

THE ITALIAN RENAISSANCE STATE

EDITED BY
ANDREA GAMBERINI
AND
ISABELLA LAZZARINI

The Italian Renaissance State

Julius Kirshner

The Italian Renaissance State:

The Italian Renaissance State Andrea Gamberini, Isabella Lazzarini, 2014-11-06 This magisterial study proposes a revised and innovative view of the political history of Renaissance Italy Drawing on comparative examples from across the peninsula and the kingdoms of Sicily Sardinia and Corsica an international team of leading scholars highlights the complexity and variety of the Italian world from the fourteenth to early sixteenth centuries surveying the mosaic of kingdoms principalities signorie and republics against a backdrop of wider political themes common to all types of state in the period The authors address the contentious problem of the apparent weakness of the Italian Renaissance political system By repositioning the Renaissance as a political rather than simply an artistic and cultural phenomenon they identify the period as a pivotal moment in the history of the state in which political languages practices and tools together with political and governmental institutions became vital to the evolution of a modern European political identity Power and Imagination

Lauro Martines, 1988-06-22 In Power and Imagination a noted historian rethinks the evolution of the city state in Renaissance Italy and recasts the conventional distinction between society and culture Martines traces the growth of commerce and the evolution of governments he describes the attitudes pleasures and rituals of the ruling elite and he seeks to understand the period's towering works of the imagination in literature painting city planning and philosophy not simply as the creations of individual artists but as the formative expression of the ambitions and egos of those in power Transregional Lordship and the Italian Renaissance

Matthew Vester, 2025-10-01 Ren de Challant whose holdings ranged from northwestern Italy to the Alps and over the mountains into what is today western Switzerland and eastern France was an Italian and transregional dynast The spatially dispersed kind of lordship that he practiced and his lifetime of service to the house of Savoy especially in the context of the Italian Wars show how the Sabaudian lands neighboring Alpine states and even regions further afield were tied to the history of the Italian Renaissance Situating Ren de Challant on the edge of the Italian Renaissance helps us to understand noble kin relations political networks finances and lordship with more precision A spatially inflected analysis of Ren's life brings to light several themes related to transregional lordship that have been obscured due to the traditional tendencies of Renaissance studies It uncovers an Italy whose boundaries extend not just into the Mediterranean but into regions beyond the Alps **The Italian Renaissance**

Peter Burke, 2014-02-23 In this brilliant and widely acclaimed work Peter Burke presents a social and cultural history of the Italian Renaissance He discusses the social and political institutions that existed in Italy during the fifteenth and sixteenth centuries and he analyses the ways of thinking and seeing that characterized this period of extraordinary artistic creativity Developing a distinctive sociological approach Peter Burke is concerned not only with the finished works of Michelangelo Raphael Leonardo da Vinci and others but also with the social background patterns of recruitment and means of subsistence of this cultural elite He thus makes a major contribution to our understanding of the Italian Renaissance and to our comprehension of the complex relations between culture and society

Burke has thoroughly revised and updated the text for this new edition including a new introduction and the book is richly illustrated throughout It will have a wide appeal among historians sociologists and anyone interested in one of the most creative periods of European history

The Italian City-State Philip Jones,1997-05-22 Italy in the Middle Ages was unique among the countries of Europe in recreating in a changed environment the urban civilization of antiquity the society culture and political formations of city states This book examines the origins and nature of this phenomenon from the fall of Rome to the eve of its consummation the Italian Renaissance The explanation is sought in Italy's singular double existence between two contrasted worlds ancient and medieval The ancient was characterised by the total predominance of the landed aristocracy in economy and society enforced through a peculiar system of city states embracing town and country The new medieval influences were marked by the separation of town country and aristocracy by the identification of towns with trade and a mercantile bourgeoisie and by commercial and proto industrial revolution Italy shared in both worlds It remained a land of cities and of an urbanized ruling class except in the Norman South and re established territorial city states but the states were very different from those of antiquity the city leaders in the commercial revolution and Italy itself seen as a nation of shopkeepers birthplace of capitalism In this fascinating and ground breaking study Philip Jones traces in detail the tension and interaction between the two traditions civic and patrician mercantile and bourgeois through all phases of Italian life to their culmination in two rival regimes of communes and despots

The Italian Renaissance in the German Historical Imagination Martin A. Ruehl,2015-10-15 Explores German engagement with the Italian Renaissance in the decades from German unification to the Weimar republic

The Origins of the State in Italy, 1300-1600 Julius Kirshner,2009-05-15 The beginnings of the state in Europe is a central topic of contemporary historical research The making of such early modern Italian regional states as Florence the kingdom of Naples Milan and Venice exemplifies a decisive turn in the state tradition of Western Europe The Origins of the State in Italy 1300 1600 represents the best in American British and Italian scholarship and offers a valuable and critical overview of the key problems of the emergence of the state in Europe Some of the topics covered include the political legitimacy of the aborning regional states the changing legal culture the conflict between church and state the forces shaping public finances and the creation of the Italian League The eight essays in this collection originally appeared in the Journal of Modern History Contributors include Roberto Bizzocchi Giorgio Chittolini Trevor Dean Riccardo Fubini Elena Fasano Guarini Aldo Mazzacane Anthony Molho and Pierangelo Schiera This volume will appeal to historians historical sociologists and historians of political thought

