Disquiet, Please! David Remnick, Henry Finder, 2010-03-09 The New Yorker is of course a bastion of superb essays, influential investigative journalism and insightful arts criticism. But for eighty years it's also been a hoot. Now an uproarious sampling of its funny writings can be found in this collection by turns satirical and witty, misanthropic and menacing. From the 1920s onward but with a special focus on the latest generation here are the humorists who have set the pace and stirred the pot, pulled the leg and pinched the behind of America. The comic lineup includes Christopher Buckley, Ian Frazier, Veronica Geng, Garrison Keillor, Steve Martin, Susan Orlean, Simon Rich, David Sedaris, Calvin Trillin and many others. If laughter is the best medicine, *Disquiet, Please!* is truly a wonder drug.

Environmental Communication and Travel Journalism Lyn McGaurr, 2015-07-16 Travel journalism about natural attractions is environmental communication at the cusp of consumerism and concern. Countries and regions that market forests, rivers and wildlife to international tourists drive place of origin brand recognition that benefits exporters in other sectors. Place branding in such destinations is not just PR for environmentally sustainable development and consumption but also a political enterprise. Environmental Communication and Travel Journalism considers tourism public relations as elite reputation management and applies models of political conflict and source-media relations to the analysis of the soft genre of travel journalism. The book seeks to understand how, in whose interests and against what odds, discourses of cosmopolitanism and place branding influence the way travel journalists represent vulnerable and contested environments. Informed by interviews with journalists and their sources, Environmental Communication and Travel Journalism identifies and theorises networks, cultures, discursive strategies and multiple loyalties that can assist or interrupt flows of environmental concern in the cosmopolitan public sphere. The book should be of interest to scholars of environmental communication, environmental politics, journalism, tourism, marketing and public relations.
