The Lorraine Campaign The European Theater Of Operations:

The Lorraine Campaign Hugh Cole, 2015-07-29 Includes maps In 1946 the Historical Division of the War Department made plans for the preparation of a nine volume series recounting the history of the European Theater of Operations There was no precedent in the experience of the United States Army for an official narrative account of military operations on the grand scale Careful study of the official histories produced by the European combatants after World War I showed that these histories could offer little in the way of a pattern for recording the European campaigns of 1944 and 1945 The drastic change from the trench warfare of 1914 18 to the mobile operations of 1944 45 had complicated the task of the military historian In World War I a tactical situation represented by three divisions rising from the trenches in simultaneous attack on a narrow front permitted a reasonable unity in treatment and allowed the historian to write at the level of the army corps Thirty years later that same frontage might be held by a single reinforced regiment The fluid condition of the combat zone in World War II and the wide dispersion of troops over the battle area resulting from the impact of the tank the plane the machine gun the truck and the radio telephone inevitably induced a degree of fragmentization and an unavoidable lack of sequence in the narrative of events on the battlefields of 1944 and 1945 It was decided therefore that the common denominator in the present series would be the division since the division represents the basic tactical and administrative unit of the combined arms Although emphasis is placed on the division organization by chapters generally will follow the story of the army corps as a means of achieving narrative and tactical unity The Lorraine Campaign is the first volume to be published in the projected series embracing the history of the American armies in the European Theater of Operations This volume deals with the campaign waged by the Third Army in Lorraine during the period 1 September 18 December 1944 Since it has been impossible to organize the writing of individual volumes so that they may be published in the chronological sequence followed by military operations the reader interested in the history of the Third Army before or after the events here set forth must wait until the appropriate volumes are completed The present volume is concerned with the tactical operations of the Third Army and its subordinate units The story of command and decision in higher headquarters is told only when it has a direct bearing on the campaign in Lorraine The logistics of this campaign likewise have been subordinated to the tactical narrative The basic unit in the present narrative is the infantry or armored division The story of the division has been told in terms of its regiments and battalions but swerves on occasion to the company or the platoon just as the operations themselves turned on the exploits of these smaller units *The Lorraine Campaign* Hugh Marshall Cole, 1984 This account focuses on the tactical operations of the Third Army and its subordinate units between 1 September and 18 December 1944

War II.: The Lorraine campaign ,1950 **Dryden's Second Hundred Years: a Central New York Town in the 20Th Century** Elizabeth Denver Gutches,2020-11-18 Dryden s Second Hundred Years Part II does two exceptional things First its tight focus on local participation in World War II paradoxically chronicles the entire war a conflict which drew its combatants from small rural townships like Dryden NY assigned and scattered them throughout the world and then delivered the survivors back home again creating in every small American community a microcosm of the entire conflict an eye witnessing of the whole story Second that story is told here largely in local participants own words in letters from camps troopships carriers cruisers foxholes and hospitals their voices a quiet backdrop to the horrific war they had been asked to fight The resulting narrative suggests that those who don t know history while not always doomed to repeat it are very likely doomed to live their lives without perspective to mistake inconvenience for hardship and hardship for catastrophe and to be blind to the miracle of everyday normal life **General William E. DePuy** Henry G. Gole,2008-09-26 From the late 1960s to the

late 1970s the United States Army was a demoralized institution in a country in the midst of a social revolution The war in Vietnam had gone badly and public attitudes about it shifted from indifference to acceptance to protest Army Chief of Staff General Creighton Abrams directed a major reorganization of the Army and appointed William E DePuy 1919 1992 commander of the newly established Training and Doctrine Command TRADOC in 1973 DePuy already had a distinguished record in positions of trust and high responsibility successful infantry battalion command and division G 3 in World War II by the age of twenty five Assistant Military Attach in Hungary detail to CIA in the Korean War alternating tours on the Army Staff and in command of troops As a general officer he was General Westmoreland s operations officer in Saigon commander of the 1st Infantry Division in Vietnam Special Assistant to the Chairman Joint Chiefs of Staff and Assistant Vice Chief of Staff Army But it was as TRADOC Commander that DePuy made his major contribution in integrating training doctrine combat developments and management in the U S Army He regenerated a deflated post Vietnam Army effectively cultivating a military force prepared to fight and win in modern war General William E DePuy Preparing the Army for Modern War is the first full length biography of this key figure in the history of the U S Army in the twentieth century Author Henry G Gole mined secondary and primary sources including DePuy s personal papers and extensive archival material and he interviewed peers subordinates family members and close observers to describe and analyze DePuy s unique contributions to the Army

