Catholic and Protestant Translations of the Imitatio Christi, 1425-1650 Mr Maximilian von Habsburg, 2013-07-28 The Imitatio Christi is considered one of the classic texts of Western spirituality There were 800 manuscript copies and more than 740 different printed editions of the Imitatio between its composition in the fifteenth century and 1650 During the Reformation period the book retained its popularity with both Protestants and Catholics with the exception of the Bible it was the most frequently printed book of the sixteenth century In this pioneering study the remarkable longevity of the Imitatio across geographical chronological linguistic and confessional boundaries is explored Rather than attributing this enduring popularity to any particular quality of universality this study suggests that its key virtue was its appropriation by different interest groups That such an apparently Catholic and monastic work could be adopted and adapted by both Protestant reformers and Catholic activists including the Jesuits poses intriguing questions about our understanding of Reformation and Counter Reformation theology and confessional politics

This study focuses on the editions of the *Imitatio* printed in English French German and Latin between the 1470s and 1650 It offers an ambitious and comprehensive survey of the process of translation and its impact and contribution to religious culture In so doing it offers a fresh analysis of spirituality and devotion within their proper late medieval and early modern contexts It also demonstrates that spirituality was not a peripheral dimension of religion but remains at the very heart of both Catholic and Protestant self perception and identity **Athenaeum** ,1874 **The Correspondence of Charles Darwin:**

Volume 23, 1875 Charles Darwin,2015-12-03 This volume is part of the definitive edition of letters written by and to Charles Darwin the most celebrated naturalist of the nineteenth century Notes and appendixes put these fascinating and wide ranging letters in context making the letters accessible to both scholars and general readers Darwin depended on correspondence to collect data from all over the world and to discuss his emerging ideas with scientific colleagues many of whom he never met in person The letters are published chronologically Volume 23 includes letters from 1875 the year in which Darwin wrote and published *Insectivorous plants* a botanical work that was a great success with the reading public and started writing *Cross and self fertilisation in the vegetable kingdom* The volume contains an appendix on the 1875 anti vivisection debates with which Darwin was closely involved giving evidence before a Royal Commission on the subject

Notes and Queries ,1905 **The Alexander Pope Encyclopedia** Pat Rogers,2004-03-30 Alexander Pope 1688 1744 was the most important English poet of the 18th century as well as an essayist satirist and critic Many of his sayings are still quoted today His *Essay on Criticism* shaped the aesthetic views of English Neoclassicism while his *Essay on Man* reflected the moral views of the Enlightenment He participated fully in the critical debates of his time and was one of the few poets who supported himself through his writing This reference conveniently summarizes his life and works Included are several hundred alphabetically arranged entries on Pope s works subjects that interested him historical events that impacted Pope s life and work cultural terms and categories Pope s family members and acquaintances major scholars and critics and various other topics related to his writings The entries reflect current scholarship and cite works for further reading The encyclopedia also provides a chronology and concludes with a selected general bibliography Because of Pope s central importance to the Enlightenment this book is also a useful companion to 18th century literary and intellectual culture
