Folk-Tales of Napoleon: Napoleon under the Russian Honore de Balzac, Most of the literature that has its origin in the life and career of a great man may be grouped and classified under two heads history and biography The part that relates to the man s actions and to the influence that such actions have had in shaping the destinies of peoples and states belongs in the one class while the part that derives its interest mainly from the man s personality and deals chiefly with the mental and moral characteristics of which his actions were the outcome goes properly into the other The value of the literature included in these two classes depends almost wholly upon truth that is upon the precise correspondence of the statements made with the real facts of the man s life and career History is worse than useless if it does not accurately chronicle and describe events and biography is valueless and misleading if it does not truly set forth individual character There is however a kind of great man literature in which truth is comparatively unimportant and that is the literature of popular legend and tradition Whether it purports to be historical or biographical or both it derives its interest and value from the light that it throws upon the temperament and character of the people who originate it rather than from the amount of truth contained in the statements that it makes about the man The folk tales of Napoleon Bonaparte herewith presented if judged from the viewpoint of the historian or the biographer are absurdly and grotesquely untrue but to the anthropologist and the student of human nature they are

extremely valuable as self revelations of national character and even to the historian and the biographer they have some interest as evidences of the profoundly deep impression made by Napoleon s personality upon two great peoples the Russians and the French The first story which is entitled Napoleonder is of Russian origin and was put into literary form or edited by Alexander Amphiteatrof of St Petersburg It originally appeared as a feuilleton in the St Petersburg Gazette of December 13 1901 As a characteristic specimen of Russian peasant folk lore it seems to me to have more than ordinary interest and value The treatment of the supernatural may seem to Occidental readers rather daring and irreverent but it is perfectly in harmony with the Russian peasant s anthropomorphic conception of Deity and should be taken with due allowance for the educational limitations of the story teller and his auditors The Russian muzhik often brings God and the angels into his folk tales and does so without the least idea of treating them disrespectfully He makes them talk in his own language because he has no other language and if the talk seems a little grotesque and irreverent it is due to the low level of the narrator s literary culture and not to any intention on his part of treating God and the angels with levity The whole aim of the story is a moral and religious one The narrator is trying to show that sympathy and mercy are better than selfish ambition and that war is not only immoral but irrational The conversation between God the angels and the Devil is a mere prologue intended to bring Napoleon and Ivan angel on the stage and lay the foundation of the plot The story teller s keen sense of fun and humor is shown in many little touches but he never means to be irreverent The whole legend is set forth in the racy idiomatic highly elliptical language of the common Russian muzhik and is therefore extremely difficult of translation but I have tried to preserve as far as possible the spirit and flavor of the original *The Journal of American Folklore* ,1917 Possessions Judith Richardson,2005-10-31 Richardson argues that tales of haunting in the Hudson Valley are no mere echoes of the past but function in an ongoing contentious politics of place Possessions illuminates problems of belonging and possessing that haunt the USA as a whole
