The Line Of Polity:

The Line of Polity Neal Asher, 2009-08-21 Old enemies meet on new worlds in *The Line of Polity* the second novel in Neal Asher's popular Agent Cormac series. At the frontiers of human occupied space the Miranda space station has been utterly destroyed. Earth Central assigns Agent Ian Cormac to discover the truth because the alien bioconstruct Dragon seems the most likely culprit. Meanwhile rebellion is brewing on Masada. The planet's people are enslaved on the surface living in fear of their overlords in orbit who punish transgressions with laser strikes. Leaving their compounds also means death as monstrous predators roam the toxic wilderness. Civil war looms while a rebel biophysicist brings lethal Jain technology to this world. Agent Cormac must find out what connects these events if he is to avert catastrophe. *The Line of Polity* is followed by *Brass Man* the third title in the Agent Cormac series.

Polity Agent Neal Asher, 2009-08-21 *Polity Agent* is the fourth novel in Neal Asher's popular Agent Cormac series. There's danger without and within. Refugees arrive in the Polity from eight hundred years in Agent Cormac's future. And once they are through the gate they use is dumped into the sun as something dangerous and non-human is in pursuit. Cormac soon learns that the Maker civilization they have come from has been destroyed by alien Jain technology. Orlandine, an augmented human, is studying this lethal tech in Cormac's timeline. She may manage to harness its power or it might destroy her. Meanwhile Cormac is desperate to stamp down on this same technology but someone or something is spreading it. And just outside humanity's Polity worlds something very nasty indeed might just be pulling their strings. *Polity Agent* is followed by *Line War* in the action-packed Agent Cormac series.

Line War Neal Asher, 2008-09-04 *Line War* is the fifth and final novel in Neal Asher's action-packed Agent Cormac series. Their worlds are ending. The human Polity worlds are under attack from Erebus, a renegade AI. And it's now merged with lethal Jain technology and isn't afraid to use it. When Erebus kills millions on a world of no apparent significance, Agent Ian Cormac is sent to investigate. He's also secretly struggling with an ability no human should possess and starts questioning the motives of his AI masters. Further indiscriminate attacks attract the Polity's most dangerous individuals. Mr Crane, a brass killing machine, seeks vengeance. Orlandine, part AI and part human, hunts a weapon of appalling power. And Dragon plans to wake the makers of Jain technology from their ancient slumber. But can Erebus be stopped or is this the end for the Polity?

Gridlinked Neal Asher, 2004-09 This state-of-the-art cyberpunk science fiction tale stars Ian Cormac, a legendary Earth Central Security agent in a wealthy future where runcibles, matter transmitters controlled by AIs, allow interstellar travel in the blink of an eye.

Prador Moon Neal Asher, 2007-10-31 The Polity Collective, which benignly rules numerous star systems, has come up against a chilling opponent. The crablike Prador are bloodthirsty aliens bent on crushing the Polity and stealing its runcible technology, and they possess a frightening superiority in space warfare. Two wild-card humans, a vengeance-driven soldier and a runcible technician, must now combine their talents in an attempt to stop a seemingly invincible Prador warship from incinerating yet another Polity world. Combining violence and cunning in a race against time, this is classic space opera from

one of the new masters of the genre Crossing the Line Svetlana Stephenson,2006 This pioneering book is the first to explore the experiences of homeless people in Russia in the late Soviet period and during post socialist transition By using in depth interviews Svetlana Stephenson places the narratives within the framework of theoretical perspectives on social spatial exclusion and advances the understanding of homelessness in Russia as an extreme case of social territorial displacement

Line War Neal L. Asher,2009 Science fiction The Polity is under attack from a melded AI entity with control of the lethal Jain technology yet the attack seems to have no coherence When one of Erebus wormships kills millions on the world of Klurhammon a high tech agricultural world of no real tactical significance agent Ian Cormac is sent to investigate though he is secretly struggling to control a new ability no human being should possess and beginning to question the motives of his AI masters Further attacks and seemingly indiscriminate slaughter ensue but only serve to bring some of the most dangerous individuals in the Polity into the war Mr Crane the indefatigable brass killing machine sets out for vengeance while Orlandine a vastly augmented haiman who herself controls Jain technology seeks a weapon of appalling power and finds allies from an ancient war Meanwhile Mika scientist and Dragon expert is again kidnapped by that unfathomable alien entity and dragged into the heart of things to wake the makers of Jain technology from their five million year slumber *Evaluating Global*