Lordship and the Decentralized State in Late Medieval Europe Erika Graham-Goering,Jim van der Meulen,Frederik Buylaert,2025-01-23 Lordship and the Decentralized State in Late Medieval Europe rethinks the rise of modern European states as a process of decentralization The idea that states made lordships obsolete is challenged by showing how the distribution of authority among local lords reinforced the development of new political systems

Isolationist States in an Interdependent World Helga Turku,2016-05-06 States that

withdraw from the international system provide insight into an unexplored area of international relations in terms of rationality self interest power politics cooperation and alliances Indeed isolationism in an interdependent state system goes against the logic of modern society and state systems Using historical comparative and inductive analysis Helga Turku explains why states may choose to isolate themselves both domestically and internationally using comparative historical analysis to flesh out isolationism as a concept and in practice The book examines extreme forms of self imposed domestic and international isolation in an interdependent international system noting the effects on both the immediate interests of a ruling regime and the long term national interests of the state and the populace State Formations John L. Brooke,Julia C. Strauss,Greg Anderson,2018-03-29 Featuring a sweeping array of essays from scholars of state formation and development this book presents an overview of approaches to studying the history of the state Focusing on the question of state formation this volume takes a particular look at the beginnings structures and constant reforming of state power Not only do the contributors draw upon both modernist and postmodernist theoretical perspectives they also address the topic from a global standpoint examining states from all areas of the world In their diverse and thorough exploration of state building the authors cross the theoretical geographic and chronological boundaries that traditionally shape this field in order to rethink the customary macro and micro approaches to the study of state building and make the case for global histories of both pre modern and modern state formations U.S. Army War College Guide to National Security Issues: Theory of war and strategy J. Boone Bartholomees,Army War College (U.S.). Strategic Studies Institute,2012 This edition of the U S Army War College Guide to National Security Policy and Strategy continues to reflect the structure and approach of the core national security strategy and policy curriculum at the War College The 5th Edition is published in two volumes that correspond roughly to the Department of National Security and Strategy s core courses Theory of War and Strategy and National Security Policy and Strategy Like previous editions this one is based on its predecessor but contains both updates and new scholarship Over a third of the chapters are new or have undergone significant rewrites Many chapters some of which appeared for years in this work have been removed Nevertheless the book remains unchanged in intent and purpose Although this is not primarily a textbook it does reflect both the method and manner we use to teach strategy formulation to America s future senior leaders The book is not a comprehensive or exhaustive treatment of either strategic theory or the policymaking process Both volumes are organized to proceed from the general to the specific Thus the first volume opens with general thoughts on the nature and theory of war and strategy proceeds to look at the complex aspect of power and concludes with specific theoretical issues Similarly the second volume begins by examining the policy strategy process moves to a look at the strategic environment and concludes with some specific issues This edition continues the effort begun in the 4th Edition to include several short case studies to illustrate the primary material in the volume **Urban Dreams, Rural Commonwealth** Paul Musselwhite,2018-12-21 The English settlers who staked their claims in the Chesapeake Bay were

drawn to it for a variety of reasons Some sought wealth from the land while others saw it as a place of trade a political experiment or a potential spiritual sanctuary But like other European colonizers in the Americas they all aspired to found organize and maintain functioning towns an aspiration that met with varying degrees of success but mostly failure Yet this failure became critical to the economy and society that did arise there As *Urban Dreams Rural Commonwealth* reveals the agrarian plantation society that eventually sprang up around the Chesapeake Bay was not preordained rather it was the necessary product of failed attempts to build cities Paul Musselwhite details the unsuccessful urban development that defined the region from the seventeenth century through the Civil War showing how places like Jamestown and Annapolis despite their small size were the products of ambitious and cutting edge experiments in urbanization comparable to those in the largest port cities of the Atlantic world These experiments though stoked ongoing debate about commerce taxation and self government Chesapeake planters responded to this debate by reinforcing the political economic and cultural authority of their private plantation estates with profound consequences for the region s laborers and the political ideology of the southern United States As Musselwhite makes clear the antebellum economy around this well known waterway was built not in the absence of cities but upon their aspirational wreckage

Jews and State Building ,2024-12-09 This volume aims to shed new light on the history of the Jews in Italy between the early modern period and the emergence of a unified Italian state explicitly placing Jews within the history of the state building process It seeks to reconsider Jewish history systematically by stressing the relation of Jews and the state and to trace how Jews and their communities were reshaped in the early modern period

The City-States in Late Medieval Italy Mario Ascheri,Fabrizio Ricciardelli,2024-07-31T16:25:00+02:00 From the 11th century onwards many Italian towns achieved independence as political entities unhindered by any centralising power Until the late 13th century when the regimes of individual tyrants took over in most towns these communes were the scene of a precocious and very well documented experiment in republican self government The authors draw on a rich variety of contemporary material both documentary and literary to portray the world of the republican regimes focusing on the public spirit and factional strife that was to tear them apart Discussion of the artistic and social lives of the inhabitants shows how these towns were the seedbeds of the cultural achievements of the early Renaissance

