captured one quarter of the smartphone market and have been pushing the envelope on every front Forty years ago Samsung was a rickety Korean agricultural conglomerate that produced sugar paper and fertilizer located in a backward country with a third world economy With the rise of the PC revolution though Chairman Lee Byung chul began a bold experiment to make Samsung a major supplier of computer chips The multimillion dollar plan was incredibly risky But Lee wowed by a young Steve Jobs who sat down with the chairman to offer his advice became obsessed with creating a tech empire And in Samsung Rising we follow Samsung behind the scenes as the company fights its way to the top of tech It is one of Apple s chief suppliers of technology critical to the iPhone and its own Galaxy phone outsells the iPhone Today Samsung employs over 300 000 people compared to Apple s 80 000 and Google s 48 000 The company s revenues have grown more than forty times from that of 1987 and make up more than 20 percent of South Korea s exports Yet their disastrous recall of the Galaxy Note 7 with numerous reports of phones spontaneously bursting into flames reveals the dangers of the company s headlong attempt to overtake Apple at any cost A sweeping insider account Samsung Rising shows how a determined and fearless Asian competitor has become a force to be reckoned with *Drum*, 2007 **Daily Graphic** Yaw Boadu-Ayeboafah, 2006-10-18