Sprague,1920 **Lives on the Line** Jeffrey J. Sallaz,2019 The call center industry is booming in the Philippines Around the year 2005 the country overtook India as the world s voice capital and industry revenues are now the second largest contributor to national GDP In *Lives on the Line* Jeffrey J Sallaz retraces the assemblage of a global market for voice over the past two decades Drawing upon case studies of sixty Filipino call center workers and two years of fieldwork in Manila he illustrates how offshore call center jobs represent a middle path for educated Filipinos who are faced with the dismaying choice to migrate abroad in search of prosperity versus stay at home as an impoverished professional A rich ethnographic study this book challenges existing stereotypes regarding offshore service jobs and sheds light upon the reasons that the Philippines has become the world s favored location for voice It looks beyond call centers and beyond India to advance debates concerning global capitalism the future of work and the lives of those who labor in offshored jobs **Congressional**

Record ,1894 **The Just War Tradition: Applying Old Ethics to New Problems** Davis Brown,2017-07-05 This collection examines the role of the just war tradition and its criteria in solving pressing present day challenges In particular it deals with three types of challenges to world public order One is anticipatory self defense in which one state attacks another to pre empt or prevent an attack on itself as the United States claimed in relation to Iraq in 2003 The second challenge is humanitarian intervention in which one state attacks another to stop gross large scale violations of human rights as NATO claimed to be doing on behalf of Kosovo in 1999 Both practices may erode world public order given the normative strength of

Article 2 4 of the UN Charter prohibiting the threat or use of force against other states However both practices pose dilemmas in that they also preserve world public order by not allowing impunity for human rights abusers or the misuse of international law to the advantage of genuine aggressors The third challenge is the execution of warfare in a new geopolitical environment characterized by new technologies and asymmetry of belligerents The chapters in this book written from a variety of disciplinary perspectives turn to the just war tradition to attempt to resolve these tensions This book was based on a special issue of the Journal of Military Ethics

The Line which Separates Sheila McManus, 2005-01-01 Nations are made and unmade at their borders and the forty ninth parallel separating Montana and Alberta in the late nineteenth century was a pivotal Western site for both the United States and Canada Blackfoot country was a key site of Canadian and American efforts to shape their nations and national identities The region s landscape aboriginal people newcomers railroads and ongoing cross border ties all challenged the governments efforts to create colonize and nationalize the Alberta Montana borderlands The Line Which Separates makes an important and useful comparison between American and Canadian government policies and attitudes regarding race gender and homesteading Federal visions of the West in general and the borderlands in particular rested on overlapping sets of assumptions about space race and gender those same assumptions would be used to craft the policies that were supposed to turn national visions into local realities The growth of a white female population in the region which should have whitened and easternized the region merely served to complicate emerging categories Both governments worked hard to enforce the lines that were supposed to separate good land from bad whites from aboriginals different groups of newcomers from each other and women s roles from men s roles The lines and categories they depended on were used to distinguish each West and thus each nation from the other Drawing on a range of sources from government maps and reports to oral testimony and personal papers The Line Which Separates explores the uneven way in which the borderlands were superimposed on Blackfoot country in order to divide a previously cohesive region in the late nineteenth century

Globalization on the Line C. Sadowski-Smith, 2016-04-30 The essays in Globalization on the Line criticize the almost exclusive emphasis on the ethnically constituted trans nation whose function as an instrument of de nationalization has become signified in the metaphorical use of the border Contributors focus on the surge of a more diverse variety of cultural forms of citizenship in response to the dramatic change that the geographies of U S border areas have undergone and simultaneously held to shape at the end of the 20th century In its attempt to move beyond examinations of de nationalized diasporic formations at the border several essays in the collection add an attention to the northern frontier a hemispheric perspective that was originally spawned by imagining new forms of citizenship within U S Mexico transborder cultures Instead of viewing globalization and nation states as two separate and opposed domains of theorization and politics Globalization on the Line contextualizes U S borders within global processes that are currently reconstituting the relationship between nation states and private corporations at the site of U S borders The volume thus adds to the almost

exclusive focus on the counter hegemonic diasporic trans nation an emphasis on various forms of citizenship that have emerged in response to increasingly more globally organized entities and practices **End of the Line** Barry C.