Civil Blood Amanda G. Madden,2025-11-15 Civil Blood is a study of the practice of vendetta among the civic elites in sixteenth century Italy and illustrates the complex and integral role that vendetta violence played in civic life and state formation on the winding path to state centralization At many temporal geographic and political points in early modern Italy vendetta appears to have not only disrupted but also constituted the processes by which the modern state emerged Amanda G Madden examines vendetta as both central to politics and as an engine of change and illustrates the degree to which key phenomena of the period state centralization growing bureaucracies institutional reforms and the process of state formation were interpenetrated by and not simply opposed to ongoing factional violence among civic elites

Madden further illuminates in *Civil Blood* how elites utilized violent enmities to maintain a grip on political control and negotiated with the duke concerning political power and civic prerogatives As a result ruling elites not only defined their own place in governance but also shaped the function and definition of government *Educating the Catholic People* David Salomoni, 2021-07-19 In *Educating the Catholic People* David Salomoni reconstructs the complex educational landscape that arose in sixteenth century Italy and lasted until the French Revolution Over three centuries various religious orders both male and female took on the educational needs of cities and states on the Italian peninsula renewing the traditional humanist pedagogy Historians however have not attempted to produce a synthesis on this topic focusing mainly on the pedagogical activities of the Jesuits and neglecting the contributions and innovations of other groups This book addresses this historiographical gap providing a new chapter in the comparative study of pre modern education *The Oxford Handbook of Early Modern European History, 1350-1750* Hamish Scott, 2015-07-23 This Handbook re examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume II is devoted to Cultures and Power opening with chapters on philosophy science art and architecture music and the Enlightenment Subsequent sections examine Europe beyond Europe with the transformation of contact with other continents during the first global age and military and political developments notably the expansion of state power

Gender and Family Networks in Early Modern Italy Megan Moran, 2025-10-01 Women from the Ricasoli and Spinelli families formed a wide variety of social networks within and beyond Florence through their letters as they negotiated interpersonal relationships and lineage concerns to actively contribute to their families in early modern Italy Women were located at the center of social networks through their work in bridging their natal and marital families cultivating commercial contacts negotiating family obligations and the demands of religious institutions facilitating introductions for family and friends and forming political patronage ties This book argues that a network model offers a framework of analysis in which to deconstruct patriarchy as a single system of institutionalized dominance in early modern Italy Networks account for female agency as an interactive force that shaped the kinships ties affective relationships material connections and political positions of these elite families as women constructed their own narratives and negotiated their own positions in family life

Contesting the City Christian D. Liddy, 2017-08-15 The political narrative of late medieval English towns is often reduced to the story of the gradual intensification of oligarchy in which power was exercised and projected by an ever smaller ruling group over an increasingly subservient urban population *Contesting the City* takes its inspiration not from English historiography but from a more dynamic continental scholarship on towns in the southern Low Countries Germany and France Its premise is that scholarly debate about urban oligarchy has obscured contemporary debate about urban citizenship It identifies from the records of English towns a tradition of urban citizenship which did not draw upon the intellectual legacy of classical models of the citizen This was a vernacular citizenship which was not peculiar to England but which was present elsewhere in late medieval Europe It was a citizenship that was defined and created through action There were multiple and divergent ideas about citizenship which encouraged townspeople to make demands to assert rights and to resist authority This volume exploits the rich archival sources of the five major towns in England Bristol Coventry London Norwich and York in order to present a new picture of town government and urban politics over three centuries The power of urban governors was much more precarious than historians have imagined Urban oligarchy could never prevail whether ideologically or in practice when there was never a single fixed meaning of the citizen

Electing the Pope in Early Modern Italy, 1450-1700 Miles Pattenden, 2017-07-14 *Electing the Pope in Early Modern Italy 1450 1700* offers a radical reassessment of the history of early modern papacy constructed through the first major analytical treatment of papal elections in English Papal elections with their ceremonial pomp and high drama are compelling theatre but until now no one has analysed them on the basis of the problems they created for cardinals how were they to agree rules and enforce them How should they manage the interregnum How did they decide for whom to vote How was the new pope to assert himself over a group of men who until just moments before had been his equals and peers This study traces how the cardinals responses to these problems evolved over the period from Martin V s return to Rome in 1420 to Pius VI s departure from it in 1798 placing them in the context of the papacy s wider institutional developments Miles Pattenden argues not only that the elective nature of the papal office was crucial to how papal history unfolded but also that the cardinals of the fifteenth to eighteenth centuries present us with a unique case study for observing the approaches to decision making and problem solving within an elite political group

Immerse yourself in the artistry of words with is expressive creation, **The Italian Renaissance State** . While this might not be the The Italian Renaissance State full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of The Italian Renaissance State eBooks, including some popular titles.

FAQs About The Italian Renaissance State Books

What is a The Italian Renaissance State PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a The Italian Renaissance State PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a The Italian Renaissance State PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a The Italian Renaissance State PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a The Italian Renaissance State PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