and nation Gole guides the reader from DePuy's boyhood and college days in South Dakota through the major events and achievements of his life DePuy was commissioned from the ROTC six months before the attack on Pearl Harbor witnessed poor training and leadership in a mobilizing Army and served in the 357th Infantry Regiment in Europe from the bloody fighting in Normandy until victory in May 1945 when DePuy was stationed in Czechoslovakia Gole covers both major events and interesting asides DePuy was asked by George Patton to serve as his aide he supervised clandestine operations in China he served in the Office of the Army Chief of Staff during the debate over massive retaliation vs flexible response he was instrumental in establishing Special Forces in Vietnam he briefed President Lyndon B Johnson in the White House DePuy fixed a broken Army In the process his intensity and forcefulness made him a contentious figure admired by some and feared by others He lived long enough to see his efforts produce American victory in the Gulf War of 1991 In General William E DePuy Gole presents the accomplishments of this important military figure and explores how he helped shape the most potent military force in the history of the world

United States Army in World War II.: The Ardennes: Battle of the Bulge, 1965 United States Army in World War II., 1953 *Bracketing the Enemy* John R. Walker, 2013-08-08 After the end of World War II General George Patton declared that artillery had won the war Yet howitzers did not achieve victory on their own Crucial to the success of these big guns were forward observers artillerymen on the front lines who directed the artillery fire Until now the vital role of forward observers in ground combat has received little scholarly attention In *Bracketing the Enemy* John R Walker remedies this oversight by offering the first full length history of forward observer teams during World War II As early as the U S Civil War artillery fire could reach as far as two miles but without an FO forward observer to report where the first shot had landed in relation to the target and to direct subsequent fire by outlining or bracketing the targeted range many of the advantages of longer range fire were wasted During World War II FOs accompanied infantrymen on the front

lines Now for the first time gun crews could bring deadly accurate fire on enemy positions immediately as advancing riflemen encountered these enemy strongpoints According to Walker this transition from direct to indirect fire was one of the most important innovations to have occurred in ground combat in centuries Using the 37th Division in the Pacific Theater and the 87th in Europe as case studies Walker presents a vivid picture of the dangers involved in FO duty and shows how vitally important forward observers were to the success of ground operations in a variety of scenarios FO personnel not only performed a vital support function as artillerymen but often transcended their combat role by fighting as infantrymen sometimes even leading soldiers into battle And yet although forward observers lived fought and bled with the infantry they were ineligible to wear the Combat Infantryman s Badge awarded to the riflemen they supported Forward observers are thus among the unsung heroes of World War II Bracketing the Enemy signals a long overdue recognition of their distinguished service The Engineer ,1998 *Air Power for Patton's Army* David N. Spires,2002 Presents a case study of one air ground team s experience with the theory and practice of tactical air power employed during the climactic World War 2 campaigns against the forces of Nazi Germany **Armoured Warfare** Alaric Searle,2017-02-09 This book charts the history of armoured warfare from the first use of the tank in 1916 right through to the 21st century adopting military political and global perspectives Alaric Searle explores the origins of the tank the part it played in the First World War and its contribution to the outcome of the war He considers its role as a tool of propaganda the military controversies of the interwar period and the employment of armoured forces in all the major theatres in the Second World War Since the First World War major and medium sized powers have invested heavily in armoured forces Searle looks at the conduct of mechanised warfare in Korea Indo China and Vietnam and during conflicts such as the Arab Israeli Wars and the Gulf Wars Armoured Warfare adopts a global perspective providing the most comprehensive survey of the history of the subject currently available With a detailed bibliography of both primary and secondary sources it is an ideal companion for those studying armoured warfare modern military history and war studies