Lynn,2006-08-08 In September 1999 an earthquake devastated much of Taiwan toppling buildings knocking out electricity and killing 2 500 people Within days factories as far away as California and Texas began to close Cut off from their supplies of semiconductor chips companies like Dell and Hewlett Packard began to shutter assembly lines and send workers home A disaster that only a decade earlier would have been mainly local in nature almost cascaded into a grave global crisis The quake in an instant illustrated just how closely connected the world had become and just how radically different are the risks we all now face End of the Line is the first real anatomy of globalization It is the story of how American corporations created a global production system by exploding the traditional factory and casting the pieces to dozens of points around the world It is the story of how free trade has made American citizens come to depend on the good will of people in very different nations in very different regions of the world It is a story of how executives and entrepreneurs at such companies as General Electric Cisco Dell Microsoft and Flextronics adapted their companies to a world in which America's international policies were driven ever more by ideology rather than a focus on the long term security and well being of society Politicians have long claimed that free trade creates wealth and fosters global stability Yet Lynn argues that the exact opposite may increasingly be true as the resulting global system becomes ever more vulnerable to terrorism war and the vagaries of nature From a lucid explanation of outsourcing's true impact on American workers to an eye opening analysis of the ideologies that shape free market competition Lynn charts a path between the extremes of left and right He shows that globalization can be a great force for spreading prosperity and promoting peace but only if we master its complexities and approach it in a way that protects and advances our national interest *The political materialities of borders* Olga Demetriou,Rozita

Dimova,2018-10-18 The Political Materialities of Borders seeks to produce social theory at from the border rather than apprehending the border as mere epiphenomenon to urban or state driven social theoretical dynamics it calls for a specificity to the border in border studies as a rejuvenated space for theoretical enquiry **A Nation on the Line** Jan M.

Padios,2018-04-03 Jan M Padios examines the massive call center industry in the Philippines in the context of globalization race gender transnationalism and postcolonialism outlining how it has become a significant site of efforts to redefine Filipino identity and culture the Philippine nation state and the value of Filipino labor Milton and the Resources of the Line John

Creaser,2022 An analysis of the poetic line in Milton that considers the resources made available to the poet by lineation and how Milton explored and exploited them more resourcefully than any other English poet **The Line's Eye** Elisa New,1998

Is American vision implicitly possessive as a generation of critics contends By viewing the American poetic tradition through the prism of pragmatism Elisa New contests this claim A new reading of how poetry sees her work is a passionate defense of the power of the poem the ethics of perception and the broader possibilities of American sight American poems see more

fully and less invasively than accounts of American literature as an inscription of imperial national ideology would allow. Moreover, New argues their ways of seeing draw on and develop a vigorous mode of national representation alternative to the appropriative sort found in the quintessential American genre of the romance. Grounding her readings of Dickinson, Frost, Moore, and Williams in foundational texts by Edwards, Jefferson, Audubon, and Thoreau, New shows how varieties of attentiveness and solicitude cultivated in the early literature are realized in later poetry. She then discloses how these ideas infuse the philosophical notions about pragmatic experience codified by Emerson, James, and Dewey. As these philosophers insisted, and as New's readings prove, art is where the experience of experience can be had: to read as to write a poem is to let the line guide one's way.

Just Below the Line Korydon H. Smith, Jennifer Webb, Brent T. Williams, 2010-05-01. The South, with its high rates of poverty, older residents, residents with disabilities, extensive rural areas, and out-of-date housing policies and practices, serves as a canary in the coal mine for the impending nationwide housing crisis. Just Below the Line discusses how reworking the policies and practices of the housing industry in the South can serve as a model for the rest of the nation in meeting the physical and social needs of persons with disabilities and aging boomers.
